 Ray Broadus Browne, 1979  
 Alabamians have always been a singing people  
 The settlers who moved into the various sections of the state brought with them songs which reflected their national origins and geographical backgrounds and as they spread into the hills and over the lowlands they created new songs out of the conditions under which they lived  
 Also they absorbed songs from outside sources whenever these pieces could be adapted to their sentiments and ways of life  
 Thus by a process of memory composition and recreation they developed a rich body of folk songs  
 The following collection a part of the effort to discover and preserve these songs      Chinese Shadow Theatre  
 Fan Pen Li Chen, 2007-06-21  
 In her study of Chinese shadow theatre Fan Pen Li Chen documents and corrects misconceptions about this once popular art form  
 Drawing on extensive research and fieldwork she argues that these plays served a mainly religious function during the Qing dynasty and that the appeal of women warrior characters reflected the lower classes' high tolerance for the unorthodox and subversive  
 Chinese Shadow Theatre includes several rare transcriptions of oral performances including a didactic play on the eighteen levels of Hell and Investiture of the Gods a sacred saga and translations of three rare hand copied shadow plays featuring religious

themes and women warrior characters Chen examines the relationship between historical and fictional women warriors and those in military romances and shadow plays to demonstrate the significance of both printed works and oral transmission in the diffusion of popular culture She also shows that traditional folk theatre is a subject for serious academic study by linking it to recent scholarship on drama popular religion and popular culture Musical Opinion and Music Trade Review ,1916

Singing and Communicating in English Kathryn LaBouff,2007-12-21 From the Foreword by Renee Fleming Kathryn LaBouff has developed an approach to singing in the English language which is wonderfully user friendly and which has surely saved much wear and tear on my voice It is a technique that has empowered me with the knowledge and skills to bring a text to life and to be able to negotiate all of the sounds of the language with the least amount of effort I have found her clever and extremely creative use of substitute consonants or combinations of consonants in creating clear diction utterly delightful because they are surprising and because they work These techniques have been equally useful when singing in foreign languages We sopranos are not usually known to have good diction particularly in our high range I found that working with Kathryn improved my ability to be understood by an enormous percentile of the audience with much less vocal fatigue than I would have experienced if left to my own devices I have often told my colleagues enthusiastically of her interesting solutions to the frustrating problems of diction I am thrilled that her techniques are now in print for all to benefit from them In Singing and Communicating in English internationally renowned diction coach Kathryn LaBouff provides singers with an accessible guide to the principles of English diction they need to communicate the text successfully Her thorough and much sought after technique clarifies the physiology of speech emphasizes the studied practice of careful and articulate pronunciation and focuses on the study of English cadence Covering aspects of phonetics from vowels to diphthongs to fricatives the book includes multiple practical exercises in International Phonetic Alphabet IPA transcriptions helpful diagrams and pronunciation drills each chosen from the most essential English art song and operatic repertoire In addition to standard American and British English a variety of regional dialects and accents are covered in depth A companion website features a full range of vowel consonant drills poems read aloud by the author and by theater and voiceover actor John Keating as well as an exercise answer key and publishers lists to help the singer locate a vast array of English language works for performance This book is an invaluable resource for all vocalists both professional and aspiring diction instructors teachers and coaches and choral directors VISIT THE COMPANION SITE AT [www.oup.com/us/singinginenglish](http://www.oup.com/us/singinginenglish)
