Inventors in the age of the Enlightenment created lifelike androids capable of playing music on real instruments Music and the Forms of Life examines the link between such simulated life and music which began in the era s scientific literature and extended into a series of famous musical works by Haydn Mozart and Beethoven Music invented auditory metaphors for the scientific elements of life drive pulse sensibility irritability even metabolism investigated the affinities and antagonisms between life and mechanism and explored questions of whether and how mechanisms can come to life The resulting changes in the conceptions of both life and music had wide cultural resonance at the time and those concepts continued to evolve long after A critical part of that evolution was a nineteenth century shift in focus from moving androids to the projection of life in motion culminating in the invention of cinema Weaving together cultural and musical practices Lawrence Kramer traces these developments through a collection of case studies ranging from classical symphonies to modernist projections of waltzing specters by Mahler and Ravel to a novel linking Bach s Goldberg Variations to the genetic code The publisher gratefully acknowledges the generous support of the AMS 75 PAYS Fund of the American Musicological Society supported in part by the National Endowment for the Humanities and the Andrew W Mellon Foundation **The Roxburghe Library of Classics** ,1904 **Reader's Adviser and Bookman's Manual** ,1960 **Bookman's Manual** Bessie Graham,Hester R. Crosby,2016-03-22 This book is our century s most comprehensive and wise treatment of nihilism in all of its guises comparing favorably with Rosen Cavell and indeed with Spengler Crosby argues that our culture is genuinely haunted by nihilism expressing itself in the fideism of fundamentalism as well as in the

debilitating alienation from all orientation This results from a one sided development of Western culture Unlike most writers on this topic Crosby acknowledges many sources colluding to frame the culture of nihilism including the death of God the objectification of nature the meaninglessness of suffering in a mechanical universe the ephemerality of time in a world where value does not accumulate the arbitrariness of historicized reason the reduction of value to will and the alienation of the Cartesian ego These sources are reviewed in the first two parts of the book with the result that the phenomenon of nihilism becomes understandable In its third and fourth parts Crosby provides a critical analysis of the religious and philosophical forces leading to nihilism by discussing authors from the early modern period through Dostoyevsky Sartre Russell and Derrida He shows that these forces are skewed and impoverished and should not be allowed to determine our situation The comprehensive attention to detail and the multi perspectival interpretation demonstrates as well as asserts the richness of the culture that puts nihilism in its place Part Five finally rephrases the criticism of the sources of nihilism in positive ways Part Four in particular is a tour de force of philosophical argument Its richness of nuance plurality of views examined and adroitness of critical interpretation provide cumulatively a powerful non nihilistic reading of the philosophic tradition The force of the argument derives from its comprehensive cumulative character Crosby distinguishes and relates five areas of nihilism political moral epistemological cosmic and existential Throughout the book he illustrates and examines these as they are expressed in literature and art in daily life and practical affairs and in philosophy The book is richly erudite in its marshalling of consciousness from so many domains

Love and Russian Literature Ira Nadel, 2023-11-30 Russia haunted the British cultural imagination throughout the 20th century whether as a romantic source of literary and political inspiration or as a warning of creeping totalitarianism In this new book Ira Nadel charts the story of that influence through the work of some of the key figures in British literature across the century including Joseph Conrad Somerset Maugham Jane Harrison Virginia Woolf and H G Wells Framed by the story of two romantic encounters between Walter Benjamin and the actress Asja Lacis in

Moscow in 1926 and between Isaiah Berlin and Anna Akhmatova in 1945 Love and Russian Literature casts a vivid new light on the ways in which responses to Russia shaped the history of British modernism The Doctor in Literature Solomon Posen, 2005 Posen a retired physician and a former English major has indexed 1500 passages from approximately 600 novels short stories and plays describing physicians He also analyzes several persistent themes in literature such as doctors fees lack of time bedside manner and social status Posen s extensive research has uncovered a resentment of doctors and a discontent with the medical profession that transcends time and place Annotation 2004 Book News Inc Portland OR booknews com

Narrative Ethics Jakob Lothe, 2013-09-01 While Plato recommended expelling poets from the ideal society W H Auden famously declared that poetry makes nothing happen The 19 contributions to the present book avoid such polarized views and responding in different ways to the ethical turn in narrative theory explore the varied ways in which narratives encourage readers to ponder matters of right and wrong All work from the premise that the analysis of narrative ethics needs to be linked to a sensitivity to esthetic narrative form The ethical issues are accordingly located on different levels Some are clearly presented as thematic concerns within the text s considered while others emerge through or are generated by the presentation of character and event by means of particular narrative techniques The objects of analysis include such well known or canonical texts as Biblical Old Testament stories Mark Twain s Huckleberry Finn J R R Tolkien s The Lord of the Rings Vladimir Nabokov s Lolita Jonathan Littell s The Kindly Ones Ann Radcliffe s The Italian and Matthew Lewis s The Monk Others concentrate on less well known texts written in languages other than English There are also contributions that investigate theoretical issues in relation to a range of different examples *The Reader's Adviser* Winifred F. Courtney, 1977 The Bookman's Manual Bessie Graham, 1935 **Library of Congress Catalogs** Library of Congress, 1960 The Acoustic Self in English Modernism and Beyond Zoltan Varga, 2022-02-17 Drawing on the analogy between musical meaning making and human subjectivity this book develops the concept of the acoustic self exploring the ways in which musical characterization and structure are related to issues of subject representation in the modernist English novel The volume is framed around three musical topics the fugue absolute music and Gesamtkunstwerk arguing that these three modes of musicalization address modernist dilemmas around selfhood and identity Varga reflects on the manifestations of the acoustic self in examples from the works of E M Forster Aldous Huxley and Virginia Woolf and such musicians as Bach Beethoven Handel and Wagner An additional chapter on jazz and electronic music supplements these inquiries pursuing the acoustic self beyond modernism and thereby inciting further discussion and theorization of musical intermediality as well as recent sonic practices Probing the analogies in the complex interrelationship between music representation and language in fictional texts and the nature of human subjectivity this book will appeal to students and scholars interested in the interface of language and music in such areas as intermediality multimodality literary studies critical theory and modernist studies
