The Healing Environment:

The Healing Environment Deborah Kirklin, Ruth Richardson, 2003 This book provides a framework for understanding the healing environment not only that in which health care takes place but also the real contribution that the arts can make to those on a path of physical or mental healing

Spirit and Place Christopher Day, 2012-06-14 Built environment surrounds us for 90% of our lives but only now are we realising its influence on the environment our health and how we think feel and behave both individually and socially Spirit how to moderate climate to make places of delight and realign social pressures so places both support society and maximise economic viability Thought provoking and easy to understand Christopher Day uses everyday examples to relate his theories to practice and our experience

Designing Commercial Interiors Christine M. Piotrowski, Elizabeth A. Rogers, IIDA, 2012-06-14 The definitive reference on designing commercial interiors expanded and updated for today s facilities Following the success of the ASID Polsky Prize Honorable Mention in 1999 authors Christine Piotrowski and Elizabeth Rogers have extensively revised this guide to planning and designing commercial interiors to help professionals and design students successfully address today s trends and project requirements This comprehensive reference covers the practical and aesthetic issues that distinguish commercial interiors There is new information on sustainable design security and accessibility three areas of increased emphasis in modern interiors An introductory chapter provides an overview of

commercial interior design and the challenges and rewards of working in the field and stresses the importance of understanding the basic purpose and functions of the client's business as a prerequisite to designing interiors. This guide also gives the reader a head start with eight self-contained chapters that provide comprehensive coverage of interior design for specific types of commercial facilities ranging from offices to food and beverage facilities and from retail stores to health care facilities. Each chapter is complete with a historical overview, types of facilities, planning and interior design elements, design applications, a summary, references, and Web sites. New design applications covered include spas in hotels, bed and breakfast inns, coffee shops, gift stores, and salons; courthouses and courtrooms; and golf clubhouses. In keeping with the times, there are new chapters focusing on senior living facilities and on restoration and adaptive use. A chapter on project management has been revised and includes everything from proposals and contracts to scheduling and documentation. Throughout the book, design application discussions, illustrations, and photographs help both professionals and students solve problems and envision and implement distinctive designs for commercial interiors. With information on licensing codes and regulations along with more than 150 photographs and illustrations, this combined resource and instant reference is a must have for commercial interior design professionals, students, and those studying for the NCIDQ licensing exam. Transformative Nursing in the NICU Mary Coughlin, 2014-02-13. This innovative text for Neonatal Nurses and NICU clinicians introduces new evidence-based care protocols proven to mitigate or reduce the profound morbidities and subsequent developmental challenges that afflict newborns in the NICU. The book reframes the concept of developmentally supportive care to trauma-informed, age-appropriate care of the hospitalized premature infant. Aimed at transforming NICU practice, the book links developmental care to quality standards and Joint Commission requirements. The text is also unique in its provision of engaging online learning activities that facilitate the translation of content into clinical practice, whereby the user can also earn CEUs. The text highlights the ways in which Nightingale's tenets of nursing and Watson's theory of human caring science resonate with its subject matter and are applied in the NICU. It includes examples of favorable outcomes associated with the protocols described in this book from practitioners in the U.S. and overseas. Additionally, the text aligns with NANN guidelines for Age-Appropriate Care of the Premature and Hospitalized Infant. This book will provide the neonatal nurse APN with best available evidence-based caring strategies to consistently and reliably manage the trauma associated with the NICU experience and mitigate both short-term and long-term complications associated with this developmental trauma.

Key Features: Introduces cutting-edge evidence-based care protocols proven to reduce the profound morbidities and developmental challenges of premature infants. Reframes the concept of developmentally supportive care to trauma-informed, age-appropriate care. Meets Joint Commission requirements for age-appropriate staff education. Includes examples from researchers and practitioners worldwide. Presents innovative online learning activities to facilitate translation of content to clinical practice.
