E-Volution Is a Fraud, It's Nothing More Than a Religion Elder JimmyJay Biggs Junior, 2009-06-11 This book is about evolution as opposed to what it really says and what it really means There is no proof facts or evidence to support evolution and for the most part the scientists that support this ideology have no real foundation from on which to stand This book instructs and gives proof facts and evidence that shows evolution is nothing more than someone s belief In the face of reality one chooses the perception of reality this is fine within their vernacular However in the real world one needs tangible PFE in order to excavate one s ideas other wise they are only engaging in religious enthusiasm even though that s fine one can believe in what one wants to however reality is unlike the perception of reality this book chooses not the latter
