Suicide Among Youth Perspectives On Risk And Prevention

Cynthia R. Pfeffer

Suicide Among Youth Perspectives On Risk And Prevention:

Suicide Among Youth Cynthia R. Pfeffer, 1989 This volume brings together ongoing empirical studies on youth suicide from more than 20 international contributors all of them leaders on this national dilemma Among the many issues discussed in this text are the psychosocial characteristics of young people who commit suicide the use of medical examination records in predicting risk factors the integration of epidemiological data regarding longitudinal demographic cross cultural and high risk groups the link between suicide and depression and family psychopathology genetics and life event stress as predictive factors for youth suicide New studies on the effects of mass media stories on fluctuations in youth suicide are presented along with research on the disturbing phenomenon of suicide clustering and the role of imitative behavior And finally this book analyzed the effectiveness of specific interventions and suggests future directions and public health approaches to youth suicide preventions from Book Jacket

Treatment Approaches with Suicidal Adolescents James K. Zimmerman, Gregory M. Asnis, 1995-04-03 This practical guide reviews current knowledge regarding the biological psychological and social risk factors for adolescent suicide Contains clinical guidelines for a variety of treatment modalities such as crisis intervention psychopharmacological management intervention family centered psychodynamic cognitive behavior and group therapies Features a program for increasing adolescent participation in outpatient therapy and considers possible future directions of treatment

Suicide Among Youth Cynthia R. Pfeffer, 1989 This volume brings together ongoing empirical studies on youth suicide from more than 20 international contributors all of them leaders on this national dilemma Among the many issues discussed in this text are the psychosocial characteristics of young people who commit suicide the use of medical examination records in predicting risk factors the integration of epidemiological data regarding longitudinal demographic cross cultural and high risk groups the link between suicide and depression and family psychopathology genetics and life event stress as predictive factors for youth suicide New studies on the effects of mass media stories on fluctuations in youth suicide are presented along with research on the disturbing phenomenon of suicide clustering and the role of imitative behavior And finally this book analyzed the effectiveness of specific interventions and suggests future directions and public health approaches to youth suicide preventions from Book Jacket

Suicide and Homicide Among Adolescents Paul C. Holinger, 1994-04-01 The problem of violence among youth has become increasingly serious Issues related to adolescent suicide and to a lesser extent adolescent homicide have been addressed in the literature yet few experts have focused on the connections that exist between the two This groundbreaking volume examines the clinical and epidemiologic similarities and differences between youth suicide and homicide offering valuable insights into both issues and providing a foundation for the development of public health policies and prevention strategies The authors address such questions as What are the current rates of adolescent homicide and suicide What are the long term trends What is the relationship between homicide and suicide Is there more of a problem now than in years past Is there a relationship

between youth violence and the media Who is most likely to commit suicide and or homicide What types of treatment and prevention strategies might prove most effective Ideal for professionals in the various mental health fields this book is also valuable for anyone working with homicide offenders and the families of suicide and homicide victims including social workers politicians police clergy and emergency room personnel Handbook of Depression in Children and Adolescents William M. Reynolds,Hugh F. Johnston,2013-11-22 Anyone who has ever been close to a seriously depressed child has undoubtedly been affected by the youngster s vulnerability misery and pain Indeed it is much like caring for a child who is in physical pain For the child in the depths of depression no activity is fun nothing can be enjoyed and no one can provide enough consolation or comfort At times the youngster may cry or whimper There may be fits of defiance or rage and sometimes withdrawal into a numb sullen silence A child in this state tries the patience of parents and siblings Remedies of every sort are tried including gifts punishments bribes lectures pleading and a host of others Such efforts occasionally provide temporary relief but more often they seem to make matters worse Commonly there is an emotional wall of anger and frustration between a depressed child and other family members that may inevitably lead to further isolation and withdrawal If too much time passes without their being helped many depressed children and adolescents come to believe that suicide offers the only real relief for their pain Currently there is a Depression Awareness Week that includes free screening at participating health and mental health settings around the United States and is designed to identify depression in adults suggesting that society s awareness of depression and psychiatric disorders is focused to a large extent on adults

Handbook of Adolescent Health Risk Behavior Ralph J. DiClemente,William B. Hansen,Lynn E. Ponton,2013-11-21 Adolescence is a developmental period of accelerating physical psychological social cultural and cognitive development often characterized by confronting and surmounting a myriad of challenges and establishing a sense of self identity and autonomy It is also unfortunately a period fraught with many threats to the health and well being of adolescents and with substantial consequent impairment and disability Many of the adverse health consequences experienced by adolescents are to a large extent the result of their risk behaviors Many adolescents today and perhaps an increasing number in the future are at risk for death disease and other adverse health outcomes that are not primarily biomedical in origin In general there has been a marked change in the causes of morbidity and mortality among adolescents Previously infectious diseases accounted for a disproportionate share of adolescent morbidity and mortality At present however the overwhelming toll of adolescent morbidity and mortality is the result of lifestyle practices **Treatment Of Suicidal People** Robert A. Neimeyer,John T. Maltsberger,Antoon A. Leenaars,2013-02-01 Treatment of suicidal people takes three forms prevention strategies to avert conditions leading to suicide intervention treatment and care during the crisis and postvention response after the event has occurred Unlike other current literature here the focus is on the state of the art of intervention This type of examination is essential because suicidal people themselves are in need of such treatments crisis intervention psychotherapy

psychopharmacology and hospitalization Written by professionals in the field the Treatment of Suicidal People allows readers to participate in a learning experience First is a case presentation of an individual Arthur Inman and his long road toward suicide as chronicled in his personal diary The second section puts forth guidelines for the evaluation of suicide risk and crisis intervention A focus on more sustained efforts in psychotherapy is next a theme which is continued in the fourth part by addressing psychiatric issues that are essential for treatment of highly disturbed and lethal patients The following section examines a number of clinical and legal issues that transcend any one population of suicidal people and any particular treatment approach or context And lastly the volume returns to Arthur Inman with case consultations providing alternative perspectives and recommendations on his treatment Suicide and related forms of self injurious behaviour can be circumvented if the involved professionals are sufficiently trained in assessment and prevention Primary Prevention in Mental Health

Edison J. Trickett, Cerene Cahiyal, Cerene Dahiyat, Peter M. Selby, 1994 *The Encyclopedia of Human Ecology* Julia R. Miller, Richard M. Lerner, Lawrence B. Schiamberg, Pamela M. Anderson, 2003-08-13 The first and only source to integrate the multiple disciplines and professions exploring the many ways people interact with the natural and designed environments in which we live Comprising more than 250 informative entries The Encyclopedia of Human Ecology examines the interdisciplinary and complex topic of human ecology Knowledge gathered from disciplines that study individuals and groups is blended with information about the environment from the fields of family science geography anthropology urban planning and environmental science At the same time professions intended to enhance individual and family life marriage and family therapy clinical psychology social work dietetic and other health professions are represented alongside those concerned with the preservation conservation and management of the environment and its resources How rampant are eating disorders among our youth Are AIDS educational programs effective What problems do adolescents transitioning into adulthood encounter Here four leading scholars in the field have assembled a team of top tier psychologists sociologists anthropologists and other experts to explore these and hundreds of other timely issues **Blackwell Handbook of**

Adolescence Gerald R. Adams, Michael Berzonsky, 2008-04-15 This volume brings together a team of leading psychologists to provide a state of the art overview of adolescent development Leading experts provide cutting edge reviews of theory and research Covers issues currently of most importance in terms of basic and or applied research and policy formulation Discusses a wide range of topics from basic processes to problem behavior The ideal basis for a course on adolescent development or for applied professions seeking the best of contemporary knowledge about adolescents A valuable reference for faculty wishing to keep up to date with the latest developments in the field Now available in full text online via xreferplus the award winning reference library on the web from xrefer For more information visit www.xreferplus.com

Decoding **Suicide Among Youth Perspectives On Risk And Prevention**: Revealing the Captivating Potential of Verbal Expression

In a time characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its power to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring.
