*The Last Capitalist* Steve Cullen, 2002 Speculative anarchist fiction a tool of analyzing the present society A time traveler from the 21st century heads back to our age to check out the obstinate refusers **Thinking Utopia** Jörn Rüsen, Michael Fehr, Thomas W. Rieger, 2006-12-01 After the breakdown of socialist and communist systems in the East it had become fashionable to declare the so called end of utopia end of history end of narratives The authors of this volume do not share this view but think that it is time to rehabilitate utopian thought The political concept of Utopia that has given its name to these transcendental projections onto the world has been too narrow to describe and analyze the moving forces of the mind perceiving human existence beyond reality By broadening the perspectives of utopian studies these essays enable the reader to reconstruct scholarly paradigms and strategies of utopian complex and holistic thinking in modern cosmology philosophy sociology in literary historical and political sciences and to compare traditions and ways of Western utopian thought to the practice in the East Anarchism and utopianism Laurence Davis, Ruth Kinna, 2024-06-04 This collection of original essays examines the relationship between anarchism and utopianism exploring the intersections and overlaps between these two fields of study and providing novel perspectives for the analysis of both The book opens with an historical and philosophical survey of the subject matter and goes on to examine antecedents of the anarchist literary utopia anti capitalism and the anarchist utopian literary imagination free love as an expression of anarchist politics and utopian desire and revolutionary practice Contributors explore the creative interchange of anarchism and utopianism in both theory and modern political practice debunk some widely held myths about the inherent utopianism of anarchy uncover the anarchistic influences active in the history of utopian thought and provide fresh perspectives on contemporary academic and activist debates about ecology alternatives to capitalism revolutionary theory and practice and the politics of art gender and sexuality Scholars in both anarchist and utopian studies have for many years acknowledged a relationship between these two areas but this is the first time that the historical and philosophical dimensions of the relationship have been investigated as a primary focus for research and its political significance given full and detailed consideration **The Routledge Companion to Yan Lianke** Riccardo Moratto, Howard Yuen Fung Choy, 2022-03-10 Yan Lianke is one of the most important prolific and controversial writers in contemporary China At the forefront of the mythorealist Chinese avant garde and using absurdist humor and grotesque satire Yan s works have caught much critical attention not only in the Chinese mainland Hong Kong and Taiwan but also around the world His critiques of modern China under both Mao era socialism and contemporary capitalism draw on a deep knowledge of history folklore and spirituality This companion presents a collection of critical essays by leading scholars of Yan Lianke from around the world organized into some of the key themes of his work Mythorealism Absurdity and Spirituality and History and Gender as well as the challenges of translating his work into English and other languages With an essay written by Yan Lianke himself this is a vital and authoritative resource for students and scholars looking to

understand Yan s works from both his own perspective and those of leading critics *Utopia Ltd.* Matthew Beaumont,2005-03-01 This book uncovers the historical preconditions for the explosive revival of utopian literature at the nineteenth century fin de si cle and excavates its ideological content It marks a contribution not only to the literary and cultural history of the late Victorian period and to the expanding field of utopian studies but to the development of a Marxist critique of utopianism The book is particularly concerned with three kinds of political utopia or anti utopia those of state socialism feminism and anti communism the characteristic expression of this last example being the cacotopia After an extensive contextual account of the politics of utopia in late nineteenth century England it devotes a chapter to each of these topics before developing an original reinterpretation of William Morris s seminal Marxist utopia *News from Nowhere*

**Utopia in the Age of Survival** S. D. Chrostowska,2021-10-19 A pathbreaking exploration of the fate of utopia in our troubled times this book shows how the historically intertwined endeavors of utopia and critique might be leveraged in response to humanity s looming existential challenges *Utopia in the Age of Survival* makes the case that critical social theory needs to reinstate utopia as a speculative myth At the same time the left must reassume utopia as an action guiding hypothesis that is as something still possible S D Chrostowska looks to the vibrant visionary mid century resurgence of embodied utopian longings and projections in Surrealism the Situationist International and critical theorists writing in their wake reconstructing utopia s link to survival through to the earliest most radical phase of the French environmental movement Survival emerges as the organizing concept for a variety of democratic political forms that center the corporeality of desire in social movements contesting the expanding management of life by state institutions across the globe Vigilant and timely balancing fine tuned analysis with broad historical overview to map the utopian impulse across contemporary cultural and political life Chrostowska issues an urgent report on the vitality of utopia *The Post-Utopian Imagination* M. Keith Booker,2002-01-30 In America the long 1950s were marked by an intense skepticism toward utopian alternatives to the existing capitalist order This skepticism was closely related to the climate of the Cold War in which the demonization of socialism contributed to a dismissal of all alternatives to capitalism This book studies how American novels and films of the long 1950s reflect the loss of the utopian imagination and mirror the growing concern that capitalism brought routinization alienation and other dehumanizing consequences The volume relates the decline of the utopian vision to the rise of late capitalism with its expanding globalization and consumerism and to the beginnings of postmodernism In addition to well known literary novels such as Nabokov s *Lolita* Booker explores a large body of leftist fiction popular novels and the films of Alfred Hitchcock and Walt Disney The book argues that while the canonical novels of the period employ a utopian aesthetic that aesthetic tends to be very weak and is not reinforced by content The leftist novels on the other hand employ a realist aesthetic but are utopian in their exploration of alternatives to capitalism The study concludes that the utopian energies in cultural productions of the long 1950s are very weak and that these works tend to dismiss utopian thinking as na Dive or

even sinister The weak utopianism in these works tends to be reflected in characteristics associated with postmodernism

*The Utopian Globalists* Jonathan Harris, 2013-02-25 THE UTOPIAN GLOBALISTS Crossing continents historical periods and cultural genres Jonathan Harris skilfully traces the evolution of utopian ideals from early modernism to the spectacularised and biennialised or banalised as some would say contemporary art world of today Michael Asbury University of the Arts London *The Utopian Globalists* is the second in a trilogy of books by Jonathan Harris examining the contours forces materials and meanings of the global art world along with its contexts of emergence since the early twentieth century The first of the three studies *Globalization and Contemporary Art* Wiley Blackwell 2011 anatomized the global art system through an extensive anthology of over 30 essays contextualized through multiple thematic introductions The final book in the series *Contemporary Art in a Globalized World* forthcoming Wiley Blackwell combines the historical and contemporary perspectives of the first and second books in an account focused on the mediatizations shaping and representing contemporary art and its circuits of global production dissemination and consumption This innovative and revealing history examines artists whose work embodies notions of revolution and human social transformation The clearly structured historical narrative takes the reader on a cultural odyssey that begins with Vladimir Tatlin s constructivist model for a Monument to the Third International 1919 a statement of utopian globalist intent via Picasso s 1940s commitment to Soviet communism and John and Yoko s Montreal Bedin to what the author calls the late globalism of the Unilever Series at London s Tate Modern The book maps the ways artists and their work engaged with and offered commentary on modern spectacle in both capitalist and socialist modernism throughout the eras of the Russian Revolution the Cold War and the increasingly globalized world of the past 20 years In doing so Harris explores the idea that the utopian globalist lineage in art remains torn between its yearning for freedom and a deepening identification with spectacle as a media commodity to be traded and consumed
