The Healing Arts Joanna Kalafarski, 2006 Abstract This collection of seven short stories presents characters in pursuit of emotional spiritual and physical healing The collection is divided into an adult section and a young reader section

A Balm for Gilead Daniel P. Sulmasy, 2006 The relationship between spirituality and health care has been much discussed in recent years and Daniel Sulmasy M D is leading the wave His 1997 book with Paulist The Healer's Calling has sold over 30 000 copies And the fact that more and more med schools are teaching courses not just on bioethics but on religion and medicine suggests that this wave is growing Sulmasy's spring 2006 volume with Georgetown The Rebirth of the Clinic is a textbook on spirituality and health care This book is different it is a work of spirituality a series of meditations of inspiration aimed at health care professionals and all those involved in the care of the sick and dying Like a Swiss lake it is clear and deep Sulmasy draws from philosophical and theological sources specifically Hebrew and Christian scripture to illuminate how the art of healing is integrally tied to a sense of the divine and our ultimate interconnectedness For example Sulmasy shows how the ancient wisdom of Sirach speaks to the significance of good health while not turning health into a golden calf of obsession And speaking of obsession Sulmasy compares the prodigal son of the New Testament to the prodigal profession of health care urging his colleagues to put their patients ahead of their own greed and financial gain

And then there is beauty Sulmasy reminds readers of the beauty of all god s creation and how that should always trump our cultural and professional attitudes toward obesity and disfigurement As a Franciscan Sulmasy does not shy away from his explicit Catholic Christian faith convictions This may limit his audience But at the same time his certitude and his passion that health care must change that it must recover a theological foundation of fundamental concern for the other will speak clearly to committed Catholics *The Healing Arts* Larry Kettelkamp,1978 A survey of different approaches to the healing of the human mind and body *Grief and the Healing Arts* Sandra L. Bertman,2017 For nearly three decades Sandra Bertman has been exploring the power of the arts and belief symbols metaphors stories to alleviate psychological and spiritual pain not only of patients grieving family members and affected communities but also of the nurses clergy and physicians who minister to them Her training sessions and clinical interventions are based on the premise that bringing out the creative potential inherent in each of us is just as relevant perhaps more so as psychiatric theory and treatment models since grief and loss are an integral part of life Thus this work was compiled to illuminate the many facets that link grief counseling and creativity The multiple strategies suggested in these essays will help practitioners enlarge their repertoire of hands on skills and foster introspection and empathy in readers Provided by publisher *Music and Sound in the Healing Arts* John Beaulieu,1987 Based on seventeen years of experimentation observation and experience in assisting people through music and sound this book is a guide for anyone interested in understanding and using music as a powerful means of healing for themselves and others *The Essence of the Healing Arts* Waltraud Larson,C. Gore,2013-10-29 This is a must read for all people in a medical facility and for individuals who want to learn how to reach the pinnacle of creativity to live a fuller life through the experience of the healing arts **The Healing Arts** E.
