Making Peace with the 60s David Burner, 2021-07-13 David Burner's panoramic history of the 1960s conveys the ferocity of debate and the testing of visionary hopes that still require us to make sense of the decade He begins with the civil rights and black power movements and then turns to nuanced descriptions of Kennedy and the Cold War the counterculture and its antecedents in the Beat Generation the student rebellion the poverty wars and the liberals war in Vietnam As he considers each topic Burner advances a provocative argument about how liberalism self destructed in the 1960s In his view the civil rights movement took a wrong turn as it gradually came to emphasize the identity politics of race and ethnicity at the expense of the vastly more important politics of class and distribution of wealth The expansion of the Vietnam War did force radicals to confront the most terrible mistake of American liberalism but that they also turned against the social goals of the New Deal was destructive to all concerned Liberals seemed to rule in politics and in the media Burner points out yet they failed to make adequate use of their power to advance the purposes that both liberalism and the left endorsed And forces for social amelioration splintered into pairs of enemies such as integrationists and black separatists the social left and mainline liberalism and advocates of peace and supporters of a totalitarian Hanoi *Making Peace with the 60s* will fascinate baby boomers and their elders who either joined denounced or tried to ignore the counterculture It will also inform a broad audience of younger people about the famous political and literary figures of the time the salient moments and above all the powerful ideas that spawned events from the civil rights era to the Vietnam War Finally it will help to explain why Americans

television Fueled both by outrage at the day s events and by the writings of people like Marshall McLuhan Tom Wolfe and Hunter S Thompson the movement gained a manifesto in 1971 when Michael Shamberg and the raindance Corp published Guerilla Television As framed in this quixotic text the goal of the video guerilla was nothing less than a reshaping of the structure of information in America In Subject to Change Deidre Boyle tells the fascinating story of the first TV generation s dream of remaking television and their frustrated attempts at democratizing the medium Interweaving the narratives of three very different video collectives from the 1970s TVTV Broadside TV and University Community Video Boyle offers a thought provoking account of an earlier electronic utopianism one with significant implications for today s debates over free speech public discourse and the information explosion

Dangerous Grounds David L. Parsons, 2017-03-13 As the Vietnam War divided the nation a network of antiwar coffeehouses appeared in the towns and cities outside American military bases Owned and operated by civilian activists GI coffeehouses served as off base refuges for the growing number of active duty soldiers resisting the war In the first history of this network David L Parsons shows how antiwar GIs and civilians united to battle local authorities vigilante groups and the military establishment itself by building a dynamic peace movement within the armed forces Peopled with lively characters and set in the tense environs of base towns around the country this book complicates the often misunderstood relationship between the civilian antiwar movement U S soldiers and military officials during the Vietnam era Using a broad set of primary and secondary sources Parsons shows us a critical moment in the history of the Vietnam era antiwar movement when a chain of counterculture coffeehouses brought the war s turbulent politics directly to the American military s doorstep

Scratching the Surface Harvey Ovshinsky, 2021-03-09 The inspiring story of one of Detroit s most creative and prolific storytellers Scratching the Surface Adventures in Storytelling is a deeply personal and intimate memoir told through the lens of Harvey Ovshinsky s lifetime of adventures as an urban enthusiast He was only seventeen when he started The Fifth Estate one of the country s oldest underground newspapers Five years later he became one of the country s youngest news directors in commercial radio at WABX FM Detroit s notorious progressive rock

station Both jobs placed Ovshinsky directly in the bullseye of the nation's tumultuous counterculture of the 1960s and 70s When he became a documentary director Ovshinsky's dispatches from his hometown were awarded broadcasting's highest honors including a national Emmy a Peabody and the American Film Institute's Robert M Bennett Award for Excellence But this memoir is more than a boastful trip down memory lane It also doubles as a survival guide and an instruction manual that speaks not only to the nature of and need for storytelling but also and equally important the pivotal role the twin powers of endurance and resilience play in the creative process You don't have to be a writer an artist or even especially creative to take the plunge Ovshinsky reminds his readers You just have to feel strongly about something or have something you need to get off your chest And then find the courage to scratch your own surface and share your good stuff with others Above all Ovshinsky is an educator known for his passionate support of and commitment to mentoring the next generation of urban storytellers When he wasn't teaching screenwriting and documentary production in his popular workshops and support groups he taught undergraduate and graduate students at Detroit's College for Creative Studies Wayne State University Madonna University and Washtenaw Community College The thing about Harvey a colleague recalls in *Scratching the Surface* is that he treats his students like professionals and not like newbies at all His approach is to in a very supportive and non threatening way combine both introductory and advanced storytelling in one fell swoop **Rock Eras** James M. Curtis, 1987 From 1954 to 1984 the media made rock n roll an international language In this era of rapidly changing technology styles and culture changed dramatically too In the 1950s wild eyed Southern boys burst into national consciousness on 45 rpm records and then 1960s British rockers made the transition from 45s to LPs By the 1970s rockers were competing with television and soon MTV made obsolete the music only formats that had first popularized rock n roll Paper is temporarily out of stock Cloth 0 87972 368 8 is available at the paper price until further notice
