The Head-injured College Student Cooper B. Holmes, 1988 The TBI Annual Research Index Arokiasamy, 1990-01-01 With survival rates increasing for persons sustaining head injuries and the number of TBI programs exceeding 1000 nationwide the need for access to information is more important than ever This publication presents a compendium of bibliographic information available worldwide on head injury through 1990 The TBI Annual Research Index is divided into three major sections Post Acute Acute and Books Bibliographies Presents in 33 chapters information is compiled from worldwide sources e g print computerized data bases and publishers and more than 1 500 entries on traumatic brain injury are included Neurology and Trauma Randolph W. Evans M.D., 2006-03-16 Disorders due to trauma to the head spine and peripheral nerves are among the most common seen by neurologists and neurosurgeons This 42 chapter book is the comprehensive definitive work on the subject offering coverage on a wide range of clinical issues The second edition features completely new sections on sports and neurologic trauma and iatrogenic trauma to complement existing comprehensive sections on head trauma spinal trauma plexus and peripheral nerve injuries post traumatic pain syndromes environmental trauma and posttraumatic sequelae and medicolegal aspects Twenty two of the first edition s chapters have been revised and updated eight with new coauthors and 20 new chapters have been added Cumulated Index Medicus , 1989 **Resources in Education** , 1999-10 Comprehensive Evaluations Nancy Mather, Lynne E. Jaffe, 2010-11-11 An invaluable collection of sample case reports from experts in child and adolescent assessment With contributions from authorities in the fields of psychology and special education including Dawn Flanagan Elaine Fletcher Janzen Randy Kamphaus Nadeen Kaufman George McCloskey Jack Naglieri Cecil Reynolds and Gale Roid Comprehensive Evaluations provides over fifty sample case reports to help you draft carefully planned goal directed and comprehensive evaluations that clearly explain the reasons for a student s school related difficulties from preschool to postsecondary level A wellspring of information for educational professionals Comprehensive Evaluations provides models for writing diagnostic reports to accompany the tests most frequently administered in the evaluation of children adolescents and adults including the BASC 2 KABC II WAIS IV WISC IV and WJ III The reports reflect various disciplines within psychology and education different theoretical perspectives and paradigms and span a broad spectrum of disabilities The diagnostic reports found within Comprehensive Evaluations will help Expand your familiarity with widely used test instruments Enhance your understanding of the interpretation of test scores Improve your ability to tailor written reports to the purposes of the evaluation Translate assessment results into meaningful treatment recommendations Recognize the differences in what evaluators from various school districts agencies and private practices consider to be a comprehensive evaluation Appreciate how your theoretical perspective and choice of tests can influence diagnostic conclusions Determine a report writing style that meets your needs Comprehensive Evaluations deftly illustrates how thorough assessments help empirically pinpoint the reasons a student is

struggling in school which then allows an evaluator to select the most appropriate accommodations and interventions to help the student succeed

Cognitive and Neuropsychological Approaches to Mental Imagery M. Denis, Johannes Engelkamp, John T.E. Richardson, 2012-12-06 The locus of concreteness effects in memory for verbal materials has been described here in terms of the processing of shared and distinctive information This theoretical view is consistent with a variety of findings previously taken as support for dual coding insofar as both verbal and perceptual information may be involved in comprehending high imagery sentences and in learning lists of concrete words But going beyond previous accounts of imagery this view also can provide explanations for several findings that appear contradictory to the thesis that concrete and abstract materials differ in the form of their storage in long term memory Although this does not rule out a role for imagery in list learning or text comprehension it is clear that the complex processes involved in comprehension and memory for language go beyond mechanisms supplied by a theory based on the availability of modality specific mental representations The task now is to determine the viability of the theory in other domains Several domains of imagery research presented at EWIC provided fertile ground for evaluating my theoretical viewpoint Although not all provide a basis for distinguishing representational theories of imagery from the imagery as process view there are data in several areas that are more consistent with the latter than the former In other cases there are at least potential sources of evidence that would allow such a distinction
