Pelkaus, Andrejs Veisbergs, 1999 International and National Law in Russia and Eastern Europe Ferdinand J.M. Feldbrugge, Roger Clark, Stanislaw Pomorski, 2021-11-22 The disappearance of the USSR as a superpower to be replaced by the Russian Federation and a host of new states has had wide ranging consequences in the field of law The establishment of market economies and the need to set up institutional frameworks to foster the rule of law have precipitated comprehensive domestic law reforms in the countries concerned The major focus of the present work however is on the metamorphosis of the network of international law relations brought about by the fundamental change in the political and constitutional climate and the emergence of numerous new actors Apart from the relations between states as the classical province of international law the impact of international law on national legal orders has acquired overwhelming importance and the successor states of the Soviet Union have not escaped the effect of this development Some of the most urgent questions thrown up by these developments are analyzed by a team of leading legal specialists from the Russian Federation North America and Western Europe Occupation of Latvia , 2004 Baltic Yearbook of International Law , 2003 Ineta Ziemele, 2003 The Baltic Yearbook of International Law is an annual publication containing contributions on topical issues in international law and related fields that are relevant to Baltic affairs and beyond In addition to articles on different aspects of international law each Yearbook focuses on a theme with particular importance to the development of international law Volume 3 contains contributions that were presented at or inspired by the conference entitled Reparations to States Groups and Individuals Implementation of State Responsibility organised on the occasion of the inauguration of the Yearbook Undoubtedly there are many difficult legal and political questions surrounding the implementation of the law of State responsibility and this volume addresses only some of them The contributions disclose several fundamental questions concerning the implementation of State responsibility Can or should the general principles of State responsibility such as the obligation of full reparation be modified when applied within a specific framework of a treaty regime Can or should these principles be modified when a

State Continuity and Nationality: The Baltic States and Russia Ineta Ziemele, 2025-09-01 Political changes in Central and Eastern Europe in the 1990s led to important territorial changes and confronted decision makers and international lawyers with complex questions relevant to State continuity and succession The case of the Baltic States was particularly difficult since they re emerged after half a century of Soviet occupation In addition to questions on the status of new States important issues arose with regard to the fate of nationals of the former federations generating frantic international efforts in developing and consolidating available rules and principles on nationality in situations of territorial change In this context the Baltic case stood apart It raised questions of non recognition of consequences of their illegal occupation in international law but that was not the way the issues were dealt with The book documents and examines the story of the Soviet occupation of the Baltic States in 1940 and their claim to State continuity fifty years later It brings in the issue of the obligations of Russia in this context The book asks the question what nationality solutions had to be adopted in the region and shows the scrutiny they received from international institutions This second edition of the book revisits decisions that were taken in the 1990s and asks whether they have withstood the test of time The case of the Baltic States is an example of the strength of international law rules when applied with courage and of the risks when too many compromises with rules and principles are accepted Although the book is specific in its coverage it is of general importance because it draws conclusions concerning developments in law and practice which are relevant for a better understanding and regulation of statehood and nationality in international law
