Craig Cabell, 2012-06-04 The extraordinary life story of one of the most beloved writers in the world including his courageous battle with Alzheimers With worldwide sales of more than 65 million copies in 37 languages Terry Pratchett s novels are eagerly awaited by his legions of fans year after year Featuring an in depth look at the man and his work as well as on screen adaptations and a collector s guide this is essential reading for any fan His first Discworld novel *The Colour of Magic* was released in 1983 and ever since then the series with its whimsical heroes and fiendish foes has delighted both young and old alike In 2007 Pratchett announced that he had been diagnosed with Alzheimer s disease He has courageously faced the disease head on equaling the determination of his characters in his vivid and satirical novels This book examines his extraordinary life showcased against the backdrop of more than 40 years of irreverent artistic achievements For devoted fans it features appendices of more than 60 pages listing Pratchett s works on screen and at the theatre a complete UK bibliography and collector s guide and a note about cats *Subcreation: Fictional-World Construction from J.R.R. Tolkien to Terry Pratchett and Tad Williams* Stefanie Schult, 2017-01-26 The doctoral thesis argues that the term Subcreation with its revised and broadened definition in part differing from J R R Tolkien s original term sub creation may be used for the discussion of the making of fictional worlds in literary discourse The successful conception of a fictional world depends on the reader s willing suspension of disbelief This depends both on the author and his skilled composition of the world and all its aspects as well as on the reader s acceptance of this invented fictional world The author needs to create a narrative with an inner consistency which is crucial to achieving the effect of the reader s immersion in the fictional world The fundamental aspects that an author needs to realize to achieve successful Subcreation have been structured into and analysed in four categories Language and Linguistic Variation Physiopoeia Anthropoeia and Mythopoeia Furthermore this thesis shows that as contemporary examples of fantastic literature both Tad Williams s and Terry Pratchett s fictional worlds are successfully created through the realization of these aspects of Subcreation Apart from commenting on the success of the subcreative process this thesis also remarks upon the cultural influences both authors include in their writings While both may be considered Anglophone in a general categorization Pratchett s Discworld retains a feeling of Britishness that is not to be found in Williams s Otherland The thesis proposes several approaches to Subcreation that may be studied subsequently So for example it may be possible to determine the success of an author s Subcreation by collecting empirical data Apart from

literary works this field of studies may also include other media
