

Enhancing the Seismic Response of Buildings with Energy Dissipation Methods – An Overview

Shamiranga Priya D.^{*}, Chaitika A., Umeshk P. K., Nagesh R. Iyer

CNSR-Structural Engineering Research Center, Chennai, India

Abstract In recent years many seismic protection systems have been developed to reduce the effects of the devastating wind and seismic loads. For this purpose, greater attention has been directed towards the use of passive energy dissipaters, base isolators, active and hybrid control systems. This paper reviews the existing energy dissipation systems that can be adopted to minimize the amount of damage and response of the structure during extreme dynamic loads. Based on the review, it is observed that passive systems such as tuned mass dampers, friction dampers, tuned liquid dampers are highly effective in moderate seismic zones and wind predominant regions. Base isolation technique decouples the structure from the ground preventing the superstructure from absorbing input energy and it is effective in low to medium rise buildings in hard soil. Seismic isolation systems contribute to safety by withstanding lateral forces also. Active vibration control systems are preferred more than passive control systems when flexibility and height of the buildings is to be considered. This paper highlights the behaviour of various forms of energy dissipation devices during seismic events for real time application in structures.

Keywords Seismic isolation, Energy dissipation systems, Active vibration control, Tuned mass damper

1. Introduction

Minimum transmission of the damaging ground motions is possible by the introduction of energy dissipation devices which provide damping in to structural elements. Kraw and Spencer (2002), Soman et al (2008), Whitaker et al (1991) and many more have carried out great work on the behaviour and design of energy dissipating devices and base isolators. Active or hybrid or semi-active control systems are force delivery devices integrated with real-time processing evaluators/controllers and sensors within the structure. Passive energy-dissipation system, leads the input energy from earthquake directly to the dissipation device, thereby reducing energy-dissipating demand on primary structural members and minimizing possible structural damage. Energy dissipating device operates on the principle of friction sliding, yielding of metals, phase transformation in metals, deformation of viscoelastic solids or fluids and fluid orifice. This paper reviews the behaviour of energy dissipation systems and their application to building structures for enhancing the seismic response of structures.

1.1. Classification of Energy Dissipation Systems

Energy dissipation systems can be broadly classified in to

the following category:

- Passive control systems
- Active control systems
- Semi-active control systems
- Base isolation

Passive energy dissipaters are further classified into displacement-dependent devices (friction devices, metallic yielding devices) and velocity-dependent devices (solid viscoelastic and fluid viscous dampers).

Active, hybrid and semi-active structural control systems are a natural evolution of passive control technologies. The possible use of active control systems and some combinations of passive and active systems as a means of structural protection against seismic loads has received considerable attention in recent years. Base isolation is the process where rubber bearings are used to reduce structural movement by installing rubber pads between sub-structure and superstructure. Table 1 gives the summary of various energy dissipaters.

2. Passive Energy Dissipation Systems

Passive energy dissipation systems absorb a part of input energy, reducing energy dissipation demand on primary structural members. Hysteresis devices (metallic and friction dampers) dissipate energy through a mechanism that is independent of load frequency. Metallic dampers dissipate energy through yielding of metals and friction dampers

Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices

**Highway Innovative Technology
Evaluation Center (U.S.)**

Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices:

Summary of Evaluation Findings for the Testing of Seismic Isolation and Energy Dissipating Devices Highway Innovative Technology Evaluation Center (U.S.),1999-01-01 Prepared by the Highway Innovative Technology Evaluation Center HITEC a CERF Service Center his report summarizes the results of an evaluation that was designed to test the performance of 11 seismic isolators and dampers The devices were tested for stability response during earthquake simulations and fatigue and weathering effects

Summary of Evaluation Findings for the Testing of Seismic Isolation and Energy Dissipating Devices Highway Innovative Technology Evaluation Center (U.S.),1999-01-01 Prepared by the Highway Innovative Technology Evaluation Center HITEC a CERF Service Center his report summarizes the results of an evaluation that was designed to test the performance of 11 seismic isolators and dampers The devices were tested for stability response during earthquake simulations and fatigue and weathering effects

Guidelines for Testing Large Seismic Isolator and Energy Dissipation Devices Highway Innovative Technology Evaluation Center (U.S.),2002-01-01 Prepared by the Highway Innovative Technology Evaluation Center HITEC a CERF Innovation Center This report outlines the HITEC Technical Evaluation Plan for large seismic isolator and energy dissipation devices The plan is designed to characterize the fundamental properties and performance characteristics of a wide range of devices produced by U S and overseas manufacturers It describes a program of full scale dynamic tests the results of which should provide guidance to the transportation engineering community regarding the performance of large seismic devices

Evaluation Findings for Enidine, Inc., Viscous Damper Highway Innovative Technology Evaluation Center (U.S.),1999-01-01 Prepared by the Highway Innovative Technology Evaluation Center HITEC a CERF Service Center This report summarizes the results of a detailed evaluation of a viscous damper manufactured by Enidine Inc The report is part of a program to test the performance of 11 seismic isolators and dampers produced by several manufacturers The devices were tested for stability response during earthquake simulations and fatigue and weathering effects

Evaluation Findings for Earthquake Protection Systems, Inc. Friction Pendulum Bearings Highway Innovative Technology Evaluation Center (U.S.),1998-01-01 Prepared by the Highway Innovative Technology Evaluation Center HITEC a CERF Service Center This report summarizes the results of a detailed evaluation of Friction Pendulum Bearings manufactured by Earthquake Protection Systems Inc The report is part of a program to test the performance of 11 seismic isolators and dampers produced by several manufacturers The devices were tested for stability response during earthquake simulations and fatigue and weathering effects

Summary of Evaluation Findings for 30-meter Handheld and Mobile Pavement Marking Retroreflectometers Highway Innovative Technology Evaluation Center (U.S.),2001-01-01 Prepared by the Highway Innovative Technology Evaluation Center HITEC a CERF Innovation Center This report summarizes the results of detailed evaluations performed on four handheld and two mobile pavement marking retroreflectometers The evaluations were designed to test the measurement bias repeatability and

reproducibility of handheld and mobile retroreflectometers produced by several manufacturers *Evaluation Findings for Seismic Energy Products, L.P. Elastomeric Isolation Bearing* Highway Innovative Technology Evaluation Center (U.S.),2001-01-01 Prepared by the Highway Innovative Technology Evaluation Center HITEC a CERF Service Center This report presents the results of a detailed evaluation for one seismic isolator supplied by Seismic Energy Products L P The evaluation is designed to test the performance of seismic isolators and dampers *Evaluation Findings for R.J. Watson, Inc., Sliding Isolation Bearings* Highway Innovative Technology Evaluation Center (U.S.),1998-01-01 Prepared by the Highway Innovative Technology Evaluation Center HITEC a CERF Service Center This report summarizes the results of a detailed evaluation of sliding isolation bearings manufactured by R J Watson Inc The report is part of a program to test the performance of 11 seismic isolators and dampers produced by several manufacturers The devices were tested for stability response during earthquake simulations and fatigue and weathering effects *Evaluation of SSET: The Sewer Scanner and Evaluation Technology* Civil Engineering Research Foundation,2001-01-01 Prepared by CEITEC a CERF innovation center serving the engineering and construction industries This report describes an evaluation of Sewer Scanner and Evaluation Technology SSET designed to determine the basic capabilities and limitations of SSET for use as a technically viable technology for inspecting sewer pipes The evaluation focused on the performance and in service demonstration of SSET The technology involves digital scanning to obtain a flat unfolded image of the pipeline s interior This evaluation includes field demonstrations performed at 13 municipal public works agencies throughout North America Subsequent to this evaluation SSET was modified to include a fisheye lens camera and fiber optic gyroscope which replaced the rotating mechanical scanner and mechanical gyroscope The evaluation confirmed the operability of SSET and its viability in data presentation A degree of enhancement was recognized with additional features most notably the ability to produce a digital report of the sewer pipe to identify vertical deflection in pipes and to deliver easily comprehensible and manageable results The evaluation also revealed that SSET cannot reproduce all the features typically available from closed circuit television CCTV inspection Such features include the ability to clearly see corrosion infiltration rates and ovality The limitations in applicability were determined and an economic comparison of SSET and CCTV is provided **Evaluation Findings for Skellerup Base Isolation Elastomeric Bearings** Highway Innovative Technology Evaluation Center (U.S.),1998-01-01 Prepared by the Highway Innovative Technology Evaluation Center HITEC a CERF Service Center This report summarizes the results of a detailed evaluation of base isolation elastomeric bearings manufactured by Skellerup The report is part of a program to test the performance of 11 seismic isolators and dampers produced by several manufacturers The devices were tested for stability response during earthquake simulations and fatigue and weathering effects

Eventually, you will no question discover a other experience and skill by spending more cash. still when? accomplish you agree to that you require to acquire those every needs following having significantly cash? Why dont you attempt to get something basic in the beginning? Thats something that will guide you to understand even more all but the globe, experience, some places, once history, amusement, and a lot more?

It is your entirely own period to ham it up reviewing habit. accompanied by guides you could enjoy now is **Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices** below.

Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices

Introduction

Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices Offers a diverse range of free eBooks across various genres. Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices, especially related to Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices books or magazines might include. Look for these in online stores or libraries. Remember that while Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide

Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices

excerpts or short stories for free on their websites. While this might not be the Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices eBooks, including some popular titles.

FAQs About Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices Books

What is a Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without

Summary Of Evaluation Findings For The Testing Of Seismic Isolators And Energy Dissipating Devices

significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
