in Stone (Treasures of the Earth Book #2) Kimberley Woodhouse,2024-03-12 A dangerous scheme could bury their long held dreams forever From the time she was little Martha Jankowski has been digging in the dirt much to the dismay of her mother Now she dreams of being a paleontologist and is determined to make her parents proud by uncovering the next big discovery When Martha finds what she hopes to be a fully intact dinosaur skeleton one that could win her an acclaimed exhibit she learns another team is competing against her and could steal her chance at being recognized for this momentous discovery Paleontology student Jacob Duncan has fulfilled his dream of digging for dinosaur bones at last In a race against time he and his team are bent on unearthing a complete skeleton to claim a museum exhibit with their names on it But when Jacob meets their charming competitor Martha and uncovers foul play within his team love and danger grow hand in hand until a menacing ruse threatens to destroy it all *Treasures of the Earth* Saleem H. Ali,2009-01-01 Would the world be a better place if human societies were somehow able to curb their desires for material goods Saleem Ali s pioneering book

links human wants and needs by providing a natural history of consumption and materialism with scientific detail and humanistic nuance It argues that simply disavowing consumption of materials is not likely to help in planning for a resource scarce future given global inequality development imperatives and our goals for a democratic global society Rather than suppress the creativity and desire to discover that is often embedded in the exploration and production of material goods which he calls the treasure impulse Ali proposes a new environmental paradigm one that accepts our need to consume treasure for cultural and developmental reasons but warns of our concomitant need to conserve In evaluating the impact of treasure consumption on resource rich countries he argues that there is a way to consume responsibly and alleviate global poverty

Jones & Baker, Firm, Brokers,1919 **The Public Archaeology of Treasure** Howard Williams,Samuel Clague,Peter Reavill,2022-09-01 Select proceedings of the 5th University of Chester Archaeology Student Conference 31 January 2020 reflect on the shifting and conflicting meanings values and significances for treasure in archaeology s public engagements interactions and manifestations **The Secret of the Earth** Charles Willing Beale,2024-11-23 When Dirk Waaijen master of the Voorne was five days out from the island of Celebes a strange thing happened For nearly a week the Dutchman had idled along with a cargo of cocoa jaggaree trepang some Manado coffee a few bags of nutmegs and other products of the Archipelago but without an incident worth logging when suddenly an odd looking cask with mast and streamer was seen floating in the waters ahead and all hands became alive with excitement A couple of burly fellows hauled the barrel upon the deck with the expectation of a prize but were discomfited on finding that it contained only some cotton cloth carefully wrapped about a dirty water stained document written in a language which no one could understand Even Captain Waaijen himself was unable to read a word of it despite his wise look and the volumes of smoke which he blew from time to time over the packet Had he confided in me his only English speaking passenger I might at least have made him comprehend the importance of the paper even if unable to render a literal translation but the captain was surly and took the bundle to his room It is even possible that he was ignorant of the fact that it was written in the English language However this may have been I was surprised on reaching Gravenhage the end of our voyage to have the paper thrust into my hands by Waaijen himself and without a word of explanation Believing it to be merely the record of some unfortunate craft foundered in the South Sea I laid the packet aside not even unrolling it for weeks When I did so I was amazed at the contents and immediately sought the master of the Voorne but he had left upon another of those endless voyages the length of which even the company was unable to decide Assured that no claim will ever be made upon the document and overwhelmed with the profundity of its contents I offer it to the public convinced that in the history of our planet there is nothing half so astounding as the revelation it contains It is to be regretted that the paper cannot be given in its entirety the omissions indicated by asterisks being the result of damage caused by salt water to the MS which has made it undecipherable in those places the total thus lost amounting to more than a hundred pages The following is an exact
