Sugar Without Slaves The Political Economy Of British Guiana 1838 1904:

Sugar Without Slaves Alan H. Adamson, 1972

Economic Growth and the Ending of the Transatlantic Slave

Trade David Eltis, 1987-06-11 This watershed study is the first to consider in concrete terms the consequences of Britain's abolition of the Atlantic slave trade. Why did Britain pull out of the slave trade just when it was becoming important for the world economy and the demand for labor around the world was high? Caught between the incentives offered by the world economy for continuing trade at full tilt and the ideological and political pressures from its domestic abolitionist movement, Britain chose to withdraw, believing in part that freed slaves would work for low pay which in turn would lead to greater and cheaper products. In a provocative new thesis, historian David Eltis here contends that this move did not bolster the British economy; rather, it vastly hindered economic expansion as the empire's control of the slave trade and its great reliance on slave labor had played a major role in its rise to world economic dominance. Thus, for sixty years after Britain pulled out, the slave economies of Africa and the Americas flourished, and these powers became the dominant exporters in many markets formerly controlled by Britain. Addressing still volatile issues arising from the clash between economic and ideological goals, this global study illustrates how British abolitionism changed the tide of economic and human history on three continents.

A Political And Social History Of Guyana, 1945-1983

Thomas Spinner, 2021-11-28 Originally published in 1984, this is a

documented account of the political history of the former British colony of Guyana. Providing a reflection of the increasing involvement of the United States in the Caribbean and Central America, on the long-term political, social, and economic effect that intervention can have on the small states of less developed countries during the period of 1945 to 1983. The text includes a detailed historical account of post-World War II politics and moves onto the emergence of the nationalist movement in Guyana in the late 1940s and the cold war period of the 1950s, concluding with the consequences both politically and economically in the 1980s.

Slave Populations of the British Caribbean, 1807-1834

B. W. Higman, 1995 Reprint of work that originally appeared in 1984. Excellent and thorough treatment of major demographic aspects of British Caribbean slavery from abolition of slave trade to slave emancipation. Draws heavily on extensive data available from slave registration returns for various islands to provide comparative perspective of nature of slave life. Excellent tables and figures. Essential for serious scholars of the region. *Handbook of Latin American Studies* v 58.

Indentured Labour in the British Empire, 1834-1920

Kay Saunders, 2018-03-14 First published in 1984. Indentured labour migration in the nineteenth century intersects many of the most serious issues of our own time: racism, Third World poverty, and the arrogance of a great world power. Indenture suggests lack of freedom and the exploitation of people forced into exile or misadventure. Coming as it did after the abolition of slavery in the British Empire in 1834, in many respects it can be regarded as a replacement of the slave labour system. Indeed, both concerned humanitarians and officials in the nineteenth century, and many historians subsequently, have regarded indentured labour merely as a new system of slavery. Many of the articles in this book address

themselves to this assertion whilst investigating the particular variations inherent in their geographic area The differing patterns of Indian indenture in the West Indies and British Guiana coming almost immediately after slavery forms the first section of this book Attention is given to the Indians engaged in the sugar industries in Mauritius and Fiji and the rubber industry in Malaya The use of Pacific Islanders in the Queensland industry is also examined particularly in the sugar industry which by the early twentieth century contained the unique pattern of white expensive unionized labour Other groups dealt with include the aboriginal workers in Australia and the Chinese workers in the Transvaal Overall this book is comprehensive and far reaching in its scope and the complex issues which it raises

Recreational Uses of Coastal Areas P. Fabbri,2012-12-06 Human clustering in coastal areas The coastal zone has gained a solid reputation as a place vocated for recreational activities and this is generally related to the presence of the sea The relationship however does not appear univocal or simple the sea can be perceived as a hostile element by humans and the more general question of whether the presence of the shore is in itself a favourable repulsive or irrelevant factor to settlement is a debatable point at least for pre industrial societies Back in the early part of the 19th century Friedrich Hegel regarded oceans and rivers as unifying elements rather than dividing ones thus implying a trend towards the concentration of human settlements along them The sea he wrote stimulates 1 courage and conquest as well as profit and plunder although he realized that this did not equally apply to all maritime peoples In Hegel s view different approaches to the sea were mainly the results of cultural factors and in fact he recognized that some people living in coastal areas perceive the sea as a dangerous and alien place and the shore as aftnis terrae
