*Manthropology* Peter McAllister, 2010-10-26 Manthropology is the first of its kind Spanning continents and centuries it is an in depth look into the history and science of manliness From speed and strength to beauty and sex appeal to bravado and wit it examines how man today compares to his masculine ancestors Peter McAllister set out to rebut the claim that man today is suffering from feminization and emasculation He planned to use his skills as a paleoanthropologist and journalist to write a book demonstrating unequivocally that man today is a triumph the result of a hard fought evolutionary struggle toward greatness As you will see he failed In nearly every category of manliness modern man turned out to be not just matched but bested by his ancestors Stung McAllister embarked on a new mission If his book couldn't be a testament to modern male achievement he decided it would be a record of his failures Manthropology then is a globe spanning tour of the science of masculinity It kicks off in Ice Age France where a biomechanical analysis demonstrates that La Ferrassie 2 a Neanderthal woman discovered in the early 1900s would cream 2004 World Arm Wrestling Federation champion Alexey Voyevoda in an arm wrestle Then it moves on to medieval Serbia showing how Slavic guslar poets who were famously able to repeat a two thousand line verse after just one hearing would have destroyed Curtis Jackson aka 50 Cent in a battle rap Finally it takes the reader to the steaming jungles of modern equatorial Africa where Aka Pygmy men are such super dads they even grow breasts to suckle their children Now that's commitment For modern man the results of these investigations aren't always pretty But in its look at the history of men Manthropology is unfailingly smart informative surprising and entertaining
