The New Trojan Horse A Critique Of Political Asylum:

The New Trojan Horse Irvin H. Jacob, 1989 **Refugees, Migration and Global Governance** Elizabeth G.

Ferris, Katharine M. Donato, 2019-07-05 As debates about migrants and refugees reverberate around the world this book offers an important first hand account of how migration is being approached at the highest levels of international governance Whereas refugees have long been protected by international law migrants have been treated differently with no international consensus definition and no one international migration system This all changed in September 2016 when the 193 members of the United Nations unanimously adopted the New York Declaration on Refugees and Migrants laying the groundwork for the creation of governance frameworks for migrants and refugees worldwide This book provides a fly on the wall analysis of the opportunities and challenges of the two new Global Compacts on Refugees and Migration as governments international NGOs multilateral institutions and other actors develop and negotiate them Looking beyond the compacts the book considers migration governance over time and asks the bigger questions of what the international community can do on the one hand to affirm and strengthen safe orderly and regular migration to help drive economic growth and prosperity whilst on the other hand responding to the problems caused by increasing numbers of refugees and irregular migrants This highly engaging and informative account will be of interest to policy makers academics and students concerned with global migration and refugee governance

The Syrian Refugee Crisis Danilo Mandić, 2022-10-21 The Syrian war the 21st century's most protracted and second deadliest conflict has driven 5.6 million refugees and 6.6 million internally displaced into flight As the civil war draws to a close an autopsy of this historic and unprecedented refugee episode becomes feasible Why did the war generate so many refugees How did so many of them get to Europe Who are these people and why did they leave From whom were they fleeing and why Did European policymakers alleviate or aggravate the refugee crisis The Syrian Refugee Crisis argues that Syrian forced migration has been deeply misunderstood Against conventional wisdom it suggests that refugees engaged smugglers not just as traffickers or criminal exploiters but as natural allies and means to affirm asylum rights that the politicization of refugees according to major actors foreign policy priorities obfuscated the role of US and European foreign policy in generating massive displacement and that restrictionist border policies on the Balkan Route were inhumane incoherent and counterproductive Relying on extensive rare fieldwork data from five countries comprising the Balkan Route Jordan Turkey Greece Serbia and Germany this book sheds light on the understudied counter intuitive and often misunderstood dynamics of forced migration refugee agency border restrictionism anti smuggling policy and migrant decision making in the 21st century

The Politics of Trauma Staci K. Haines, 2019-11-19 An essential tool for healers therapists activists and trauma survivors who are interested in a justice centered approach to somatic transformation The Politics of Trauma offers somatics with a social analysis This book is for therapists and social activists who understand that trauma healing is not just for individuals and that social change is not just for movement builders Just as health practitioners need to consider the societal

factors underlying trauma so too must activists understand the physical and mental impacts of trauma on their own lives and the lives of the communities with whom they organize Trauma healing and social change are at their best interdependent Somatics has proven to be particularly effective in addressing trauma but in practice it typically focuses solely on the individual failing to integrate the social conditions that create trauma in the first place Staci K Haines somatic innovator and cofounder of generative somatics invites readers to look beyond individual experiences of body and mind to examine the social political and economic roots of trauma including racism environmental degradation sexism and poverty Haines helps readers identify understand and address these sources of trauma to help us bridge individual healing with social transformation

EU Policymaking at a Crossroads Sybille Münch, Hubert Heinelt, 2022-12-08 For readers interested in an overview of what led to the adoption of the European Union's Multiannual Financial Framework MFF and its aftermath this book traces the discursive dynamics and milestones of the negotiations around the MFF and the new recovery instrument aimed at alleviating the economic crisis caused by the Coronavirus pandemic

The Politics of Vulnerability Asma T. Uddin, 2021-03-23 A religious liberty lawyer and acclaimed author reveals the root of America's polarization inside the Muslim and evangelical Christian divide and how it can be healed Despite the dire consequences of America's cultural political and religious divisiveness from increasing incivility to discrimination and outright violence few have been able to get to the core cause of this conflict Even fewer have offered measures for reconciliation Now in *The Politics of Vulnerability* Asma Uddin American Muslim public intellectual religious liberties attorney and activist provides a unique perspective on the complex political and social factors contributing to the Muslim Christian divide Unlike other analysts Uddin asks what underlying drivers cause otherwise good people to do or believe bad things Why do people who value faith support of measures that limit others especially of Muslims religious freedom and other rights Uddin humanizes a contentious relationship by fully embracing both sides as individuals driven by very human fears and anxieties Many conservative Christians fear that the Left is dismantling traditional Christian America to replace it with an Islamized America a conspiratorial theory that has given rise to an evangelical persecution complex a politicized vulnerability Uddin reveals that Islamophobia and other aspects of the conservative Christian movement are interconnected Where does hate come from and how can it be conquered Only by addressing the underlying factors of this politics of vulnerability can we begin to heal the divide

Impossible Refuge Georgina Ramsay, 2017-10-16 *Impossible Refuge* brings the perspectives of refugees into rapidly emerging dialogues about contemporary situations of mass forced migration asking what does it mean to be displaced Based on multi-sited ethnographic research conducted with refugees from Central Africa living in situations of protracted asylum in Uganda and resettlement in Australia the book provides a unique comparative analysis of global humanitarian systems and the experiences of refugees whose lives are interwoven with them The book problematizes the solutions that are currently in place to resolve the displacement of refugees considering that since displacement cannot be reduced to a politico

legal problem but is an experience that resonates at an existential level it cannot be assumed that politico legal solutions to displacement automatically resolve what is fundamentally an existential state of being Impossible Refuge therefore offers a new theoretical foundation through which to think about the experiences of refugees as well as the systems in place to manage and resolve their displacement The book argues that the refuge provided to refugees through international humanitarian systems is conditional requiring that they conform to lifestyles that benefit the hegemonic future horizons of the societies that host and receive them Impossible Refuge calls for new ways of approaching displacement that go beyond the exceptionality of refugee experience to consider instead how the contestation and control of possible futures makes displacement a general condition of our time As such it will appeal to scholars across the social sciences with interests in migration and refugees humanitarianism and violence sovereignty and citizenship cosmology and temporality and African studies broadly

Women, Wars and Public Policies Ayanna Yonemura, 2025-03-31 Women Wars and Public Policies shatters the boundaries of conventional antiracism offering an examination of white supremacy's persistence through the lens of humanity's most pressing challenges The author tackles migration war national security terrorism nationalism and patriarchy exposing institutionalized oppressions across continents and centuries Defying identity politics this book demonstrates the pervasiveness of Western culture and the need to radically address dominant narratives The author presents three interrelated case studies They are Eleanor Roosevelt's advocacy for Japanese Americans and African Americans connections between Roosevelt's politics and those of U S President Donald Trump including how Trump weaponized masculinity laying the groundwork for decimating refugee and asylum policies and Germany's culture of remembrance and Chancellor Angela Merkel's approach to the so called migrant crisis Transcending racial national and disciplinary boundaries with an intersectional framework Women Wars and Public Policies exposes parallels between historical injustices and contemporary actions forcing a re examination of national narratives and institutionalized multiculturalism As migration debates and white supremacy continue to drive politics this work provides globally significant insights into gender and race demanding that we confront our shared histories and futures

The Immigration Crisis in Europe and the U.S.-Mexico Border in the New Era of Heightened Nativism Victoria Carty, 2020-11-24 In The Immigration Crisis in Europe and the U S Mexico Border in the New Era of Heightened Nativism Victoria Carty compares the immigration crises in the European Union and the United States Beginning in 2014 the Arab Spring upheavals and failed states in Northern Africa and the Middle East overwhelmed many European countries which the European Union system was not prepared for In the Americas failed states in Central America such as Honduras Guatemala and El Salvador also led to an unexpected influx of immigrants to the United States many of them unaccompanied minors fleeing gangs violence and poverty In The Immigration Crisis in Europe and the U S Mexico Border Carty studies theories of immigration social movements and critical race theory to provide a better understanding of the current immigration crises in Europe and the

United States Cart shows that the high volume of immigration in both the EU and the United States has led to a resurgence of nativist sentiments and white supremacy groups **White Supremacy and the American Media** Sarah D. Nilsen, Sarah E. Turner, 2021-11-29 This volume examines the ways in which the media including film television social media and gaming has constructed and sustained a narrative of white supremacy that has entered mainstream American discourse With chapters by today's preeminent critical race scholars the book looks in particular at the ways media institutions have circulated white supremacist ideology across a wide range of platforms and texts that have had significant impact on shaping our current polarized and racialized social and political landscape Systematically scrutinizing every media platform this volume provides readers with an understanding of the ways in which media has provided institutional support for white supremacist ideology and presents them with the means to examine and analyze the persistence of these narratives within our racial discourse thus offering the necessary knowledge to challenge and transform these racially divisive and destructive narratives **White Supremacy and the American Media** will be of interest not only to scholars working in critical race studies and popular culture in the United States but also to those working in the fields of Film and Television Studies Sociology Geography Art History Communication and Media Studies Cultural Studies American Studies Popular Culture and Media Studies
