The New Revolution Wilbur M. Savidge, 1995-04-01 *The World We Have Won* Jeffrey Weeks, 2007-06-21 This book explores the life changes since 1945 from welfarism to the pill and from globalization to individualization Rejecting the cultural pessimism it argues that this is a world we are increasingly making for ourselves a world we have won *Modern Free Society and Its Nemesis* Milan Zafirovski, 2007-01-01 *Modern Free Society and Its Nemesis* explores whether and to what extent conservatism represents a negation to free society and liberty in Western countries **Conservative Thought in Contemporary China** Peter R. Moody, 2007-01-01 *Conservative Thought in Contemporary China* examines the evolution of conservative politics in China which has become increasingly prevalent following the death of Mao Zedong in 1978 Peter Moody traces the roots of conservatism through the imperial system the Republican period and the pre Cultural Revolution People's Republic all of which influence contemporary Chinese politics **The Moralist International** Kristina Stoeckl, Dmitry Uzlaner, 2022-12-20 *The Moralist International* analyzes the role of the Russian Orthodox Church and the Russian state in the global culture wars over gender and reproductive rights and religious freedom It shows how the Russian Orthodox Church in the past thirty years first acquired knowledge about the dynamics issues and strategies of Right Wing Christian groups how the Moscow Patriarchate has shaped its traditionalist agenda accordingly and how the close alliance between church and state has turned Russia into a norm entrepreneur for international moral conservatism Including detailed case studies of the World Congress of Families anti abortion activism and the global homeschooling movement the book identifies the key factors causes and actors of this process Kristina Stoeckl and Dmitry Uzlaner then develop the concept of conservative aggiornamento to describe Russian traditionalism as the result of conservative religious modernization and the globalization of Christian social conservatism *The Moralist International* continues a line of research on the globalization of the culture wars that challenges the widespread perception that it is only progressive actors who use the international human rights regime to achieve their goals by demonstrating that conservative actors do the same The book offers a new original perspective that firmly embeds the conservative turn of post Soviet Russia in the transnational dynamics of the global culture wars *The Moralist International* is available from the publisher on an open access basis *A Companion to 20th-Century America* Stephen J. Whitfield, 2008-04-15 *A Companion to 20th Century America* is an authoritative survey of the most important topics and themes of twentieth century American history and historiography Contains 29 original essays by leading scholars each assessing the past and current state of American scholarship Includes thematic essays covering topics such as religion ethnicity conservatism foreign policy and the media as well as essays covering major time periods Identifies and discusses the most influential literature in the field and suggests new avenues of research as the century has drawn to a close *Tradition and Modernity*, 2009 *The Question for Twentieth Century China* has been the integration of tradition and modernity In this collection of essays written over a period of some twenty years

1987 2006 Chen Lai reflects on the question in an informative and original way He reads behind the political slogans and engages with the thought both of Max Weber Talcott Parsons and Western sociology and representative Chinese thinkers notably Feng Youlan and Liang Shuming While the focus is on China the book also appeals to anyone interested in this fascinating question of how to modernise whilst retaining the positive values of tradition Chen Lai s unique and balanced grasp of society marks him out as the foremost thinker in China on this topic today **Realistic Revolution** Els van Dongen,2019-06-06 This is a novel transnational exploration of the major Chinese intellectual debates on radicalism in history culture and politics after 1989 **Stuck In The Sixties** George Rising,2010-11-08 The 1960s were a colorful tumultuous age that transformed American society Ever since the decade ended Americans have debated the changes that it unleashed While most liberals argue that the era s effects were mainly positive and long overdue conservatives perceive the 1960s as a disastrous time that has left ruinous legacies for us Stuck in the Sixties analyzes conservatives views about the 1960s era and its legacies by examining their discourse about such sixties figures and movements as John F Kennedy Martin Luther King Jr the civil rights movement the Warren Court the Great Society the Vietnam War the anti war movement the New Left and the counterculture The book reveals that for a generation a focus on attacking and reversing the legacies of the 1960s has been essential to the conservative Republican agenda **From Culturalist Nationalism to Conservatism** Aymeric Xu,2021-04-19 What does it mean to be a conservative in Republican China Challenging the widely held view that Chinese conservatism set out to preserve traditional culture and was mainly a cultural movement this book proposes a new framework with which to analyze modern Chinese conservatism It identifies late Qing culturalist nationalism which incorporates traditional culture into concrete political reforms inspired by modern Western politics as the origin of conservatism in the Republican era During the May Fourth period New Culture activists belittled any attempts to reintegrate traditional culture with modern politics as conservative What conservatives in Republican China stood for was essentially this late Qing culturalist nationalism that rejected squarely the museumification of traditional culture Adopting a typological approach in order to distinguish different types of conservatism by differentiating various political implications of traditional culture this book divides the Chinese conservatism of the Republican era into four typologies liberal conservatism antimodern conservatism philosophical conservatism and authoritarian conservatism As such this book captures for the first time how Chinese conservatism was in constant evolution while also showing how its emblematic figures reacted differently to historical circumstances
