Suicide It Isn't What You Think:

Psychotherapy Isn't What You Think James F. T. Bugental, 1999 This book draws on the author's half century of experience in teaching consulting with and supervising psychotherapists throughout the world He begins with the premise that the field has become too preoccupied with information collecting information from the client and then feeding that information back to the client in different forms The author then explains how and why shifting away from information gathering to attending to what is actually happening in the therapy room increases the effectiveness of the therapeutic interaction

Treatment Of Suicidal People Robert A. Neimeyer, John T. Maltzberger, Antoon A. Leenaars, 2013-02-01 Treatment of suicidal people takes three forms prevention strategies to avert conditions leading to suicide intervention treatment and care during the crisis and postvention response after the event has occurred Unlike other current literature here the focus is on the state of the art of intervention This type of examination is essential because suicidal people themselves are in need of such treatments crisis intervention psychotherapy psychopharmacology and hospitalization Written by professionals in the field the Treatment of Suicidal People allows readers to participate in a learning experience First is a case presentation of an individual Arthur Inman and his long road toward suicide as chronicled in his personal diary The second section puts forth guidelines for the evaluation of suicide risk and crisis intervention A focus on more sustained efforts in psychotherapy is next a theme which is

continued in the fourth part by addressing psychiatric issues that are essential for treatment of highly disturbed and lethal patients The following section examines a number of clinical and legal issues that transcend any one population of suicidal people and any particular treatment approach or context And lastly the volume returns to Arthur Inman with case consultations providing alternative perspectives and recommendations on his treatment Suicide and related forms of self injurious behaviour can be circumvented if the involved professionals are sufficiently trained in assessment and prevention

Social Justice Isn't What You Think It Is Michael Novak,Paul Adams,2015-11-03 What is social justice For Friedrich Hayek it was a mirage a meaningless ideological incoherent vacuous cliché He believed the term should be avoided abandoned and allowed to die a natural death For its proponents social justice is a catchall term that can be used to justify any progressive sounding government program It endures because it venerates its champions and brands its opponents as supporters of social injustice and thus as enemies of humankind As an ideological marker social justice always works best when it is not too sharply defined In *Social Justice Isn't What You Think It Is* Michael Novak and Paul Adams seek to clarify the true meaning of social justice and to rescue it from its ideological captors In examining figures ranging from Antonio Rosmini Abraham Lincoln and Hayek to Popes Leo XIII John Paul II and Francis the authors reveal that social justice is not a synonym for progressive government as we have come to believe Rather it is a virtue rooted in Catholic social teaching and developed as an alternative to the unchecked power of the state Almost all social workers see themselves as progressives not conservatives Yet many of their best practices aim to empower families and local communities They stress not individual or state but the vast social space between them Left and right surprisingly meet In this surprising reintroduction of its original intention social justice represents an immensely powerful virtue for nurturing personal responsibility and building the human communities that can counter the widespread surrender to an ever growing state *Loving Someone with Suicidal*
