AN A-Z OF SKIN DISORDERS, TREATMENTS & HEALTH

CAROL A. TURKINGTON AND JEFFREY S. DOVER, M.D.

Skin Deep: An A-Z of Skin Disorders, Treatments and Health is the only reference available that provides readers with clear, easy-to-understand information on a subject of concern to everyone. From harmless bumps and blemishes and common diseases such as psoriasis, acne and wrinkles to more serious disorders such as Sturge-Weber syndrome, Addison's disease and AIDS, *Skin Deep*, following an A-to-Z format, examines the histories of the disorders, notes the symptoms and lists treatments available.

In addition to the skin diseases and disorders covered, *Skin Deep* also:

- examines medications and products such as Accutane, cortisone, Retin-A, Varivax, cold creams, astringents, lanolin and sunscreens
- explores traumas that can affect the skin, including animal bites, burns, scratches and parasitic infections
- reflects the latest advances in medical and cosmetic treatments, including alphahydroxy acids, laser resurfacing, cryosurgery and laser surgery
- details the various elements that make up the skin and the ways to keep the skin healthy
- lists organizations, publications and hotlines that provide additional information on skin-related topics
- and much more.

Written by an accomplished medical writer and a dermatologist who teaches at Harvard Medical School, *Skin Deep* is sure to become the layperson's definitive guide to skin care.

The Truth about Illness and Disease Robert N. Golden, Carla Weiland, Fred Peterson, 2009 Illness and disease may be caused by bacteria or viruses or may be due to genetic or environmental factors Increasingly young Americans battle disease every day With 66 percent of Americans overweight and 51 percent of American children overweight diseases such as hypertension heart disease and diabetes are more common than ever before *Improving Acne, Eczema and Psoriasis in 30 Days* Robert Redfern, 2016-04-25 Are you feeling fed up of bad skin Plagued by acne eczema or psoriasis Are you finding that these conditions are ruining your confidence Fed up of taking over the counter medications or skin ointments that just don't work Suffer no more thanks to a dedicated natural health and lifestyle plan that highlights exactly what these skin conditions are and how they can be improved *Improving Acne Eczema and Psoriasis in 30 Days* by Robert Redfern of Naturally Healthy Publications provides a detailed step by step guide to improving your skin health by taking the appropriate nutrients and committing yourself to the Daily Rehabilitation Skin Plan it's possible to see considerable improvements in skin health in as little as 30 days Sport-Related Skin Conditions Keyvan Nouri, 2025-08-20 This work reviews the various types of dermatological conditions that affect athletes and sports participants and provides relevant treatment options in each of the cases Although there are many articles pertaining to sports medicine in relation to orthopedic and musculoskeletal injuries there is a shortage of comprehensive literature pertaining the effects of athletics on skin health Considering the popularity of sports and athletic pursuits it is important for clinicians to be able to provide preventative guidance and treatment recommendations related to the sports that patients participate in Previous literature related to sports and dermatology has been confined to review articles that do not provide a thorough breakdown into the various types of sports that have unique biomechanical and environmental components that are worth describing in a book format e.g. scuba diving and cutaneous decompression sickness *Sport Related Skin Conditions A Guide for Clinicians* informs dermatologists medical students and residents and the general sporting population about the types of dermatoses associated with various sports methods of identifying them preventing them and treating them For example providing information about the epidemiology of sun exposure in athletes in combination with sun protective guidelines tailored for those athletes e.g. UV and waterproof sun protection for sailors could help to improve patient care Additionally highlighting the current state of dermatological knowledge relevant to sports can help guide research scientists in finding areas to expand the knowledge base of

dermatology Additionally by organizing chapters related to groups of sports this will allow for comparison between different sports in terms of the epidemiology of skin conditions and to stimulate future research into comprehensive prevention and management guidelines for overlapping dermatological conditions in related sports
