The Oberon Globary Of Theatrical Terms:

Costumers at Work: The Collaborative Creativity, Emotional Labour, and Technical Skill of Costume Creation Madeline Taylor, 2025-06-23 *Costumers at Work: The Collaborative Creativity, Emotional Labour, and Technical Skill of Costume Creation* explores the various forms of work carried out in the costume workshop by the myriads of skilled professionals who transform ideas and sketches into the wearable costumes seen on stage. Costume work as collective collaborative and material labour produced by a predominantly female workforce has been long overlooked by the performance industry and those who study it. This book exposes the inherent tensions between theatre's strict hierarchies and collaborative ideology and how these inform the structures negotiated day to day by costumers as they carry out their work. Through close attention to their work, the book establishes costume work as collaborative and complex, a creative and emotional labour that contributes to enhanced storytelling, actor performance, and audience experience. Using extensive ethnographic observation conducted over 14 months at three professional theatre costume workshops around Australia, combined with extant interviews and research from across the globe, *Costumers at Work* provides explicit theories and guidance about the behaviours, skills, and communication modes that make costume collaboration more effective and enjoyable. This book is written for costume researchers, practitioners, and students of theatrical costume design and construction, along with theatre scholars broadly.

Glossary of Literary and Rhetorical Terms Jack Lynch, 1999

A Glossary of Literary Terms and A Handbook of Rhetorical Devices Robert Harris, 1998. Contains definitions of literary and rhetorical terms; also contains a program for individual searches.

A Glossary of Rhetorical Terms Gregory T Howard, 2018-06-12. Every writer desires to write more effectively; every speaker wishes to deliver more powerful orations; and every person wants to communicate more clearly. Those who achieve clarity and effectiveness usually stumble upon it eventually over many years of practice and repetition. Rhetoric makes this process more efficient and effective by providing writers or speakers with the tools to analyze and improve upon their own formal communication. This resource contains over 400 rhetorical devices and definitions. These devices are the music notes of communication. Their study and proper use allow individuals to intricately orchestrate their thoughts and ideas into clear and beautiful statements, sentences, and speeches.

Rhetorical Terms and Concepts George Y. Trail, 2000

Glossary of Greek Rhetorical Terms Connected to Methods of Argumentation, Figures and Tropes from Anaximenes to Quintilian R. Dean Anderson, 2000. This Glossary was written as a companion volume to Anderson's *Ancient Rhetorical Theory* and Paul. It is of course far more than a glossary in the strict sense of that word, providing the reader with a brief overview of the varied use of a given term in the works of the rhetorical theorists from Anaximenes (end of the 4th century BC) through to Quintilian (end of the first century AD). For this time period, an attempt has been made to provide the reader with an exhaustive list of references to the primary texts. The Glossary is primarily intended as an aid to those attempting to use and apply Greek rhetorical methods of argumentation, excluding the theoretical stasis terminology, figures

and tropes to literature of the Hellenistic and early Imperial period That is however not to say that use of this glossary may not be handy for those wishing to utilise later sources Whilst the Glossary also includes reference to later sources where these illuminate concepts functioning within the target period the use of this work in conjunction with the reading of late rhetorical sources should aid the reader in determining where theoretical or terminological development is taking place and where the sources are clearly relying upon traditional concepts The Glossary is not intended to replace the study of primary rhetorical texts but to facilitate this study by providing a brief overview and by pointing the reader to appropriate passages in various works which may then be further consulted

Glossary of Literary Terms and A Handbook of Rhetorical Devices, 1997 Presents A Glossary of Literary Terms and A Handbook of Rhetorical Devices compiled by Robert Harris a professor of English at Southern California College in Costa Mesa California Lists the items that are available in both the glossary and the handbook Allows users to do searches and contains instructions on how to do the searches Includes a preface introduction and self test for A Handbook of Rhetorical Devices
