The Northern Girl:

The Northern Girl Elizabeth A. Lynn, 2014-04-01 The visions begin when Sorren is only 13 Too numb to be frightened Sorren eventually learns that this gift to travel places in her mind is called Far travelling and she is marked as a member of the White Clan of Arun But this honor of being a witch frightens Sorren and she does not want to come within the Tanjo and serve So instead Sorren is determined to keep this gift a secret for as long as she can whatever the cost may be **Sport in Korea** Dae Hee Kwak, Yong Jae Ko, Inkyu Kang, Mark Rosentraub, 2017-07-28 Korea has become a powerful force in global sport with South Korea finishing fifth in the medals table at London 2012 and hosting the Winter Olympics in 2018 This book brings together scholars from disciplines including sport history sociology journalism economics sport development and sport management to explore the significance of sport in contemporary Korea Presenting a variety of international perspectives it plots the dynamic evolution of sport in Korea and envisions the possibilities for its future Each chapter focuses on a key topic of current relevance such as sport in the context of shifting relations between North and South Korea or the role of sport in the expression of Korean nationalism Arguing that individuals institutions businesses and governments have actively leveraged or exploited sport to influence developments in various social economic cultural and political arenas this book sheds new light on the importance of sport as a catalyst for change in Korea This is indispensable reading for any student or scholar with an interest in sport history and culture in Korea Indian Legends from the Northern Rockies Ella Elizabeth Clark, 1966 Myths personal narratives and historical traditions reveal beliefs and customs of twelve Indian tribes who once lived in the states of Idaho Montana and Wyoming **Subaltern China** Wanning Sun, 2014-09-11 Behind China's growing economic and political power is a vast underworld of marginalized social groups In this powerful and timely book Wanning Sun focuses on the country's hundreds of millions of rural migrant workers who embody China's most intractable problems of inequality Drawing on rich and extensive fieldwork the author argues that despite the critical role their labor has played in enabling and sustaining the country's remarkable economic growth workers and peasants have become the nation's subalterns Sun focuses especially on the role of media and culture in negotiating the unequal relationships that exist between various social groups She shows that in the face of the harsh reality of injustice and discrimination China's rural migrants engage in media and cultural practices that are at once both mundane and profound invariably imbued with hope and dignity and motivated by the dream of a better life Exploring the cultural politics of inequality in post Mao China this engaging and compelling book will be essential reading for all concerned with the increasing centrality of media and the cultural politics of representation in our highly digitalized and mediated world **The Northern Paiute Indians of California and Nevada** Ruth Underhill, 1954 **The emergence of American English as a discursive variety** Ingrid Paulsen, 2022 Do speakers identity constructions influence the emergence of new varieties of a language This question is at the heart of a debate about how the process of the emergence of postcolonial varieties of English can best be modeled This volume contributes to the

debate by linking it to models and theories proposed by anthropological linguists sociolinguists and discourse linguists who view identity as a social and cultural phenomenon that is produced through linguistic and other social practices Language is seen as essential for identity constructions because speakers use linguistic forms that index social personae as well as specific social practices and values to convey an image of self to other speakers Based on the theory of enregisterment that models the cultural and discursive process of the creation of indexical links between linguistic forms and social values the argument is made that any model of the emergence of new varieties needs to differentiate carefully between a structural level and a discursive level What emerges on the discursive level as a result of processes of enregisterment is a discursive variety The volume illustrates how the emergence of a discursive variety can be systematically studied in a historical context by focusing on the enregisterment of American English as it can be observed in nineteenth century U S newspapers Using a discourse linguistic methodological framework and two large databases containing close to 78 million newspaper articles the study reveals a complex pattern of indexical links between the phonological forms h dropping and insertion yod dropping a lengthened and backened bath vowel non rhoticity a realization of prevocalic r as a labiodental approximant as well as the lexical items baggage and pants on the one hand and social values centering around nationality authenticity and non specificity on the other hand Qualitative analyses uncover the social personae associated with the linguistic forms e g the American cowboy the African American mammy and the Anglo maniac American dude while quantitative analyses trace the development over time and show that the enregisterment processes were widespread and not restricted to a particular region

Girls, Power and International Development Rosie Walters, 2025-05-28 The United Nations Foundation's Girl Up campaign has been critiqued for depoliticising global and gender inequalities portraying girls from the Global South as responsible for lifting entire communities out of poverty and encouraging girls in the Global North to see themselves as the saviours of their Southern counterparts Drawing on focus groups with Girl Up members from the UK US and Malawi this book demonstrates how girls reflect critically on the Girl Up discourse reject its individualistic vision of girls empowerment and interact with their Northern Southern counterparts in a spirit of mutual learning and respect Its analysis demonstrates how the girls use participation in the campaign to develop their own more complex radical and collective visions of girls empowerment
