The Nurturing Family Backto basics Parenting:

The Nurturing Family Gary A. Crow, 1980 **The Single Parent**, 1983 **The Publishers Weekly**, 1980 Child Nurturing in the 1980s Robert Boger, 2013-11-11 Child Nurturing in the 1980s follows upon a series of lectures presented at Michigan State University in conjunction with the university's celebration of the International Year of the Child. The chapters although far from an inclusive set outline childrearing perspectives, issues and concerns relevant to the 80s and beyond. The authors have used different styles ranging from empirical review to essay. The book is designed to provide those concerned with the nurturing of children in the United States with perceptions of what is and what could be. The initial chapter by Edward Zigler sets the stage for comments related to specific areas and modalities of child nurturing concerns for the decade. Some of the chapter authors are more futuristic than others in their perspective but all have focused upon issues judged to be focal for those concerned with the nurturing of children in this culture during this period of our history. The book is not addressed specifically to those who would set policy or those who would implement it. Rather it is hoped that it can be read with benefit by a wide range of individuals including but not limited to parents, faculty members, child care workers and child agency personnel. The editors wish to extend our appreciation to many individuals who made this effort possible. Funding of the IYC program was provided through the International Year of the Child Committee under the most able leadership of Andrew D. Hunt, M.D. **Bulletin of the Menninger Clinic** Menninger Clinic, 1981 **Every Parent's Dilemma** Don Berg, 2015-02-13 Fact: The required foundation for effective and efficient learning is well-being. Good News: Children's psychological well-being is supported in K-12 schools that facilitate self-directed learning. Bad News: The psychological well-being of children in mainstream K-12 schools is consistently diminished. Silver Lining: This good news can transform the bad news. Why do K-12 schools that facilitate self-directed learning serve less than 5% of all students in the USA despite over 100 years of good results? The systematic growth of school models that support self-directed learning has been stunted by hidden barriers. The hidden barriers also prevent more mainstream schools from sustainably adapting their practices to become more nurturing. The barriers are based on a theory of education that is wrong. K-12 policy makers at every level can remove those barriers by making an explicit commitment to ensuring that the schools they oversee support well-being. This book includes the Resolution to Build on Well-Being to Achieve K-12 Equity which you can take to your favorite policy makers to advocate for the well-being of all students. **Worlds of Girls in Trouble** Laurie Schaffner, 2000 *What is a Parent* Andrew Bainham, Shelley Day Sclater, Martin Richards, 1999-07-01 This collection of essays is the product of a series of seminars held at the University of Cambridge in 1998 under the auspices of the newly formed Cambridge Socio-Legal Group. The book presents an interdisciplinary exploration of the nature of parenthood and its various manifestations in contemporary society. It is divided into three sections dealing respectively with defining parenthood, new issues in contemporary parenting and parenting post-divorce. Each contributor addresses the central question: What is a Parent from

the perspective of his or her own discipline thus bringing together ideas about parents derived from law sociology psychology biology and criminology Despite the familiar and apparently obvious answer to this question the notion of parent emerges from the analysis as a contested concept Definitions are various and fluid parenting practices are by no means fixed and ideologies which frame who parents are and what they do are subject to disruptions from several quarters In short the essays in this book show the ways in which parent like child is a term with a shifting meaning and parenthood refers to a fluid set of social practices which are historically and culturally situated Contributors Andrew Bainham Carol Brayne Stuart Bridge Rachel Cook Shelley Day Sclater Margaret Ely Loraine Gelsthorpe Susan Golombok Jack Goody Jonathan Herring Felicia Huppert Allison James Martin Johnson Bridget Lindley Mavis Maclean Juliet Mitchell Ros Pickford Martin Richards Wendy Solomou Candida Yates

Pro-Family Politics and Fringe Parties in Canada Chris MacKenzie, 2014-05-14 Pro Family Politics and Fringe Parties in Canada explores the organizational and ideological nature of political parties that are initially formed to do the work of social movements Specifically it examines the development of the Family Coalition Party of British Columbia FCP from its origins as a group of alienated Social Credit Party members to its rebirth as the Unity Party of British Columbia and through its struggles as a marginal political entity along the way While addressing the FCP's relationship to the larger North American pro family movement Chris MacKenzie also deftly demonstrates how the party can be seen as organizationally congruent with its ideological antithesis the Green Party Basing his findings on seven years of field research he identifies the obstacles that political parties involved in social movement work must overcome in order for them to achieve their goals He concludes that despite their invaluable contribution to democracy such party movements have limited political institutionalization Consequently their only realistic goal may be to merge their ideals with those of another larger political body This book makes a substantial contribution to our understanding of the genesis development and impact of political party movements in Canada Moreover it provides useful insight into the dynamics and issues that make up the current pro family movements in Canada and the United States
