Suicide Behind Bars Prediction And Prevention:

Suicide Behind Bars David Lester, Bruce L. Danto, 1993 *The American Psychiatric Publishing Textbook of Suicide Assessment and Management* Robert I. Simon, Robert E. Hales, 2007-04-02 Providing clinically useful information for mental health professionals encountering patients at risk The American Psychiatric Publishing Textbook of Suicide Assessment and Management calls on the authority of 40 expert contributors reflecting a wide range of clinical and forensic experience

The International Handbook of Suicide and Attempted Suicide Keith Hawton, Kees van Heeringen, 2000-11-21 Recent research in the area of suicidology has provided significant new insights in the epidemiological psychopathological and biological characteristics of suicidal behaviour The International Handbook of Suicide and Attempted Suicide is the first book to bring together this expertise and translate it into practical guidelines for those responsible for policy issues and for those involved in the treatment and prevention of suicidal behaviour Leading international authorities provide a truly comprehensive and research based reference to understanding treating and preventing suicidal behaviour They explore concepts and theories which best guide work within this field and detail key research which has supported conceptual developments preventive interventions and clinical treatment No self respecting worker in deliberate self harm and suicide prevention either clinical or research can afford to be without access to this comprehensive handbook possession and regular use may well become a marker of serious involvement in the subject This is the most comprehensive up to date informative and well written source of information on suicide and suicidal behaviour an invaluable work of reference which will be essential for clinicians and researchers for many years to come Andrew Sims Emeritus Professor of Psychiatry St James s University Hospital Leeds UK British Journal of Psychiatry **Dostoevsky as Suicidologist** Amy D. Ronner, 2021-01-12 In *Dostoevsky as Suicidologist* Amy D Ronner illustrates how self homicide in Fyodor Dostoevsky s fiction prefigures Emile Durkheim s etiology in *Suicide* as well as theories of other prominent suicidologists This book not only fills a lacuna in Dostoevsky scholarship but provides fresh readings of Dostoevsky s major works including *Notes from The House of the Dead* *Crime and Punishment* *The Idiot* *Demons* and *The Brothers Karamazov* Ronner provides an exegesis of how Dostoevsky s implicit awareness of fatalistic altruistic egoistic and anomic modes of self destruction helped shape not only his philosophy but also his craft as a writer In this study Ronner contributes to the field of suicidology by anatomizing both self destructive behavior and suicidal ideation while offering ways to think about prevention But most expansively Ronner tackles the formidable task of forging a ligature between artistic creation and the pluripresent social fact of self annihilation

Handbook of Forensic Sociology and Psychology Stephen J. Morewitz, Mark L. Goldstein, 2013-08-20 The role of behavioral and social sciences in the courtroom setting has expanded exponentially in the past few decades It is now widely recognized that scientists in these areas provide critical contextual information for legal decision making and that there is a reliable knowledge base for doing so While there are many handbooks of forensic psychology this is the first such volume to

incorporate sociological findings broadening the conceptual basis for examining cases in both the civil and criminal realms including immigration issues personal injury child custody and sexual harassment This volume will examine the responsibilities of expert witnesses and consultants and how they may utilize principles theories and methods from both sociology and psychology It will show these disciplines together can improve the identification and apprehension of criminals as well as enhance the administration of justice by clarifying profiles of criminal behavior particularly in cases of serial killers death threat makers stalkers and kidnappers The volume is quite comprehensive covering a range of medical school environmental and business settings Throughout it links basic ideas to real applications and their impact on the justice system

Prison Suicide Lindsay M. Hayes, 1998-12 Until recently it has been assumed that suicide although a problem for jail inmates as they face the initial crisis of incarceration is not a significant problem for inmates who advance to prison to serve out their sentences This monograph was produced to fill a critical void in the knowledge base about prison suicide In addition to a thorough review of the literature and of national and state standards for prevention it offers the most recent national data on the incidence and rate of prison suicide effective prevention programs and discussion of liability issues References appendices and tables

The Effects of Imprisonment Alison Liebling, Shadd Maruna, 2013-06-17 This book brings together a group of leading authorities in this field both academics and practitioners to address the complex issues that the increasing number of prisoners in the UK USA and elsewhere has raised It assess the implications and results of research in this field and suggests ways of mitigating the often devastating personal and psychological consequences of imprisonment

The Routledge International Handbook of Forensic Psychology in Secure Settings Jane Ireland, Carol Ireland, Martin Fisher, Neil Gredecki, 2017-06-26 The Routledge International Handbook of Forensic Psychology in Secure Settings is the first volume to identify discuss and analyse the most important psychological issues within prisons and secure hospitals Including contributions from leading researchers and practitioners from the UK US Australia and Canada the book covers not only the key groups that forensic psychologists work with but also the treatment options available to them workplace issues unique to secure settings and some of the wider topics that impact upon offender populations The book is divided into four sections population and issues treatment staff and workplace issues contemporary issues for forensic application With chapters offering both theoretical rigour and practical application this is a unique resource that will be essential reading for any student researcher or practitioner of forensic psychology or criminology It will also be relevant for those interested in social policy and social care

Handbook on Prisons Yvonne Jewkes, Jamie Bennett, 2016-02-23 The second edition of the Handbook on Prisons provides a completely revised and updated collection of essays on a wide range of topics concerning prisons and imprisonment Bringing together three of the leading prison scholars in the UK as editors this new volume builds on the success of the first edition and reveals the range and depth of prison scholarship around the world The Handbook contains chapters written not only by those who have established and developed

prison research but also features contributions from ex prisoners prison governors and ex governors prison inspectors and others who have worked with prisoners in a wide range of professional capacities This second edition includes several completely new chapters on topics as diverse as prison design technology in prisons the high security estate therapeutic communities prisons and desistance supermax and solitary confinement plus a brand new section on international perspectives The Handbook aims to convey the reality of imprisonment and to reflect the main issues and debates surrounding prisons and prisoners while also providing novel ways of thinking about familiar penal problems and enhancing our theoretical understanding of imprisonment The Handbook on Prisons Second edition is a key text for students taking courses in prisons penology criminal justice criminology and related subjects and is also an essential reference for academics and practitioners working in the prison service or in related agencies who need up to date knowledge of thinking on prisons and imprisonment

Suicide Prevention David Lester, 2013-08-21 This study presents an evaluation of the past present and future of suicidal behaviour and efforts to prevent or facilitate suicide Authors from the varying disciplines of psychology sociology and psychiatry analyze suicide in the opening chapters Through the exploration of the roles of these disciplines the roles of primary physicians and the impact of suicide prevention education in schools the contributors describe the history of suicidology and the changes necessary for improvement The book concludes with a section detailing the goals and activities of organizations designed to prevent or facilitate suicide
