structure the human biofield in action He explores group energetics and team chemistry revealing how group situations a concert a meditation retreat a sporting event create their own energetic power He shows how Stonehenge and other megaliths were built in alignment with Earth s own energy meridians and he proposes that the mysterious phenomenon of crop circles may be emerging in harmony with Earth s subtle energies Blending hard science with ancient healing wisdom the author reveals how we can all thrive together by remembering our shared energetic roots and our undeniable interconnectedness through the global web of life energy and consciousness itself
