Hardy, Lawrence Hazelrigg, Jill Quadagno,2007-08-29 During the 1980s the news media were filled with reports of soaring unemployment as downsizing and restructuring became the new buzzwords Firms managed their workforce reduction by increasing the attractiveness of their pension plans especially their early retirement plans In this volume the authors examine the U S auto industry and present a full scale analysis of the work and retirement decisions of its workers They address organizational context and the logic of financial incentives in employer provided early retirement plans The impact of pension provisions layoffs plant closures attitudes about generational equity and other factors influencing the
