The Healer ,2007 *The Healer* ,1996 Chronicles the awe inspiring Christian healing work of the greatest spiritual healer since Christ Jesus From first hand accounts feel the inspiration she received the love she expressed and the joy experienced by those who were healed by her through prayer alone **Mary Baker Eddy** Yvonne Caché Von

Fettweis,Robert Townsend Warneck,1998 **The Philosophical Foundations of Christian Science** Nicholas Sheldon,2025-04-24 Mary Baker Eddy 1821 1910 is best known for founding the religion of Christian Science an international institution which has extended beyond her lifetime and into the twenty first century Often labelled as fringe theology rather than core philosophy Eddy s work has remained on the peripheries of academia Her unmitigated idealism and occasionally nebulous style have led to a reluctance to apply a philosophical rigour to her thinking In *The Philosophical Foundations of Christian Science* Nicholas Sheldon rediscovers her as a radical philosopher one of many female philosophers of her time who he contends should no longer be underestimated Carefully analysing her non linear style in order to understand her internal system of thought Sheldon resolves flaws within her argument and draws out Christian Science s remarkable philosophical assertion that it is not only illness and suffering which are unreal but the entire physical realm For Eddy it is only the spiritual which remains

Rudimental Divine Science Mary Baker Eddy,2022-09-16 In *Rudimental Divine Science* Mary Baker Eddy presents a profound exploration of metaphysical principles and spiritual healing framed within the context of her groundbreaking Christian Science movement Written in a concise and accessible style the book articulates the foundational aspects of her theology emphasizing the relationship between the divine the spiritual and the material world Eddy employs a rational and systematic approach intertwining scripture with her insights to elucidate the power of thought and the importance of spiritual understanding in human healing thus positioning the work as a crucial text in 19th century religious literature As the founder of Christian Science Mary Baker Eddy was deeply influenced by her own experiences with pain and recovery through spiritual means ultimately culminating in the establishment of her faith Her extensive background in metaphysical inquiry and early religious influences shaped her perspective enabling her to challenge conventional views on illness and wellness *Rudimental Divine Science* serves as both a personal manifesto and a universal guide to achieving practical spirituality This book is highly recommended for readers interested in spirituality theology and alternative healing practices Its insights into the connection between faith and wellness offer valuable perspectives for anyone seeking holistic approaches to health and a deeper understanding of the divine Eddy s work continues to resonate inviting contemporary audiences to explore its rich spiritual dimensions

Selected Works of Mary Baker Eddy Mary Baker Eddy,2020-09-28 To day being with you in spirit what need that I should be present in propria persona Were I present methinks I should be much like the Queen of Sheba when she saw the house Solomon had erected In the expressive language of Holy Writ There was no more spirit in her and she said Behold the half was not told me thy

wisdom and prosperity exceedeth the fame which I heard Both without and within the spirit of beauty dominates The Mother Church from its mosaic flooring to the soft shimmer of its starlit dome Nevertheless there is a thought higher and deeper than the edifice Material light and shade are temporal not eternal Turning the attention from sublunary views however enchanting think for a moment with me of the house wherewith they shall be abundantly satisfied even the house not made with hands eternal in the heavens With the mind s eye glance at the direful scenes of the war between China and Japan Imagine yourselves in a poorly barricaded fort fiercely besieged by the enemy Would you rush forth single handed to combat the foe Nay would you not rather strengthen your citadel by every means in your power and remain within the walls for its defense Likewise should we do as metaphysicians and Christian Scientists The real house in which we live and move and have our being is Spirit God the eternal harmony of infinite Soul The enemy we confront would overthrow this sublime fortress and it behooves us to defend our heritage How can we do this Christianly scientific work By intrenching ourselves in the knowledge that our true temple is no human fabrication but the superstructure of Truth reared on the foundation of Love and pinnacled in Life Such being its nature how can our godly temple possibly be demolished or even disturbed Can eternity end Can Life die Can Truth be uncertain Can Love be less than boundless Referring to this temple our Master said Destroy this temple and in three days I will raise it up He also said The kingdom of God is within you Know then that you possess sovereign power to think and act rightly and that nothing can dispossess you of this heritage and trespass on Love If you maintain this position who or what can cause you to sin or suffer Our surety is in our confidence that we are indeed dwellers in Truth and Love man s eternal mansion Such a heavenly assurance ends all warfare and bids tumult cease for the good fight we have waged is over and divine Love gives us the true sense of victory They shall be abundantly satisfied with the fatness of Thy house and Thou shalt make them drink of the river of Thy pleasures No longer are we of the church militant but of the church triumphant and with Job of old we exclaim Yet in my flesh shall I see God The river of His pleasures is a tributary of divine Love whose living waters have their source in God and flow into everlasting Life We drink of this river when all human desires are quenched satisfied with what is pleasing to the divine Mind Perchance some one of you may say The evidence of spiritual verity in me is so small that I am afraid I feel so far from victory over the flesh that to reach out for a present realization of my hope savors of temerity Because of my own unfitness for such a spiritual animus my strength is naught and my faith fails O thou weak and infirm of purpose Jesus said Be not afraid What if the little rain should say So small a drop as I Can ne er refresh a drooping earth I ll tarry in the sky Is not a man metaphysically and mathematically number one a unit and therefore whole number governed and protected by his divine Principle God You have simply to preserve a scientific positive sense of unity with your divine source and daily demonstrate this Then you will find that one is as important a factor as duodecillions in being and doing right and thus demonstrating deific Principle A dewdrop reflects the sun Each of Christ s little ones reflects the infinite One and therefore is the seer s declaration true that one on God s side is a

majority **Physics, Metaphysics, and God - Third Edition** Jack W. Geis,2010-07-15 At long last a promising dialogue between science and medicine has begun A focal point of this discussion is healing and how it happens Jack W Geis shows how modern physics and spirituality are centrally involved in this debate No one who is interested in the current interface between science spirituality and medicine can afford to neglect his ideas Larry Dossey MD Author *Healing Beyond the Body and Healing Words The Power of Prayer and the Practice of Medicine* This book introduces some of the most perplexing and exciting aspects of the revolution going on in physics today as it continues toward an increasingly metaphysical basis for defining reality This exciting scientific revolution should be shared by everyone and the issues taken up in this book form a basis for that participation That the math is not in the chalk is becoming increasingly evident as well as the question as to which is more substantial Dr Laurance R Doyle Astrophysics and Planetary Science Center for the Study of Life in the Universe SETI Institute **The Christian Science Monitor** Linda K. Fuller,2011-09-12 This text provides a unique examination of The Christian Science Monitor a highly respected venerable news publication that has survived over a century of changes and challenges The Christian Science Monitor is one of the world s leading journalistic publications having won multiple Pulitzer prizes for its reporting CSM is innovative and forward thinking as well it was one of the first newspapers to provide an online copy of its daily reporting in 1996 well before the popularization of the Internet But just like other publications The Christian Science Monitor will need to continue to reinvent itself in order to stay relevant and solvent in the face of plummeting readership numbers corporate takeovers and a widespread assumption that all of today s news sources are biased and inaccurate This book provides a thorough discussion of CSM s treatment of sensitive topics like terrorism international crises gender issues and sexual orientation The paper s attitudes toward ethnicity ethics economics philosophy and racism are also profiled The conclusion provides readers with an opportunity to draw upon their new knowledge of The Christian Science Monitor s past to project its direction for the future *The Christian Science Journal* ,1926 *The Life of Mary Baker Eddy* Sibyl Wilbur,1929 **“And O’er Earth’s Troubled, Angry Sea”: The History of Christian Science in the United States** Rolf Swensen,2025-05-21 Christian Science is one of the most unique and controversial of American religions but there has never been a history of this influential metaphysical group best known for its healing through prayer Most attention has previously focused on the church s founder Mary Baker Eddy 1821 1910 This compilation of nine previously published scholarly articles buttressed by additional insight presented in the preface introduction and conclusion should lead to further investigation of this compelling topic This volume investigates the origins of the Christian Science movement illustrates how Eddy s students mainly women helped its rapid spread through healings how Eddy guided and restrained her students examines some denominational growing pains underscores how The Mother Church in Boston and Eddy s Church Manual evolved recounts dozens of testimonies of healing and shows how local or branch churches operated before and after Eddy s passing Contrary to previous assumptions the new Christian religion was surprisingly diverse with

almost one half of the membership coming from the lower middle and working classes This vibrant church ultimately declined due to excessive centralization and insufficient utilization of the membership plus lack of social activities and the rise of medical science Recent efforts to revitalize the movement through embracing communities are continuing And Over Earth's Troubled Angry Sea The History of Christian Science in the United States will appeal to Christian Scientists kindred spirits in the metaphysical world anyone interested in religion and those who read social history Each chapter is suitable for group discussions and for undergraduate or graduate classes
