The Korean Decision, June 24-30, 1950 Glenn D. Paige, 1968 *Fearing the Worst* Samuel F. Wells Jr., 2019-11-26 After World War II the escalating tensions of the Cold War shaped the international system *Fearing the Worst* explains how the Korean War fundamentally changed postwar competition between the United States and the Soviet Union into a militarized confrontation that would last decades Samuel F Wells Jr examines how military and political events interacted to escalate the conflict Decisions made by the Truman administration in the first six months of the Korean War drove both superpowers to intensify their defense buildup American leaders feared the worst case scenario that Stalin was prepared to start World War III and raced to build up strategic arms resulting in a struggle they did not seek out or intend Their decisions stemmed from incomplete interpretations of Soviet and Chinese goals especially the belief that China was a Kremlin puppet Yet Stalin Mao and Kim Il sung all had their own agendas about which the United States lacked reliable intelligence Drawing on newly available documents and memoirs including previously restricted archives in Russia China and North Korea Wells analyzes the key decision points that changed the course of the war He also provides vivid profiles of the central actors as well as important but lesser known figures Bringing together studies of military policy and diplomacy with the roles of technology intelligence and domestic politics in each of the principal nations *Fearing the Worst* offers a new account of the Korean War and its lasting legacy **The Case for Combat** Edward J. Lordan, 2010-09-16 This book provides a historical analysis of presidential rhetoric regarding war and examines the similarities differences effectiveness and ethics of the persuasive strategies used by the White House through the history of the nation In the United States the decision to use military force typically is made by the president even though it is actually Congress that has the authority to commit the nation to war It is also the president's job to inform the American people when that decision has been made and to attempt to convince the citizens to support their government in the decision to go to war The book traces the development of the rhetoric used by presidents to convince Americans to go to war from the earliest days of the nation to the latest conflicts in Afghanistan and Iraq After an overview of the governmental issues related to committing to combat the author evaluates presidential speeches over the course of ten American conflicts to determine how effective and ethical presidents have been in communicating with various publics Taking neither a pro nor antiwar stance this text focuses entirely on the period leading up to the announcement of a formal conflict **Special Bibliography Series** United States Air Force Academy. Library, 1992 **Special Bibliography Series** , 1957 **Two Faces of National Interest** , **The Korean War** Paul Edwards, 2003-01-09 This historical dictionary of the Korean War is designed to provide brief but helpful information about all aspects of the war including units involved the United Nations political and military actions significant sites and operations and weapons use *Korea versus Korea* Barry Gills, 2005-06-21 This study traces the historic course of diplomatic competition between the rival Koreas within the context of a changing international system This innovative

The US, the UN and the Korean War Robert Barnes, 2014-02-28 Military social and economic historians have long appreciated the significance of the conflict in Korea in shaping the post war world The policy of containment was formed China was established as an important military power and the US increased its military expenditure fourfold as a result of a conflict which killed over 33 000 Americans What has been less appreciated is the role played by the United Nations and the British Commonwealth in influencing US strategy at this time of crisis the Truman administration invested time and effort into gaining UN approval for the conflict in Korea and the course of the war was adapted to keep UN allies often holding crucial strategic positions in other Cold War theatres in tow Robert Barnes develops a fresh perspective on these fluctuating relationships the tensions between Washington and its British Commonwealth allies and their impact on the direction of the conflict in order to challenge the common view that the United States was able to use its dominant position within the UN to pursue its Cold War ambitions with impunity This important new interpretation is supported by evidence from a wealth of sources from official government records to private papers and memoirs written by the most important American and

Commonwealth personalities directly involved in shaping the UN's response to the conflict. This study presents a thorough deconstruction of the decision making process behind US handling of the Korean War from the outbreak of conflict in 1950 to the Geneva Conference of 1954.
