Rebecca Stephenson

The Kings English Strategies Of Translation In The Old English Boethius:

The King's English Nicole Guenther Disenza, 2006-06-01 Shows how Alfred the Great's translations of Latin works exposed Anglo Saxon elites to classical learning and Christian thought while bringing prestige to the king and his West Saxon dialect

The King's English Nicole Guenther Disenza, 2012-02-01 In the late ninth century while England was fighting off Viking incursions Alfred the Great devoted time and resources not only to military campaigns but also to a campaign of translation and education unprecedented in early medieval Europe *The King's English* explores how Alfred's translation of Boethius's *Consolation of Philosophy* from Latin into Old English exposed Anglo Saxon elites to classical literature history science and Christian thought More radically the *Boethius* as it became known told its audiences how a leader should think and what he should be providing models for leadership and wisdom that live on in England to this day It also brought prestige to its kingly translator and enshrined his dialect West Saxon as the literary language of the English people Nicole Guenther Disenza looks at the sources Alfred used in his translation and demonstrates his selectivity in choosing what to retain what to borrow and how to represent it to his Anglo Saxon audience Alfred's appeals to Latin prestige spiritual authority Old English poetry and everyday experience in England combine to make the Old English *Boethius* a powerful text and a rich source for our understanding of Anglo Saxon literature culture and society

The Old English Boethius Boethius, 2012-11-19 King Alfred's circle of scholars boldly refashioned Boethius *Consolation of Philosophy* from Latin into Old English bringing it to a vernacular audience for the first time Verse prologues and epilogues associated with the court of Alfred fill out this new edition translated from Old English by Susan Irvine and Malcolm R Godden

[The Anonymous Old English Homily: Sources, Composition, and Variation](#), 2020-11-23 The Anonymous Old English Homily Sources Composition and Variation offers important essays on the origins textual transmission and re use of early English preaching texts between the ninth and the late twelfth centuries Associated with the Electronic Corpus of Anonymous Homilies in Old English project these studies provide fresh insights into one of the most complex textual genres of early medieval literature Contributions deal with the definition of the anonymous homiletic corpus in Old English the history of scholarship on its Latin sources and the important unedited Pembroke and Angers Latin homiliaries They also include new source and manuscript identifications and in depth studies of a number of popular Old English homilies their themes revisions and textual relations Contributors are Aidan Conti Robert Getz Thomas N Hall Susan Irvine Esther Lemmerz Stephen Pelle Thijs Porck Winfried Rudolf Donald G Scragg Robert K Upchurch Jonathan Wilcox Charles D Wright Samantha Zacher See inside the book

A Companion to Boethius in the Middle Ages Noel Harold Kaylor, Philip Edward Phillips, 2012-05-03 The articles in this volume focus upon Boethius's extant works his *De arithmetica* and a fragmentary *De musica* his translations and commentaries on logic his five theological texts and of course his *Consolation of Philosophy* They examine the effects that Boethian thought has exercised upon the learning of later generations of scholars including to a degree scholars of the 21st century The field of Boethian

Studies has enjoyed a continuous history of works that treat either the entire Boethian tradition or major aspects of it This volume offers a comprehensive study and its construction is systematic considering Boethius's works both as central to the disciplines that they represent and to the areas of scholarly interest that they influenced and it is framed by articles on the historical contexts in which those works were produced Contributors include Noel Harold Kaylor Jr Stephen McCluskey Rosalind C Love Jean Yves Guillaumin Siobhan Nash Marshall John Casey Paul E Szarmach Christine Hehle Glynnis M Cropp Dario Bancato Ian Johnson Mark T Rimple Ann E Moyer Fabio Troncarelli and Philip Edward Phillips *Childhood & Adolescence in Anglo-Saxon Literary Culture* Susan Irvine, Winfried Rudolf, 2018-03-01 Childhood Adolescence in Anglo Saxon Literary Culture counters the generally received wisdom that early medieval childhood and adolescence were an unrelentingly bleak experience The contributors analyse representations of children and their education in Old English Old Norse and Anglo Latin writings including hagiography heroic poetry riddles legal documents philosophical prose and elegies Within and across these linguistic and generic boundaries some key themes emerge the habits and expectations of name giving expressions of childhood nostalgia the role of uneducated parents and the religious zeal and rebelliousness of youth After decades of study dominated by adult gender studies Childhood Adolescence in Anglo Saxon Literary Culture rebalances our understanding of family life in the Anglo Saxon era by reconstructing the lives of medieval children and adolescents through their literary representation **The Experience of Education in Anglo-Saxon Literature** Irina Dumitrescu, 2018-01-25 Anglo Saxons valued education yet understood how precarious it could be alternately bolstered and undermined by fear desire and memory They praised their teachers in official writing but composed and translated scenes of instruction that revealed the emotional and cognitive complexity of learning Irina Dumitrescu explores how early medieval writers used fictional representations of education to explore the relationship between teacher and student These texts hint at the challenges of teaching and learning curiosity pride forgetfulness inattention and despair Still these difficulties are understood to be part of the dynamic process of pedagogy not simply a sign of its failure The book demonstrates the enduring concern of Anglo Saxon authors with learning throughout Old English and Latin poems hagiographies histories and schoolbooks Old English Literature John D. Niles, 2016-02-18 This review of the critical reception of Old English literature from 1900 to the present moves beyond a focus on individual literary texts so as to survey the different schools methods and assumptions that have shaped the discipline Examines the notable works and authors from the period including Beowulf the Venerable Bede heroic poems and devotional literature Reinforces key perspectives with excerpts from ten critical studies Addresses questions of medieval literacy textuality and orality as well as style gender genre and theme Embraces the interdisciplinary nature of the field with reference to historical studies religious studies anthropology art history and more *The Cambridge History of Early Medieval English Literature* Clare A. Lees, 2012-11-29 Informed by multicultural multidisciplinary perspectives The Cambridge History of Early Medieval English Literature offers a new exploration of the

earliest writing in Britain and Ireland from the end of the Roman Empire to the mid twelfth century Beginning with an account of writing itself as well as of scripts and manuscript art subsequent chapters examine the earliest texts from England Ireland Scotland and Wales and the tremendous breadth of Anglo Latin literature Chapters on English learning and literature in the ninth century and the later formation of English poetry and prose also convey the profound cultural confidence of the period Providing a discussion of essential texts including Beowulf and the writings of Bede this History captures the sheer inventiveness and vitality of early medieval literary culture through topics as diverse as the literature of English law liturgical and devotional writing the workings of science and the history of women s writing

Anglo-Saxon England: Volume 35
 Malcolm Godden, Simon Keynes, 2008-01-17 Anglo Saxon England is the only publication which consistently embraces all the main aspects of study of Anglo Saxon history and culture linguistic literary textual palaeographic religious intellectual historical archaeological and artistic and which promotes the more unusual interests in music or medicine or education for example Articles in volume 35 include Record of the twelfth conference of the International Society of Anglo Saxonists at Bavarian American Centre University of Munich 1 6 August 2005 Virgil the Grammarian and Bede a preliminary study Knowledge of wheel dyes and pigments in Anglo Saxon England The representation of the mind as an enclosure in Old English poetry The origin of the numbered sections in Beowulf and in other Old English poems An ethnic dating of Beowulf Hrothgar s horses feral or thoroughbred the thryth of Ely in a lost calendar from Munich Alfred s epistemological metaphors eagan modes and scip modes Bibliography for 2005

Interfaces Between Language and Culture in Medieval England
 Alaric Hall, 2010-01-01 The twelve articles in this volume promote the growing contacts between medieval linguistics and medieval cultural studies generally Articles address medieval English linguistics and the interrelation in Anglo Saxon England between Latin and vernacular language and culture

The Political Thought of King Alfred the Great David Pratt, 2007-05-31 This book is a comprehensive study of political thought at the court of King Alfred the Great 871 99 It explains the extraordinary burst of royal learned activity focused on inventive translations from Latin into Old English attributed to Alfred s own authorship A full exploration of context establishes these texts as part of a single discourse which placed Alfred himself at the heart of all rightful power and authority A major theme is the relevance of Frankish and other European experiences as sources of expertise and shared concerns and for important contrasts with Alfredian thought and behaviour Part I assesses Alfred s rule against West Saxon structures showing the centrality of the royal household in the operation of power Part II offers an intimate analysis of the royal texts developing far reaching implications for Alfredian kingship communication and court culture Comparative in approach the book places Alfred s reign at the forefront of wider European trends in aristocratic life

A Companion to Alfred the Great, 2014-12-04 Eleven major scholars of the Anglo Saxon period consider Alfred the Great his cultural milieu and his achievements With revised or revived views of the Alfredian revival the contributors help set the agenda for future work on a most challenging period The collection features

the methods of history art history and literature in a newer key and with an interdisciplinary view on a period that offers less evidence than inference Major themes linking the essays include authorship translation practice and theory patristic influence Continental connections and advances in textual criticism The Alfredian moment has always surprised scholars because of its intellectual reach and its ambition The contributors to this collection describe how we must now understand that ambition Joinings Jonathan Davis-Secord,2016-01-01 The first comprehensive study of the use of compound words in Old English poetry homilies and philosophy Joinings explores the effect of compounds on style pace clarity and genre in Anglo Saxon vernacular literature Jonathan Davis Secord demonstrates how compounds affect the pacing of passages in Beowulf creating slow motion narrative at moments of significant violence how their structural complexity gives rhetorical emphasis to phrases in the homilies of Wulfstan and how they help to mix quotidian and elevated diction in Cynewulf s Juliana and the Old English translations of Boethius His work demonstrates that compound words were the epitome of Anglo Saxon vernacular verbal art combining grammar style and culture in a manner unlike any other feature of Old English

The Haskins Society Journal 22 William North,2012-05-17 The most up to date research in the period from the Anglo Saxons to Angevins This volume of the Haskins Society Journal continues its tradition of publishing the best historical and interdisciplinary research on the early and central middle ages in the Anglo Saxon Anglo Norman and Angevin worlds The topics of the essays range from legal influences on Alfred s Mosaic Prologue judicial processes in tenth century Iberia and the ecclesiology of the Norman Anonymous to the nature and implications of comital authority in the eleventh and twelfth century Anglo Norman realm and conceptions of servitude in legal thinking in thirteenth century Catalonia The volume also embraces art history with contributions on the medieval object as subject the banquet scene in the Bayeux Tapestry and there is a synoptic archeological exploration of early medieval Britain Finally an edition and translation of the De Abbatibus of Mont Saint Michel makes available in complete and reliable form an important witness to this Norman monastery s medieval past Contributors Thomas Bisson Charlotte Cartwright Martin Carver Kerrith Davies Wendy Davies Paul Freedman James Ginther Stefan Jurasinski Elizabeth Carson Pastan **Undoing Babel** Tristan Major,2018-02-05 The Tower of Babel narrative is one of the most memorable accounts of the Bible and its interpretative potential has produced a vast array of literary adaptations Undoing Babel is the first extensive examination of the development of the Babel narrative amongst Anglo Saxon authors from late antiquity to the eleventh century Tristan Major s illuminating and original insight into Anglo Latin and Old English works including the writings of Aldhelm Bede Alcuin lfric and Wulfstan reveals the cultural ideologies and anxieties that transformed the Babel narrative In doing so Major argues that these Babel narratives provide a basis for understanding the world s ethnic and linguistic diversity as well as a theological stimulus to evangelize non Christian and non European people Undoing Babel highlights the depth of literary innovation in this period and disproves any notion of a single Anglo Saxon reception of biblical sources The Politics of Language Rebecca Stephenson,2015-01-01 Comparing works by

the two most prolific authors of the era Byrhtferth of Ramsey and AElfric of Eynsham Rebecca Stephenson explains the politics that encouraged the simultaneous development of a simple English style and an esoteric Latin style *The Oxford History of Literary Translation in English* Roger Ellis, 2008-03-20 THE OXFORD HISTORY OF LITERARY TRANSLATION IN ENGLISH General Editors Peter France and Stuart Gillespie This groundbreaking five volume history runs from the Middle Ages to the year 2000 It is a critical history treating translations wherever appropriate as literary works in their own right and reveals the vital part played by translators and translation in shaping the literary culture of the English speaking world both for writers and readers It thus offers new and often challenging perspectives on the history of literature in English As well as examining the translations and their wider impact it explores the processes by which they came into being and were disseminated and provides extensive bibliographical and biographical reference material Volume 1 of The Oxford History of Literary Translation in English originates with what medievalists have long known that virtually everything written in the Middle Ages in English can be regarded one way or another as a translation and that medieval understandings of what constitutes literature were significantly more generous than many modern ones It uses modern as well as medieval understandings of translation to inform its discussions the two understandings have a great deal in common and it aims to situate medieval translation in English as fully as possible in its various cultural contexts this includes in particular the complicated inter relations of translation throughout the period into Latin and for the Middle English period of translation in French Since it also understands the Middle Ages of its title as including the first half of the sixteenth century it studies what has survived of nearly a thousand years of translation activity in England Textual Reception and Cultural Debate in Medieval English Studies María José Esteve Ramos, 2018-11-27 This book is a rigorous and broad update of the state of the art in the investigation of Old and Middle English The volume written by some of the best known experts in this field addresses different issues such as etymology manuscript sources and medieval literary traditions among others Its contents will be particularly useful for those interested in the different perspectives of current research in the field exhorting the reader to consider the relationship of the medieval textual heritage and language with both its contemporary medieval audience and the readers of the 21st century This book will appeal to specialists in Old and Middle English language and literature and also to university students In contrast with monographs which focus on a specific aspect these essays allow a broader panorama of what is being done and the approaches currently being used *The Cultural Power of Medieval Monarchy* Manuel Alejandro Rodríguez de la Peña, 2023-09-22 This book focuses on why the diffusion of the political theology of royal wisdom created Solomonic princes with intellectual interests all around the medieval West and how these learned rulers changed the face of Western Europe through their policies and the cultural power of medieval monarchy Princely wisdom narratives have been seen simply as a tool of royal propaganda in the Middle Ages but these narratives were much more than propaganda being rather a coherent ideology which transformed princely courts shaped mentalities and

influenced key political decisions This cultural power of medieval monarchy was channelled mainly through princely patronage of learning and the arts but the rise of administrative monarchy and its bureaucracy are equally related to these policies This can only be understood through a cultural approach to the history of medieval politics that is a history of the relationship between knowledge and power in the Middle Ages a topic much analyzed regarding the medieval church but sometimes neglected in the princely sphere This volume is a study that supplies an important comparative study of the reception in princely courts of a key aspect of European medieval civilization The ideal of Christian sapiential rulership and its corollary rationality in government This volume is essential reading for students and scholars interested in understanding the medieval roots of the cultural process which gave rise to the modern state

When people should go to the book stores, search establishment by shop, shelf by shelf, it is essentially problematic. This is why we offer the books compilations in this website. It will very ease you to look guide **The Kings English Strategies Of Translation In The Old English Boethius** as you such as.
