The collapse of the Soviet Union in 1989 freed the world of the political and military perils and imperatives of the Cold War But it also introduced a whole new constellation of risks and challenges as Jonathan M House brings into sharp relief in *A Military History of the New World Disorder 1989 2022* the third and final volume in his comprehensive trilogy of military developments around the globe since the Second World War What followed the breaking of the Cold War s grip on global affairs was not so much a new world order as a new world disorder as the United States and its allies suddenly found themselves without the sort of coherent grand strategy previously deployed to contain the Soviet Union Focusing largely but not exclusively on the US House surveys subsequent developments in military strategy and operations the processes by which politicians and military leaders of the major powers designed organized resourced and then employed military forces to conduct or deter conflicts His overview ranges from conflicts in Iraq and Afghanistan to American interventions in Panama Somalia former Yugoslavia and Haiti Israel vs Hezbollah in Lebanon and the resurgence of the Russian military in Syria Georgia and Ukraine Throughout House provides a compelling analysis of recent military developments including the strengths and weaknesses of employing precision guided munitions counter insurgency techniques and other controversial methods of current warfare His work reveals the complex relationship between national political decisions to commit armed forces to conflicts and the results on the battlefield and offers a timely perspective on military power and practice in the current day
