School of Slavonic and East European Studies, 1965      **The Dance of Rituals** Lily Cooper, 2024-10-22 The Dance of Rituals Buddhism and the Connection with the Divine Buddhist Rituals is a mysterious invitation to explore the secrets of the spirit It is not merely about repeated gestures or ancient traditions but about secret doors that once opened reveal a dimension where the sacred and the everyday dance in eternal communion Each ritual described is not just an act but a path to awakening what is most authentic and dormant in the human soul As you delve into the practices unveiled here you are not just reading about Buddhism you are called to feel the echo of ancient chants to visualize offerings dissipating as symbols of detachment and to touch the invisible that inhabits each breath The descriptions evoke rituals where the toll of a bell can resonate through time and the aroma of incense not only perfumes the air but transforms the surrounding energy dissolving the veil between the material and the immaterial The Theravada Mahayana and Vajrayana traditions emerge from the pages like trails winding up the mountain of the spirit each offering unique ways to reach the essential and the eternal The practice is presented not as an end in itself but as a map of forgotten paths leading

the practitioner to break free from illusions and glimpse the essence of all things In this work rituals are instruments to transcend the ordinary capable of awakening an ancient echo in the reader's heart reminding them that the search for meaning is not distant but latent in the present moment Buddhist Rituals is not just a book it is a key for those who dare to explore the unknown and align themselves with the mysteries that permeate life

**The Palgrave Handbook of Anthropological Ritual Studies** Pamela J. Stewart, Andrew J. Strathern, 2021-08-24 Ritual Studies have achieved prominence since the 1980s when interest in ritual as an object of inquiry was established bridging over a number of humanities and social science disciplines Both connected with religious studies and independent of it overlapping with social and cultural anthropology but also with history related to science and health practices and ranging across the life course to education Ritual Studies has come to encompass studies of change and dynamism in social life Rituals are determinate in form but not static They enunciate distinctive social values within specific contexts that frame them and they relate to the wider concerns and issues of their practitioners Due to this broad and wide ranging scope it is often difficult to find a single resource on Ritual Studies and even more so to find one which moves beyond the beginnings of anthropological theorizing to grapple with the present day contexts of ritual Bringing together recent ethnographies of ritual practice and ritualization from across the globe this Handbook provides case study of ritual in the light of Emotion and Cognition Identity Religious Power Performance and Literature Ecology and Ecological Disaster Media and other topics While each chapter provides a deep ethnography of a specific society ritual or ritualized practice each also engages with current theoretical and substantive approaches to the relevant topic The scholars collected here provide original synoptic and indicative pieces as guideposts and pathways through the complex varied and cross disciplinary and vast landscape of scholarship that constitutes Ritual Studies today and points to developments in the future

**Art, Religion, and Politics in Medieval China** Qiang Ning, 2004-01-01 The cave temple complex popularly known as the Dunhuang caves is the world's largest extant repository of Tang Buddhist art Among the best preserved of the Dunhuang caves is the Zhai Family Cave built in 642 It is this remarkable cave temple that forms the focus of Ning Qiang's cross disciplinary exploration of the interrelationship of art religion and politics during the Tang In his careful examination of the paintings and sculptures found there the author combines the historical study of pictures with the pictorial study of history By employing this two fold approach he is able to refer to textual evidence in interpreting the formal features of the cave temple paintings and to employ visual details to fill in the historical gaps inevitably left by text oriented scholars The result is a comprehensive analysis of the visual culture of the period and a vivid description of social life in medieval China and remained hidden until the early 1940s Once exposed the early artwork appeared fresh and colorful in comparison with other Tang paintings at Dunhuang The relatively fine condition

of the Zhai Family Cave is crucial to our understanding of the original pictorial program found there and offers a unique opportunity to investigate the visual details of the original paintings and sculptures in the cave At the same time the remaining traces of reconstruction and redecoration provide a new perspective on how for over three centuries a wealthy Chinese clan used its familial cave as a political showcase Art Religion and Politics in Medieval China The Dunhuang Cave of the Zhai Family is an in depth study on the meaning and function of an exemplary Tang memorial cave and an important contribution to studies of Chinese religion politics sociology literature and folklore as well as to Chinese art history
