political developments in South Africa during the 1970s and 1980s up to the first democratic elections in 1994 Following a hiatus in the 1960s the Natal Indian Congress NIC in South Africa was revived in 1971 In fascinating detail Ashwin Desai and Goolam Vahed bring the inner workings of the NIC to life against the canvas of major political developments in South Africa during the 1970s and 1980s and up to the first democratic elections in 1994 The NIC was relaunched during the rise of the Black Consciousness Movement which attracted a following among Indian university students and whose invocation of Indians as Black led to a major debate about ethnic organisations such as the NIC This debate persisted in the 1980s with the rise of the United Democratic Front and its commitment to non racialism The NIC was central to other major debates of the period most significantly the lines drawn between boycotting and participating in government created structures such as the Tri Cameral Parliament Despite threats of banning and incarceration the NIC kept attracting recruits who encouraged the development of community organisations such as students radicalised by the 1980s education boycotts and civic protests Colour Class and Community The Natal Indian Congress 1971 1994 details how some members of the NIC played dual roles as members of a legal organisation and as allies of the African National Congress underground armed struggle Drawing on varied sources including oral interviews newspaper reports and minutes of organisational meetings this in depth study tells a largely untold history challenging existing narratives around Indian cabalism and bringing the African and Indian political story into present debates about race class and nation

### **International Mediation in the South African Transition**

Zwelethu Jolobe, 2019-04-09 This book challenges the conventional understanding of South Africa's transition to democracy as a home grown process through a comparative analysis of Commonwealth and United Nations mediation attempts Approaching power transition through the lens of South Africa Zwelethu Jolobe raises questions about how methods and types of mediation are understood and their appropriateness for certain stages of negotiation processes International Mediation in the South African Transition calls into question the generalisations about the determinants of success by international third parties in resolving internal conflicts It moves from the position that the success of a mediation effort depends on the examination of the time horizon of a conflict and on the contribution the mediation effort plays in improving the relationship between the belligerents The book argues that the international community particularly the Commonwealth and the United Nations played a profound and beneficial role in the political transition to end apartheid International Mediation in the South African Transition will be of interest to students and scholars of African politics conflict resolution international relations and global governance

Mandela Tom Lodge, 2007-07-26 Nelson Mandela the first African politician to acquire a world following remains in the 21st century an iconic figure But what are the sources of his almost mythic appeal And to what extent did Mandela self consciously create the status of political hero that he now enjoys This new and highly revealing biography examines these questions in detail for the first time Drawing on a range of original sources it presents a host of fresh insights about the shaping of Mandela's personality and public persona from his childhood days and

early activism through his long years of imprisonment to his presidency of the new South Africa Throughout Lodge emphasizes the crucial interplay between Mandela's public career and his personal or private world showing how his heroic status was a product both of his leading position within the anti apartheid movement and his own deliberate efforts to supply a form of quasi messianic leadership for that movement And as Lodge shows Mandela's huge international appeal is a compelling and unusual cocktail Of the sacred and the secular Of traditional African values and global media savvy And of human vulnerability interwoven with the grand narrative of liberation

**The Afrikaner's Emancipation** Barry Botha, 2008-11 President Mandela's stand in negotiations before during and after imprisonment was attainment of universal democratic rights for all citizens in South Africa His counterpart President F W de Klerk's condition was protection of minority rights a position he knew could not be sustained but he did persuade whites to support it until he in the end capitulated and they also The result was a peaceful transition to black majority rule but a great number of Afrikaners accepted the handing over of power without rejecting their apartheid ideology The Afrikaner's Apartheid Mindset was based on an attitude of superiority and a false belief that apartheid was scripturally justified Although most Christian churches rejected apartheid as sin the biggest Afrikaans Protestant Church the Dutch Reformed Church only did so in 1986 Many Afrikaner Christians still have not personally accepted this truth thus binding themselves to unfinished reconciliation Through reconciliation the Afrikaners need to make amends for a century of injustice against blacks whom they refused parliamentary representation On the other hand in the previous century of injustice before the Anglo Boer War 1899 British imperialism sought to end the Afrikaners independence Black economic empowerment a means of compensation or redress may eventually benefit all parties in the new era instead of being a cause of frustration and complaint

The Pitfalls of Liberal Democracy and Late Nationalism in South Africa M. Muiu, 2008-12-08 This book compares African and Afrikaner nationalisms to demonstrate that the transition from apartheid to liberal democracy in South Africa was a neo colonial settlement that left the economy and the military and security sectors under the control of the white minority while increasing wide socioeconomic disparities between rich and poor

Africa's Peacemakers Adekaye Adebajo, 2014-02-13 As Africa and its diaspora commemorate fifty years of post independence Pan Africanism this unique volume provides profound insight into the thirteen prominent individuals of African descent who have won the Nobel Peace Prize since 1950 From the first American president of African descent Barack Obama whose career was inspired by the civil rights and anti apartheid struggles promoted by fellow Nobel Peace laureates Martin Luther King Jr Nelson Mandela Desmond Tutu and Albert Luthuli to influential figures in peacemaking such as Ralph Bunche Anwar Sadat Kofi Annan and F W De Klerk as well as Ellen Johnson Sirleaf Leymah Gbowee Wangari Maathai and Mohamed El Baradei who have been variously involved in women's rights environmental protection and nuclear disarmament Africa's Peacemakers reveals how this remarkable collection of individuals have changed the world for better or worse

*Ending Apartheid* Jack Spence, David Welsh, 2014-06-06 The

release of Nelson Mandela from twenty seven years imprisonment in 1990 and the free elections which followed four years later were among the most dramatic events of the twentieth century David Welsh and J E Spence here examine the complex forces which lay behind that drama They chart the rise and decline of apartheid ideology in South Africa the internal insurrection and increased international isolation which characterised the 1980s and the political roller coaster ride of the period after 1990 as constitutional negotiations got underway Based on extensive interviews with those involved Ending Apartheid traces the negotiating process in penetrating detail noting the political skills of de Klerk and Mandela in keeping their potentially unruly constituencies in line and avoiding the major violence that many had predicted Reaching agreement on a democratic constitution was a major achievement that surprised many sceptical observers but the book ends on a more sombre note Reviewing the period subsequent to the transition it argues that while progress has been made the future of South Africa s democracy is still far from assured Written by two eminent scholars with decades of experience teaching in the field Ending Apartheid is an invaluable resource for all students of South African politics seeking a deeper understanding of a defining episode in recent history
