Sonnets And The English Woman Writer 1560-1621 The Politics Of Absence:

Sonnets and the English Woman Writer, 1560-1621 R. Smith, 2005-09-27 This study explores why women in the English Renaissance wrote so few sonnet sequences in comparison with the traditions of Continental women writers and of English male authors In this focus on a single genre Rosalind Smith examines the relationship between gender and genre in the early modern period and the critical assumptions currently underpinning questions of feminine agency within genre

Early Modern Women's Complaint Sarah C. E. Ross, Rosalind Smith, 2020-07-23 This collection examines early modern women's contribution to the culturally central mode of complaint Complaint has largely been understood as male authored yet as this collection shows early modern women used complaint across a surprising variety of forms from the early Tudor period to the late seventeenth century They were some of the mode's first writers most influential patrons and most innovative contributors Together these new essays illuminate early modern women's participation in one of the most powerful rhetorical modes in the English Renaissance one which gave voice to political religious and erotic protest and loss across a diverse range of texts This volume interrogates new texts closet drama song manuscript based religious and political lyrics new authors Dorothy Shirley Scots satirical writers Hester Pulter Mary Rowlandson and new versions of complaint biblical satirical legal and vernacular Its essays pay specific attention to politics form and transmission from complaint's first circulation up to recent digital representations of its texts Bringing together an international group of experts in early modern women's writing and in complaint literature more broadly this collection explores women's role in the formation of the mode and in doing so reconfigures our understanding of complaint in Renaissance culture and thought *The Politics of the Female Voice in Early Stuart England* Christina Luckyj, 2022-03-03 This study illuminates the female voice as a means of signalling resistance to tyranny in early Stuart literature and discourse *The early modern English sonnet* Laetitia

Sansonetti, Rémi Vuillemin, Enrica Zanin, 2020-04-23 This volume updates current assumptions about the early modern English sonnet and its reception and inclusion in poetic collections It deals both with major Shakespeare Sidney Spenser and minor Harvey Barnes sonneteers and includes the first modern edition of a 1603 printed miscellany *The Muses Garland*

Grief and Women Writers in the English Renaissance Elizabeth Hodgson, 2015 This book examines the way in which early modern women writers conceived of grief and the relationship between the dead and the living **Writing Rape, Writing**

Women in Early Modern England J. Catty, 2016-01-08 The word rape today denotes sexual appropriation yet it originally signified the theft of a woman from her father or husband by abduction or elopement In the early modern period its meaning is in transition between these two senses while rapes and attempted rapes proliferate in literature This age also sees the emergence of the woman writer despite a sexual ideology which equates women's writing with promiscuity Classical myths however associate women's story telling with resistance to rape This comprehensive study of rape and representation considers a wide range of texts drawn from prose fiction poetry and drama by male and female writers both canonical and

non canonical Combining close attention to detail with an overview of the period it demonstrates how the representation of gender relations has exploited the subject of rape and uses its understanding of this phenomenon to illuminate the issues of sexual and discursive autonomy which figure largely in women's texts of the period **Feminist Formalism and Early Modern Women's Writing** Lara Dodds, Michelle M. Dowd, 2022-05 This volume examines the relationship between gender and form in early modern women's writing by exploring women's debts to and appropriations of different literary genres and offering practical suggestions for the teaching of women's texts **Forms of Engagement** Elizabeth

Scott-Baumann, 2013-06-13 What does it mean for a woman to write an elegy ode epic or blazon in the seventeenth century How does their reading affect women's use of particular poetic forms and what can the physical appearance of a poem in print and manuscript reveal about how that poem in turn was read *Forms of Engagement* shows how the aesthetic qualities of early modern women's poetry emerge from the culture in which they write It reveals previously unrecognized patterns of influence between women poets Katherine Philips Lucy Hutchinson and Margaret Cavendish and their peers and predecessors how Lucy Hutchinson responded to Ben Jonson and John Milton how Margaret Cavendish responded to Thomas Hobbes and the scientists of the early Royal Society and how Katherine Philips reworked Donne's lyrics and may herself have influenced Abraham Cowley and Andrew Marvell This book places analysis of form at the centre of an historical study of women writers arguing that reading for form is reading for influence Hutchinson Philips and Cavendish were immersed in mid seventeenth century cultural developments from the birth of experimental philosophy to the local and state politics of civil war and the rapid expansion of women's print publication For women poets reworking poetic forms such as elegy ode epic and couplet was a fundamental engagement with the culture in which they wrote By focusing on these interactions rather than statements of exclusion and rejection a formalist reading of these women can actually provide a more nuanced historical view of their participation in literary culture *The Masculinities of John Milton* Elizabeth Hodgson, 2022-09-08

The Masculinities of John Milton is the first published monograph on Milton's men Examining how Milton's fantasies of manly authority are framed in his major works this study exposes the gaps between Milton's pleas for liberty and his assumptions that White men like himself should rule his culture From schoolboys teaching each other how to traffic in young women in the Ludlow Masque to his treatises on divorce that make the wife less husband the best possible citizen and to the later epics in which Milton wrestles with male small talk and the ladders of masculine social power his verse and prose draw from and amplify his culture's claims about manliness in education warfare friendship citizenship and conversation This revolutionary poet's most famous writings reveal how ambivalently manhood is constructed to serve itself in early modern England

Expanding the Canon of Early Modern Women's Writing Paul Salzman, 2010-07-12 This exciting collection of original essays on early modern women's writing offers a range of approaches to a growing field As a whole the volume introduces readers to a number of writers such as Mirabai and Liu Rushi who are virtually invisible in Anglophone

scholarship and to writers who remain little known such as Elizabeth Melville Elizabeth Hatton and Jane Sharpe The volume also represents critical strategies designed to open up the emergent canon of early modern women s writing to new approaches especially those that have consolidated the integration of literary and intellectual history with an emphasis on religion legal issues and questions of genre The authors expand the methodological possibilities available to approach early modern women who wrote in a diverse number of genres from letters to poetry autobiography and prose fiction The sixteen essays are a major contribution to an area that has attracted the interest of a number of fields including literary studies history cultural studies and women s studies
