The Herald Of Coming Good First Appeal To Contemporary Humanity:

The Herald of Coming Good George Ivanovich Gurdjieff, 2020-09-28 A highly original and to me even troublingly strange coincidence of several very denned and entirely different factors arising out of my activity and having bearing upon today not only compels but also inspires me to mark this day by a refusal to bide a more convenient time and by an intention to begin on this very day an exposition of the first of the seven appeals which among others I decided to address during my period of activity as a writer to the whole of contemporary humanity I shall begin by explaining the particular nature of this strange coincidence First of all expounding as I have done night and day for almost ten years all kinds of fragments of the general mass of information intended by me for publication I have as it happens finished only this day a preliminary compilation of the material designed for this purpose Secondly engaged as I have been in the course of the last three years in the completion parallel to this of the first series of writings intended to head the list of my publications I have also finally completed this work on precisely this day Thirdly and finally today is the last day of the term I had assigned to myself twenty one years ago of the term during which I had according to the special oath I took bound myself in my conscience to lead in some ways an artificial life modelled upon a programme which had been previously planned in accordance with certain definite principles Before venturing to unfold the very substance of my first appeal to contemporary humanity I count it essential and even in every way my duty to set forth even if only approximately the motives which compelled me to assume the whole burden of such an artificial life This protracted and for me absolutely unnatural life Absolutely irreconcilable too in every way with the traits that had entrenched themselves in my individuality by the time of my maturity was the direct consequence of my decision founded upon the results of my previous study of a whole series of historic precedents with a view first of all to preventing by to a certain degree unnatural outward manifestations of myself the formation in relation to me of that already noted from ancient times something termed by the great Solomon King of Juda Tzvarnoharno which as was set out by our ancestors forms itself by a natural process in the communal life of people as an outcome of a conjunction of the evil actions of so called common people and leads to the destruction of both him that tries to achieve something for general human welfare and of all that he has already accomplished to this end Secondly with a view to counteracting the manifestation in people with whom I came in contact of that inherent trait which embedded as it is in the psyche of people and acting as an impediment to the realization of my aims evokes from them when confronted with other more or less prominent people the functioning of the feeling of enslavement paralysing once and for all their capacity for displaying the personal initiative of which I then stood in particular need My aim at that time was concentrated upon the creation of conditions permitting the comprehensive elucidation of one complicated and with difficulty explicable aspect of the question which had already long before the beginning of this my artificial life inhered in my being and the necessity of whose final solution has whether by the will of fate or thanks to the inscrutable laws of heredity become and would at the moment appear

to be the fundamental aim of my whole life and of the force motivating my activity I find myself obliged in this so to say definitive statement as a writer which will also have to serve among other things as a sort of prospectus of the new phase of my unremitting activity for the welfare of my neighbours to give a brief outline of the history of the rise and development of those events and causes which were responsible for the formation in my individuality of the unquenchable striving to solve this question which had in the end become for me what modern psychologists might term an irresistible Mania This mania began to impose itself upon my being at the time of my youth when I was on the point of attaining responsible age and consisted in what I would now term an irrepressible striving to understand clearly the precise significance in general of the life process on earth of all the outward forms of breathing creatures and in particular of the aim of human life in the light of this interpretation Although a multitude of very specific factors conditioned by my upbringing and education had served as the primal cause for the formation in my being of the ground giving rise to such for contemporary man unusual striving yet as I understood later upon giving thought to the matter the principal cause must in the end be attributed to those entirely accidental circumstances of my life which coincided precisely with the aforesaid transition from preparatory age to responsible age and which may all be summed up in the fact that all my contacts at the time were almost exclusively with such persons of my age or my seniors who were either in the process of being formed themselves or who had already been formed into precisely that of late increased amongst us psychic typicality of people the formation of which as I myself have statistically established during the existence of my foundation The Institute For Man s Harmonious Development is due to the fact that the future representatives of this typicality have never either with a view to the real understanding of actuality or in the period of their preparatory age or again in the period of their responsible life absolutely never and in spite of the obvious necessity of such a step laid themselves open to experience but have contented themselves with other people s fantasies forming from them illusory conceptions and at the same time limiting themselves to intercourse with those like them and have automatised themselves to a point of engaging upon authoritative discussions of all kinds of seemingly scientific but for the most part abstract themes

Gurdjieff Reconsidered Roger Lipsey,2019-02-05 From a master biographer and longtime Gurdjieff practitioner a brilliant new exploration of the quintessential Western esoteric teacher of the twentieth century The Greek Armenian teacher

G I Gurdjieff was one of the most original and provocative spiritual teachers in the twentieth century West Whereas much work on Gurdjieff has been either fawning or blindly critical acclaimed scholar and writer Roger Lipsey balances sympathetic interest in Gurdjieff and his Fourth Way teachings with a historian's sense of context and a biographer's feel for personality and relationships Using a wide range of published and unpublished sources Lipsey explores Gurdjieff's formative travels in Central Asia his famed teaching institution in France the development of the Gurdjieff Movements and music and above all Gurdjieff's fascinating continuous evolution as a teacher Published on the 70th anniversary of Gurdjieff's death Gurdjieff Reconsidered delves deeply into Gurdjieff's writings and those of his most important students including P D Ouspensky and Jeanne de Salzmann Lipsey's comprehensive approach and unerring sense of the subject make this a must read for anyone with a serious intention to explore Gurdjieff's life teachings and reputation Gurdjieff and Hypnosis Mohammad Tamdgidi, 2009-11-23 This book explores the life and ideas of the enigmatic twentieth century philosopher mystic and teacher of esoteric dances George Ivanovitch Gurdjieff performing a hermeneutic textual analysis of all his writings to illuminate the place of hypnosis in his teaching Foreword by J Walter Driscoll **God Is My Adventure - A Book on Modern Mystics, Masters, and Teachers** Rom Landau, 2011-03-23 Since I was a boy I have always been attracted by those regions of truth that the official religions and sciences are shy of exploring The men who claim to have penetrated them have always had for me the same fascination that famous artists explorers or statesmen have for others and such men are the subject of this book Some of them come from the East some from Europe and America some give us a glimpse of truth by the mere flicker of an eyelid while others speak of heaven and hell with the precision of mathematicians I have met them all and some I have watched in their daily lives For years now I have sought their company questioned them and watched them closely at work I have tried to dissociate the personality from the teaching and then to reconcile the two I have included some of those whom now I cannot view without mistrust Since thousands of other people believe in them they are at any rate most interesting figures in contemporary spiritual life however little of ultimate value their teaching may possess There are people who know the heroes of this book more intimately than I but my aim has never been to identify myself with any one teacher On the contrary I have always been anxious to discover for myself through what powers they have influenced so many people This attitude will warn the reader not to expect an impersonal survey of contemporary spiritual doctrines I have limited myself to writing of those men with whom I have been in personal contact I approach them not as the scholar but as the ordinary man who tries to find God in daily life **Western Sufism** Mark Sedgwick, 2016-10-18 Western Sufism is sometimes dismissed as a relatively recent new age phenomenon but in this book Mark Sedgwick argues that it has deep roots both in the Muslim world and in the West In fact although the first significant Western Sufi organization was not established until 1915 the first Western discussion of Sufism was printed in 1480 and Western interest in Sufi thought goes back to the thirteenth century Sedgwick starts with the earliest origins of Western Sufism in late antique Neoplatonism and early Arab philosophy and

traces later origins in repeated intercultural transfers from the Muslim world to the West in the thought of the European Renaissance and Enlightenment and in the intellectual and religious ferment of the nineteenth century He then follows the development of organized Sufism in the West from 1915 until 1968 the year in which the first Western Sufi order based on purely Islamic models was founded Western Sufism shows the influence of these origins of thought both familiar and less familiar Neoplatonic emanationism perennialism pantheism universalism and esotericism Western Sufism is the product not of the new age but of Islam the ancient world and centuries of Western religious and intellectual history Using sources from antiquity to the internet Sedgwick demonstrates that the phenomenon of Western Sufism draws on centuries of intercultural transfers and is part of a long established relationship between Western thought and Islam *Philosophy and Art in Gurdjieff's Beelzebub* Anna T. Challenger, 2021-07-26 This book demonstrates that the most forceful contribution to George Gurdjieff's world view is Sufism understood as the tradition of seeking truth wherever it can be found especially at the meeting place of the world religions Gurdjieff's masterpiece *Beelzebub's Tales to His Grandson* is philosophically analyzed in its use of literary devices to jolt the reader into radical transformation *G.I. Gurdjieff* Colin Wilson, 2019-02-21 Presents the life and work of one of the most influential psychological theorists of modern times George Ivanovitch Gurdjieff This examination of a psychologist and teacher of genius also provides an introduction to the philosophy of Gurdjieff This work presents the life and work of one of the most influential psychological theorists of modern times George Ivanovitch Gurdjieff is one of the most enigmatic figures of our time He attracted legends as easily as disciples But behind the Gurdjieff myth lies a solid corpus of thought the importance of which is only now being generally recognized At its heart was the idea of the war against sleep the fact that man in Colin Wilson's words is like a grandfather clock driven by a watch spring This brilliant and much praised examination of a psychologist and teacher of genius has established itself as the most important and accessible account for the general reader of Gurdjieff's life and work This edition has been revised and expanded providing the definitive introduction to the philosophy of Gurdjieff UFOs, Conspiracy Theories and the New Age David G. Robertson, 2016-02-25 How and why were UFOs so prevalent in both conspiracy theories and the New Age milieu in the post Cold War period In this ground breaking book David G Robertson argues that UFOs symbolized an uncertainty about the boundaries between scientific knowledge and other ways of validating knowledge and thus became part of a shared vocabulary Through historical and ethnographic case studies of three prominent figures novelist and abductee Whitley Strieber environmentalist and reptilian proponent David Icke and David Wilcock alleged reincarnation of Edgar Cayce the investigation reveals that millennial conspiracism offers an explanation as to why the prophesied New Age failed to arrive it was prevented from arriving by malevolent hidden others Yet millennial conspiracism constructs a counter elite a gnostic third party defined by their special knowledge An overview of the development of UFO subcultures from the perspective of religious studies *UFOs Conspiracy Theories and the New Age* is an innovative application of discourse analysis to the study of

present day alternative religion **Advancing Utopistics** Mohammad H. Tamdgidi, 2015-12-03 Mohammad H Tamdgidi is Assistant Professor of Sociology at the University of Massachusetts Boston He is the Founding Editor of Human Architecture Journal of the Sociology of Self Knowledge Classical Spirituality in Contemporary America Michael S. G I Gurdjieff d 1949 remains an important if controversial figure in early 20th century Western Esoteric thought Born in the culturally diverse region of the Caucasus Gurdjieff traveled in Asia Africa and elsewhere in search of practical spiritual knowledge Though oftentimes allusive references to Sufi teachings and characters take a prominent position in Gurdjieff's work and writings Since his death a discourse on Gurdjieff and Sufism has developed through the contributions as well as critiques of his students and interlocutors J G Bennett began an experimental Fourth Way school in England in the 1970s which included the introduction of Sufi practices and teachings In America this discourse has further expanded through the collaboration and engagement of contemporary Sufi teachers This work does not simply demonstrate the influence of Gurdjieff and his ideas but approaches the specific discourse on and about Gurdjieff and Sufism in the context of contemporary religious and spiritual teachings particularly in the United States and highlights some of the adaptive boundary crossing and hybrid features that have led to the continuing influence of Sufism *In Search of P. D. Ouspensky* Gary Lachman, 2014-03-17 P D Ouspensky's classic work *In Search of the Miraculous* was the first to disseminate the ideas of G I Gurdjieff the mysterious master of esoteric thought in the early twentieth century who still commands a following today Gurdjieff's mystique has long eclipsed Ouspensky once described by Gurdjieff as nice to drink vodka with but a weak man Yet Ouspensky was a brilliant accomplished philosopher in his own right and some consider his meeting with the charismatic Mr G the catastrophe of his life Indeed in subsequent years Ouspensky tried hard with limited success to break away This book moves Ouspensky's own story center stage against the backdrop of the Russian Revolution the dervishes of Constantinople and a cosmopolitan Europe entre deux guerres The archetypal encounter it describes echoes that of Don Juan and Castaneda or perhaps Mephistopheles and Faust One of the great mystical adventures of our time it will fascinate everyone interested in the farthest reaches of what it means to be human The paperback edition includes a new chapter on Gary Lachman's own former work in Gurdjieff's psychology **Rethinking Religion in the Theatre of Grotowski** Catharine Christof, 2017-03-27 This book opens a new interdisciplinary frontier between religion and theatre studies to illuminate what has been seen as the religious or spiritual nature of Polish theatre director Jerzy Grotowski's work It corrects the lacunae in both theatre studies and religious studies by examining the interaction between the two fields in his artistic output The central argument of the text is that through an embodied and materialist approach to religion developed in the work of Michel Foucault and religious studies scholar Manuel Vasquez as well as a critical reading of the concepts of the New Age a new understanding of Grotowski and religion can be developed It is possible to show how Grotowski's work articulated spiritual experience within the body achieving a removal of spirituality from ecclesial authorities and relocating spiritual

experience within the body of the performer This is a unique analysis of one of the 20th Century s most famous theatrical figures As such it is a vital reference for academics in both Religion and Theatre Studies that have an interest in the spiritual aspects of Grotowski s work *Gurdjieff* James Moore,1991 First major biography of this true revolutionary thinker A masterful work offering remarkable scholarship insight and humor Human Rights Quarterly ,1981 A comparative and international journal of the social sciences humanities and law
