Swearengen, 2007-03-01 Technology is shaping our culture and controlling our lives for better or for worse Often technology s benefits far outweigh its negative impacts and technological advances can seem boundless But the scientific technological

worldview tends to override other value systems Indeed this technological way of thinking has influenced many contemporary ideas beliefs values habits and ways of communicating Furthermore in addition to technology s well known environmental impacts social aesthetic and spiritual consequences are now emerging How can we balance positive physical effects of technology with other ambiguous or negative impacts Some of the decisions we face have no precedent from which to draw wisdom For this reason the resources of Scripture and the Christian tradition must be brought to bear on technological questions How is technology used and abused today Does technological progress lead to human progress How can Scripture help us both individually and collectively to manage technology s impact in proactive ways Swearengen uncovers a comprehensive scriptural mandate for managing technology On his way to a theology of technology he evaluates which advances are moving society in directions consistent with God s purposes Beyond Paradise Technology and the Kingdom of God aims to provide practical means for assessing technology s influence and for steering technology and its effects toward biblical ends *Lest We Forget...
