AIJA LAW LIBRARY 14 Global Venture Capital Transactions Beat Brechbühl, Robert J. Woode, 2004-01-01 The venture capital and private equity industries are among the most characteristic and visible segments of today s global economy As we approach the midpoint of the first decade of the 21st century these industries have clearly matured and left behind the much publicized excesses of the 1990s It is now incumbent upon practitioners to thoroughly understand the legal structure of venture capital transactions not only in their own country but also due to the typically cross border nature of such transactions in numerous jurisdictions worldwide This very useful book has been prepared under the auspices of the International Association of Young Lawyers AIJA following a working session held in Edinburgh in August 2003 It provides practitioners with the first overview of the legal requirements attached to venture capital transactions in a variety of jurisdictions encompassing both developed and developing nations An introductory chapter presents a global view addressing venture capital issues that tend to arise under any legal circumstances Then for each of twelve countries an experienced practitioner in the venture capital field offers detailed discussions of his or her country s legal system as it pertains to the protection of investors rights and company s investments regulatory issues and enforcement Specific topics discussed where applicable for each country include documentation due diligence valuation standards representations and warranties intellectual property compensation of key

personnel disclosure exit strategy corporate governance roles tax issues securities law requirements restrictions on foreign direct investment and availability of court orders Global Venture Capital Transactions goes a long way to fulfilling the need of practitioners and entrepreneurs to structure cross border venture capital transactions that are not only initially successful but enjoy continued profitability with the strength to overcome inevitable obstacles It will be warmly welcomed by the venture capital and private equity community throughout the world

Protection of Minority Shareholders Matthias W. Evidence in International Arbitration Proceedings Peter Eijsvoogel, 1994-06-27 This is the second volume to appear in the new and already successful AIJA Law Library series This volume has been prepared by members of the AIJA Standing Commission on International Arbitration under the editorship of Peter Eijsvoogel It is intended to be a reference work for practitioners in the field of international arbitration both counsellors and arbitrators Twenty national reports from major jurisdictions outline the general character of the legal system in respect of ADR procedures sources of procedural rules for arbitration law and practice on documentary evidence and submissions testimonial evidence and the involvement of experts In addition the book contains a detailed analysis of the legal rules pertaining to the taking of evidence in both civil and common law systems and highly practical contributions relating to deposition skills Banking Law Survey, 1999/2000

Manfred Heemann, 2001-05-08 As the transnational character of banking and finance activities becomes ever more pronounced there is a clear need for lawyers in the field to become conversant with pertinent legal developments in national jurisdictions other than their own This book takes a major step towards fulfilling that need It not only provides essential orientation in the banking law of nine countries in which international financial business is commonly transacted but also offers experienced high quality insights into developments and trends in each of these jurisdictions With origins in the discussions of the Banking and Finance Commission of the International Association of Young Lawyers AIJA this important work examines the main areas of banking and finance law across a broad spectrum of areas of law from project finance to financial services regulation Most of the chapters were originally presented as papers at a conference on Managing Banking Risks and Combating Fraud which was jointly organised by IBC and AIJA in London in March 1998 These papers have been updated for inclusion in this work with the addition of a General Report and a new paper on the United States which takes into account the new Financial Services and Modernization Act FSMA Each chapter follows a predetermined outline so the reader can easily make a comparative analysis across the countries covered Brinkman's cumulatieve catalogus van boeken, 2000 Voorts een alphabetische lijst van Nederlandsche boeken in Belgi uitgegeven
