flamingo are both related to the complexions of the Dutch how the biblical son of Isaac is related to a French garment and a Halloween decoration and what going berserk has to do with playing hopscotch You ll also uncover the common roots of such seemingly incompatible dyads as bully friar muscle mouse and everyone s favorite feather hippopotamus Richly supplemented with cultural anecdotes literary excerpts and lively discussions on a broad variety of relevant topics not to mention a series of whimsical illustrations that offer intriguing clues to word origins Dubious Doublets is quite simply a word buff s delight
