Søren Kierkegaard

Søren Kierkegaard's Journals And Papers Index And Composite Collation:

Søren Kierkegaard's Journals and Papers, Volume 7 Søren Kierkegaard, 1978-08-22 Volume VII contains an extensive index with topical crossreferences **Søren Kierkegaard's Journals and Papers** Søren Kierkegaard, 1978

Søren Kierkegaard's Journals and Papers. Volume 7, Index and Composite Collation, *Søren Kierkegaard's Journals and Papers* Søren Kierkegaard, 1981 **Søren Kierkegaard's Journals and Papers, 1845-1855** Søren

Kierkegaard, 1967 Kierkegaard's Upbuilding Discourses George Pattison, 2003-08-29 George Pattison provides a bold and innovative reassessment of Kierkegaard's neglected Eighteen Upbuilding Discourses and reading of his work as a whole. The first full length assessment of the discourses in English, this volume will be essential reading for philosophers and theologians and anyone interested in Kierkegaard and the history of philosophy. *A Companion to Kierkegaard* Jon Stewart, 2015-07-21 A COMPANION TO KIERKEGAARD Companions to important thinkers help readers focus on the main drift of their texts with the help of a dig into their origin and some account of their reception. This one digs deeper and over a wider terrain than most. But it does more. Besides guiding us to the staples of theology and philosophy in Kierkegaard's background, it also looks forward to a future as if Kierkegaard too might be taken by the arm and told that here was something that should interest him about politics, social life, psychology, education, literary theory, deconstruction, theatre. It is as much a sign of the extraordinary richness of Kierkegaard's literary palette as of the now wide currency of his thought that its elements can become topics in their own right with Kierkegaard. Their inspiration, Jon Stewart and his authors are to be congratulated for bringing this unique thinker into our living presence on such a scale and with so many things to talk about. Alastair Hannay, Professor Emeritus, University of Oslo. Born in Copenhagen in 1813, Søren Kierkegaard produced a remarkable amount of work during his fairly short life. When he died in 1855, he left behind a complex and interdisciplinary legacy that continues to spark academic debate. Edited by one of the world's leading Kierkegaard scholars, *A Companion to Kierkegaard* provides the most comprehensive single volume overview of Kierkegaard studies currently available. Featuring contributions from an international array of scholars, the collection covers all the major topics within the broad field of Kierkegaard research, including philosophy, theology, aesthetics, art, literary theory, social sciences, and politics. Kierkegaard's contribution to each of these disciplines is illustrated through examination of the sources he drew upon, the reception of his ideas, and the unique conceptual insights he brought to each topic. *A Companion to Kierkegaard* demystifies the complex field of Kierkegaard studies, providing the ideal entry point into his writing for readers at all levels. This collection will be an essential tool for students and scholars from across the disciplines who are interested in learning more about this important and influential thinker. *Volume 12, Tome II: Kierkegaard's Influence on Literature, Criticism and Art* Jon Stewart, 2016-12-05 While Kierkegaard is primarily known as a philosopher or religious thinker, his writings have also been used extensively by literary writers, critics, and artists worldwide who have been attracted to his creative mixing of genres, his complex use of pseudonyms.

his rhetoric and literary style and his rich images parables and allegories The goal of the present volume is to document this influence in different language groups and traditions Tome II is dedicated to the use of Kierkegaard by later Danish writers Almost from the beginning Kierkegaard's works were standard reading for these authors Danish novelists and critics from the Modern Breakthrough movement in the 1870s were among the first to make extensive use of his writings These included the theoretical leader of the movement the critic Georg Brandes who wrote an entire book on Kierkegaard and the novelists Jens Peter Jacobsen and Henrik Pontoppidan The next generation of writers from the turn of the century and through the First World War also saw in Kierkegaard important points of inspiration These included Ernesto Dalgas and Harald Kidde who used elements of Kierkegaard's thought in their novels Modern Danish writers such as Karen Blixen Martin A Hansen and Villy Sørensen have continued to incorporate Kierkegaard into their works There can be no doubt that Kierkegaard has indelibly stamped his name on Danish literature

Kierkegaard's International Reception Jon Stewart, 2009 Tome I covers the reception of Kierkegaard in Northern and Western Europe The articles on Denmark Norway Sweden Finland and Iceland can be said to trace Kierkegaard's influence in its more or less native Nordic Protestant context Since the authors in these countries with the exception of Finland were not dependent on translations or other intermediaries this represents the earliest tradition of Kierkegaard reception The early German translations of his works opened the door for the next phase of the reception which expanded beyond the borders of the Nordic countries The articles in the section on Western Europe trace his influence in Great Britain the Netherlands and Flanders Germany and Austria and France All of these countries and linguistic groups have their own extensive tradition of Kierkegaard reception

Volume 9: Kierkegaard and Existentialism Jon Stewart, 2016-12-05 There can be no doubt that most of the thinkers who are usually associated with the existentialist tradition whatever their actual doctrines were in one way or another influenced by the writings of Kierkegaard This influence is so great that it can be fairly stated that the existentialist movement was largely responsible for the major advance in Kierkegaard's international reception that took place in the twentieth century In Kierkegaard's writings one can find a rich array of concepts such as anxiety despair freedom sin the crowd and sickness that all came to be standard motifs in existentialist literature Sartre played an important role in canonizing Kierkegaard as one of the forerunners of existentialism However recent scholarship has been attentive to his ideological use of Kierkegaard Indeed Sartre seemed to be exploiting Kierkegaard for his own purposes and suspicions of misrepresentation and distortions have led recent commentators to go back and reexamine the complex relation between Kierkegaard and the existentialist thinkers The articles in the present volume feature figures from the French German Spanish and Russian traditions of existentialism They examine the rich and varied use of Kierkegaard by these later thinkers and most importantly they critically analyze his purported role in this famous intellectual movement

Uncover the mysteries within Explore with is enigmatic creation, **Soren Kierkegaards Journals And Papers Index And Composite Collation** . This downloadable ebook, shrouded in suspense, is available in a PDF format (*). Dive into a world of uncertainty and anticipation. Download now to unravel the secrets hidden within the pages.
