Now thanks to this pioneering new book, you can program your baby's future health by eating right, gaining the appropriate amount of weight, and avoiding toxins starting even before conceiving. Dr. Barbara Luke, a nationally recognized expert in the field of public health nutrition, provides a complete practical nutrition and lifestyle program that covers your entire pregnancy month by month and the first two years of your baby's life. Here is everything you need to know to raise the healthiest baby possible, including: What to eat when you're trying to conceive and when you are pregnant; Practical strategies that protect your child against hypertension, diabetes, and obesity; Special dietary needs for women in every age group from under 25 to over 40; Quick, easy menus, helpful charts, and checklists; Replenishing fluids: how much do you need to drink? The nutritional needs of mothers carrying twins or super twins; New strategies for overcoming morning sickness; Helping your growing child eat right and stay healthy.
