Asociación Interamericana de Bibliotecarios y Documentalistas Agrícolas, 1976 **The Summa Halensis** Lydia  
Schumacher, 2020-06-22 For generations early Franciscan thought has been widely regarded as unoriginal a mere attempt to  
systematize the longstanding intellectual tradition of Augustine in the face of the rising popularity of Aristotle This volume  
brings together leading scholars in the field to undertake a major study of the major doctrines and debates of the so called  
Summa Halensis 1236 45 which was collaboratively authored by the founding members of the Franciscan school at Paris  
above all Alexander of Hales and John of La Rochelle in an effort to lay down the Franciscan intellectual tradition or the first  
time The contributions will highlight that this tradition far from unoriginal laid the groundwork for later Franciscan thought  
which is often regarded as formative for modern thought Furthermore the volume shows the role this Summa played in the  
development of the burgeoning field of systematic theology which has its origins in the young university of Paris This is a  
crucial and groundbreaking study for those with interests in the history of western thought and theology specifically

**Critique** Willi Goetschel, 1994 Kant's philosophy is often treated as a closed system without reference to how it was written

or how Kant arrived at its familiar form the critique In fact the style of the critique seems so artless that readers think of it as an unfortunate by product a style of stylelessness In *Constituting Critique* Willi Goetschel shows how this apparent gracelessness was deliberately achieved by Kant through a series of writing experiments By providing an account of the process that culminated in his three Critiques this book offers a new perspective on Kant s philosophical thought and practice *Constituting Critique* traces the stages in Kant s development to reveal how he redefined philosophy as a critical task Following the philosopher through the experiments of his early essays Goetschel demonstrates how Kant tests challenges and transforms the philosophical essay in his pursuit of a new self reflective literary genre From these experiments critique emerges as the philosophical form for the critical project of the Enlightenment The imperatives of its transcendental style Goetschel contends not only constitute and inform the critical moment of Kant s philosophical praxis but also have an enduring place in post Kantian philosophy and literature By situating the Critiques within the context of Kant s early essays this work will redirect the attention of Kant scholars to the origins of their form It will also encourage contemporary critical theorists to reconsider their own practice through an engagement with its source in Kant **Alerta**,1979 **Viewing Positions** Linda Williams,1995 Traces the history of spectatorship and gaze theory in film studies
