Sons And Daughters Of The Buddha Daily Meditations From The Buddhist Tradition:

Sons And Daughters Of The Buddha Christopher Titmuss, 2010-08-31 Christopher Titmuss believes that the work of the great Buddhist writers can provide profound spiritual religious social political and environmental insights This collection of inspirational quotes one thought provoking excerpt for every day of the year draws on the very best Buddhist writings from early sages to the work of contemporary writers such as Jack Kornfield and Thich Nhat Hanh This is a book readers will want to keep for many years and dip into time and again The British National Bibliography Arthur James Wells, 2003 **The Hidden Side of Life** James W. Peterson, 2022-06-06 Inner dimensions of consciousness and subtle invisible vibratory fields exist all around us They represent foundational structures of the world James Peterson explores how energies and impulses from these inner realms affect our daily lives From the baraka or spiritual force of great centers of pilgrimage to the radiations of charged drinking water to the work of fairies in the garden he covers a wide and fascinating range of topics At its core this book provides a practical understanding of the effects of unseen energies Whether it s something as simple as wearing a red robe when you re sick to attract energies that can aid in healing or something more complex you ll learn more about what you can t see with the naked eye Get a sweeping understanding of human life the natural world and how everything is connected with *The Hidden Side of Life* Building and Negotiating Religious Identities in a Zen Buddhist Temple Fan Zhang, 2019-06-27 This book explores the practices in a Zen Buddhist temple located in Northwest Ohio against the backdrop of globalization Drawing on the previous studies on Buddhist modernization and westernization it provides a better understanding of the westernization of Buddhism and its adapted practices and rituals in the host culture Using rhetorical criticism methodology the author approaches this temple as an embodiment of Buddhist rhetoric with both discursive and non discursive expressions within the discourses of modernity By analyzing the rhetorical practices at the temple through abbots teaching videos the temple website members dharma names and the materiality of the temple space and artifacts the author discovers how Buddhist rhetoric functions to constitute and negotiate the religious identities of the community members through its various rituals and activities At the same time the author examines how the temple s space and settings facilitate the collective the formation and preservation of the Buddhist identity Through a nuanced discussion of Buddhist rhetoric this book illuminates a new rhetorical methodology to understand religious identity construction Furthermore it offers deeper insights into the future development of modern Buddhism which are also applicable to Buddhist practitioners and other major world religions Reflective Practice Research in Higher Education Pedagogies Michael Noah Weiss, Guro Hansen Helskog, 2023 This anthology examines university lecturers experiences with pedagogical practices across various higher education disciplines The experiences are investigated by means of reflective practice research a phenomenological and hermeneutical approach intended to make implicit practical knowledge explicit and thus to develop a deeper understanding of professional practices While instrumental practice research gives a practitioner knowledge of facts

reflective practice research gives the practitioner orientational knowledge in line with a so called kaleidoscopic epistemology

Asian Traditions of Meditation Halvor Eifring, 2018-01-31 Meditation has flourished in different parts of the world ever since the foundations of the great civilizations were laid. It played a vital role in the formation of Asian cultures that trace much of their heritage to ancient India and China. This volume brings together for the first time studies of the major traditions of Asian meditation as well as material on scientific approaches to meditation. It delves deeply into the individual traditions while viewing each of them from a global perspective, examining both historical and generic connections between meditative practices from numerous historical periods and different parts of the Eurasian continent. It seeks to identify the cultural and historical peculiarities of Asian schools of meditation while recognizing basic features of meditative practice across cultures, thereby taking the first step toward a framework for the comparative study of meditation. The book, accessibly written by scholars from several fields, opens with chapters that discuss the definition and classification of meditation. These are followed by contributions on Yoga and Tantra, which are often subsumed under the broad label of Hinduism. Jainism and Sikhism, Indian traditions not usually associated with meditation, Buddhist approaches found in Southeast Asia, Tibet, and China, and the indigenous Chinese traditions Daoism and Neo Confucianism. The final chapter explores recent scientific interest in meditation, which despite its Western orientation remains almost exclusively concerned with practices of Asian origin. Until a few years ago, a major obstacle to the study of specific meditation practices within the traditions explored here was a widespread scholarly orientation that prioritized doctrinal issues and sociocultural contexts over actual practice. The contributors seek to counter this bias and supplement concerns over doctrine and context with the historical study of meditative practice. Asian Traditions of Meditation will appeal broadly to readers interested in meditation, mindfulness, and spirituality, and those in the emerging field of contemplative education, as well as students and scholars of Asian and religious studies.
