Abner Jones

Songs Of The Spirit No 1:

Black Hymnody Jon Michael Spencer, 1992 *Melodies of the Church, a collection of psalms and hymns ... selected from Watts and other authors. Accompanied by appropriate musick, etc* Abner Jones, 1832 *Before and After Corroboree: The Music of John Antill* David Symons, 2017-07-28 John Antill 1904 1986 was one of the foremost composers of Australia's post colonial period. Although a relatively prolific and much esteemed composer in Australia, Antill's wider reputation is sustained chiefly by his famous ballet *Corroboree*, a work which was perceived to bring an authentic Australian musical style before both a national and international audience for the first time. Through Sir Eugene Goossens' championship, the work was heard by enthusiastic audiences in Australia, Britain, Europe, and the USA and was for many years the best known work of any Australian born and resident composer. Indeed, it has remained for both Australian and overseas audiences an Australian musical icon. David Symons traces Antill's development as a composer from his early pre-*Corroboree* works which display a late Romantic to post-impressionist style through an analysis of the virile, dissonant, primitivist idiom of his magnum opus to an examination of his later output of theatrical orchestral and vocal choral works. The book provides comprehensive and valuable insight into Antill's musical output at the same time focussing on more detailed analyses of his major works which have reached public performances and/or recordings. In this way, the book not only presents a developmental picture of Antill's works but also demonstrates why they have made him one of Australia's most prominent musical creators of the post colonial period.

Origen on the Song of Songs as the Spirit of Scripture J. Christopher King, 2005-10-06 Christian exegesis of the Song of Songs has long interacted creatively with and more recently reacted critically against the allegorical interpretation developed by Origen of Alexandria c. 185 c. 254 in his *Commentary* and two *Homilies* on the Song of Songs. Interest in Origen's exegesis of the Song's narrative elements has dominated past scholarship which has almost entirely ignored how Origen assesses the Song itself in its unity as a revealed text. This study aims to show that the *Commentary* and *Homilies* when read in light of Origen's hermeneutic, his nuptial theology, his understanding of the prophetic mediation of inspired texts, and his doctrine of last things, clearly portray the Song of Songs itself as the divine Bridegroom's perfect marriage song. As such, it mediates Christ's eschatological presence as the spirit of Scripture in and through the intelligible structures of the text itself.

Reading the Song of Songs with St. Thomas

Aquinas Serge-Thomas Bonino,2022-08-24 St Thomas Aquinas never commented on the Song of Songs The purpose of this book is to demonstrate however that he meditated on it and absorbed it so that the words of the Song are for him a familiar repertoire and a theological source His work contains numerous citations of the Song not counting his borrowings of vocabulary and images from it In total there are 312 citations of the Song in Aquinas s corpus along with citations of the Song that are found in citations that Aquinas makes of other authors as for example in the Catena aurea Understanding the purpose and placement of these citations significantly enriches our understanding of Aquinas as a theologian biblical exegete and spiritual master The book contains an Appendix listing and contextualizing each citation The study of the citations of the Song especially illuminates Aquinas s spiritual doctrine By citing the Song Aquinas emphasizes the spiritual life s path of dynamic ascent through an ever increasing participation in the mystery of the nuptial union of Christ and the Church through love The Song also highlights the eschatological tension or yearning present in the spiritual life which is ordered to the fullness of beatific vision Although Aquinas s theology is highly intellectual by citing the Song he brings out the affective character of the spiritual life and conveys the centrality of love in the soul s journey toward Christ He also draws together contemplation and preaching through his use of the Song

Values and Music Education Estelle R. Jorgensen, 2021-11-09 What values should form the foundation of music education And once we decide on those values how do we ensure we are acting on them In *Values and Music Education* esteemed author Estelle R Jorgensen explores how values apply to the practice of music education We may declare values but they can be hard to see in action Jorgensen examines nine quartets of related values and offers readers a roadmap for thinking constructively and critically about the values they hold In doing so she takes a broad view of both music and education while drawing on a wide sweep of multidisciplinary literature Not only does Jorgensen demonstrate an analytical and dialectical philosophical approach to examining values but she also seeks to show how theoretical and practical issues are interconnected An important addition to the field of music education *Values and Music Education* highlights values that have been forgotten or marginalized underscores those that seem perennial and illustrates how values can be double edged swords

Songs of Modern Child Life Jessie L. Gaynor, Dorothy Gaynor Blake, 1926 *Homiletical commentary on the Song of Solomon* Thomas Robinson, 1877 *The Graph Music of Morton Feldman* David Cline, 2016-05-26 Morton Feldman is widely regarded as one of America's greatest composers His music is famously idiosyncratic but in many cases the way he presented it is also unusual because in the 1950s and 1960s he often composed in non standard musical notations including a groundbreaking variety on graph paper that facilitated deliberately imprecise specifications of pitch and at times other musical parameters Feldman used this notation intermittently over seventeen years producing numerous graph works that invite analysis as an evolving series Taking this approach David Cline marshals a wide range of source materials many previously unpublished in clarifying the ideology organisation and generative history of these graphs and their formative role in the chronicle of post war music This assists in pinpointing connections with Feldman's compositions in other formats works by other composers notably John Cage and contemporary currents in painting Performance practice is examined through analysis of Feldman's non notated preferences and David
