Six Cartesian Meditations Anders Jeffner, 1993-01-01 Peeters 1993 [Routledge Philosophy Guidebook to Husserl and the Cartesian Meditations](#) Arthur David Smith, 2003 Husserl is one of the most important philosophers of the twentieth century and his contribution to the phenomenology movement is widely recognised The Cartesian Meditations is his most famous and most widely studied work The book introduces and assesses Husserl's life and background to the Cartesian Meditations the ideas and text of the Cartesian Meditations and the continuing importance of Husserl's work to Philosophy

Derrida and Husserl Leonard Lawlor, 2002-07-04 A magnificent work that will definitely shape the discussion on Derrida for years to come Rodolphe Gasch What is the nature of the relationship of Jacques Derrida and deconstruction to Edmund Husserl and phenomenology Is deconstruction a radical departure from phenomenology or does it trace its origins to the phenomenological project In Derrida and Husserl Leonard Lawlor illuminates Husserl's influence on the French philosophical tradition that inspired Derrida's thought Beginning with Eugen Fink's pivotal essay on Husserl's philosophy Lawlor carefully reconstructs the conceptual context in which Derrida developed his interpretation of Husserl Lawlor's investigations of the work of Jean Cavaillès Tran Duc Thao and Jean Hyppolite as well as recent texts by Derrida reveal the depth of Derrida's relationship to Husserl's phenomenology Along the way Lawlor revisits and sheds light on the origin of many important Derridean concepts such as deconstruction the metaphysics of presence différance intentionality the trace and spectrality

Continental Anti-Realism Richard Sebold, 2014-11-03 There has been a resurgence of interest in the problem of realism the idea that the world exists in the way it does independently of the mind within contemporary Continental philosophy Many if not most of those writing on the topic demonstrates attitudes that range from mild skepticism to outright hostility Richard Sebold argues that the problem with this is that realism is correct and that the question should then become what happens to Continental philosophy if it is committed to the denial of a true doctrine Sebold outlines the reasons why realism is superior to anti-realism and shows how Continental philosophical arguments against realism fail Focusing on the work of four important philosophers Kant Hegel Nietzsche and Husserl all of who have

had a profound influence on more recent thinkers he provides alternative ways of interpreting their apparently anti realist sentiments and demonstrates that the insights of these Continental philosophers are nevertheless valuable despite their problematic metaphysical beliefs

The Prism of the Self S.G. Crowell, 2013-03-09 This volume contains sixteen essays written by his students and colleagues in honor of Maurice Natanson The essays explore some of the diverse themes Professor Natanson has pursued through forty years of teaching and philosophizing in the tradition of existential phenomenology Because it also includes a lengthy biographical and philosophical interview where one can find an absorbing account of Natanson's Lebens au in his own words there is no need to detail that polypragmatic career here Suffice to say that even passing acquaintance with the man and the work will reveal that Edmund Husserl's self description holds equally of his distinguished interpreter I seek not to instruct but only to lead to point out and describe what I see I claim no other right than that of speaking according to my best lights principally before myself but in the same manner also before others as one who has lived in all its seriousness the fate of a philosophical existence I For Natanson as the diversity of the contributions to this volume attest such seriousness involves something other than that narrow technical vision for which a topic is the more philosophical the less it has to do with anything else In Natanson's pages to say nothing of his teaching and conversation there are no men of straw but living breathing human beings with their philosophy's tentacles are ubiquitous

Between Faith and Thought Jeffrey W. Robbins, 2003 Robbins calls for a radical rethinking of contemporary philosophical theology based upon the ethical insights of Emmanuel Levinas that effectively redraws the boundaries between philosophy and theology and suggests an alternative relationship between faith and thought

Invisible Language Garth L. Hallett, 2014-03-06 Invisible Language Its Incalculable Significance for Philosophy reveals that although the use of language is visible or audible the medium employed boasts neither of these attributes Garth L. Hallett suggests that from Plato until now the intangibility of language has exercised a far more profound influence in philosophy than even Wittgenstein came close to demonstrating Indeed without that pervasive factor of language the history of philosophy would have been undeniably different Yet philosophy is and can legitimately aspire to be much more than a struggle between language and human comprehension of it Ultimately this book suggests that philosophy's positive possibilities so often obscured by linguistically inattentive practice reach as far as human thought can reach

Husserl's Constitutive Phenomenology Bob Sandmeyer, 2009-01-11 If Edmund Husserl's true philosophy lay in his unpublished research manuscripts as he argues then it is in these rather than the introductions and fragmentary studies he published during his lifetime that we may possibly find a systematic of his philosophy This work constitutes a study of the full range of Husserl's writings with the special task of uncovering there the systematic presentation or presentations of the transcendental phenomenological problematic Sandmeyer's study contains an overview of Husserl's total set of writings a translation of Husserl's correspondence with Georg Misch a translation of a draft outline of the system of phenomenological philosophy produced by Husserl in collaboration with

his assistant Eugen Fink and it also closely traces the influence of Wilhelm Dilthey on Husserl's philosophy. *The Husserlian Mind* Hanne Jacobs, 2021-07-20 Edmund Husserl 1859-1938 is widely regarded as the principal founder of phenomenology, one of the most important movements in twentieth-century philosophy. His work inspired subsequent figures such as Martin Heidegger, his most renowned pupil, as well as Jean-Paul Sartre and Maurice Merleau-Ponty, all of whom engaged with and developed his insights in significant ways. His work on fundamental problems such as intentionality, consciousness, and subjectivity continues to animate philosophical research and argument. *The Husserlian Mind* is an outstanding reference source to the full range of Husserl's philosophy. Forty chapters by a team of international contributors are divided into seven clear parts covering the following areas: major works, phenomenological method, phenomenology of consciousness, epistemology, ethics, and social and political philosophy, philosophy of science, metaphysics. Contained in these sections are chapters on many of the key aspects of Husserl's thought, including intentionality, transcendental philosophy, reduction, perception, time, self, and subjectivity, personhood, logic, psychology, ontology, and idealism. Offering an unparalleled guide to the enormous range of his thought, *The Husserlian Mind* is essential reading for students and scholars of Husserl, phenomenology, and the history of twentieth-century philosophy. It will also be of interest to those in related fields in the humanities, social sciences, and psychology and the cognitive sciences.

Transcendental Phenomenology as Human Possibility Denis Džanić, 2023-02-09 This book focuses on Edmund Husserl's philosophical collaboration with Eugen Fink, which took place in the early 1930s and shows how their disagreement over the nature, origin, and aim of phenomenology led to a crucial divergence on the issue of who was engaging in phenomenology and with what motivation. It provides a philosophical investigation of a key moment in the development of Husserl's late phenomenology. The author claims that Husserl's meta-phenomenological exploration of the theoretical and, importantly, practical underpinnings of the transcendental investigator leads him to affirm their humanity and ultimately to adopt an ethically charged ideal of higher humanity as telos of phenomenology. Fink argued that phenomenology was essentially an activity beyond the horizon of human possibility and history. In contrast, Danić illustrates how Husserl was looking for a way to theoretically unite the purity of transcendental insight with the existential reality and practical motives of the phenomenologist. Understanding the complex aspects of this debate is crucial for understanding the Crisis period of Husserl's thought. This text appeals to graduate students and researchers in phenomenology and related fields of philosophy.

The Other Husserl Donn Welton, 2002-07-31 An original and comprehensive reconstruction of Husserl's phenomenological method. **The Pace of Modernity** O. Bradley Bassler, 2012 Wittgenstein said that philosophers should greet each other not by saying Hello but rather Take your time. But what is time? Time is money, but this points to an even better answer to this basic question for our modern epoch: time is acceleration. In a cultural system which stresses economic efficiency, the quicker route is always the more prized, if not always the better one. Wittgenstein's dictum thus constitutes an act of rebellion against the dominant

vector of our culture but as such it threatens to become quickly anti modern We need an approach to reading our information rich culture which is not reactionary but rather meets its accelerated condition In this book O Bradley Bassler develops a toolkit for acute reading of our modern pace not through withdrawal but rather through active engagement with a broad range of disciplines The main characters in this drama comprise a cast of master readers Hannah Arendt Jean Starobinski Harold Bloom Angus Fletcher Hans Blumenberg and John Ashbery with secondary figures drawn from the readers and critics whom this central group suggests We must develop a vocabulary of pacing reflecting our modern distance from classical sources and the concomitant acceleration of our contemporary condition Only in this way can we begin to situate the phenomenon of modernity within the larger scales of human culture and history **The New Yearbook for**
