Tar Heel Politics 2000 Paul Luebke, 2000-11-09 Offering an insightful analysis of North Carolina political trends and personalities Paul Luebke moves beyond the usual labels of Republican and Democrat conservative and liberal In Tar Heel Politics 2000 he argues that North Carolina s real political battle is between two factions of the state s political and economic elite modernizers and traditionalists Modernizers draw their strength from the bankers developers news media and other urban interests that support growth he says Traditionalists in contrast are rooted in small town North Carolina and fundamentalist Protestantism tied to agriculture and low wage industries and threatened by growth and social change Both modernizers and traditionalists are linked with politicians who represent their interests An updated and revised version of Luebke s Tar Heel Politics Myths and Realities 1990 Tar Heel Politics 2000 highlights the resurgence of the southern Republican Party for the first time in a century and discusses a number of significant changes that have occurred over the last decade These include the institutionalization of a viable two party system in the General Assembly the further shift of native born whites throughout the South into the Republican voting column and ideological conflict in North Carolina that parallels to some extent the post 1994 battles between the Republican Congress and the Clinton White House In addition the book provides a detailed analysis of the political appeal of Senator Jesse Helms and draws on Luebke s insights as a member of the North Carolina State House since 1991

Like Night and Day Daniel J. Clark, 2000-11-09 Daniel Clark demonstrates the dramatic impact unionization made on the lives of textile workers in Henderson North Carolina in the

decade after World War II Focusing on the Harriet and Henderson Cotton Mills he shows that workers valued the Textile Workers Union of America for more than the higher wages and improved benefits it secured for them Specifically Clark points to the importance members placed on union instituted grievance and arbitration procedures which most labor historians have seen as impediments rather than improvements From the signing of contracts in 1943 until a devastating strike fifteen years later the union gave local workers the tools they needed to secure at least some measure of workplace autonomy and respect from their employer Union instituted grievance procedures were not without flaws says Clark but they were the linchpin of these efforts When arbitration and grievance agreements collapsed in 1958 the result was the strike that ultimately broke the union Based on complete access to company archives and transcripts of grievance hearings this case study recasts our understanding of labor management relations in the postwar South *The Publishers' Trade List Annual* ,1991 The North Carolina Historical Review ,2005 *Major Problems in the History of the American South* Paul D.
