Union Women Mary Margaret Fonow, 2003 For more than a quarter century steel mills in the United States and Canada have produced more than metal they have produced a new kind of worker and union activist Women of Steel In an era labeled postfeminist and postindustrial women have created spaces in this quintessentially male dominated workforce from which to mobilize for their rights as women and workers In Union Women Mary Margaret Fonow captures the stories of the women of the United Steelworkers She focuses on a tenacious group who used their developing power in the union to challenge sex discrimination and to advocate for women's rights and applied their transnational resources to construct a feminist response to globalization and economic restructuring In the process they have transformed the organizations resources and networks of both the labor and women's movements and have in turn transformed themselves into feminists In Union Women Fonow uses statistical archival and ethnographic research methods to provide a broad historical account of women in the steel industry Fonow's sweeping approach allows her to examine several key issues in social movement feminist and political theory and to show that insights from these fields shape each other She explores how social movements are gendered how working class women develop a feminist consciousness and how this process is informed by intersecting demands of race class and gender As a comparative cross national study Union Women also demonstrates how different political and social cultures affect women's organizing and strategic decisions Finally Fonow emphasizes that economic restructuring and globalization pose immediate challenges for women as laborers and activists and that in order to survive all unions must develop organizing and mobilization strategies informed by feminism and other social movements

*Feminisms and Womanisms* Althea Prince, Susan Silva-Wayne, 2004 *Feminisms and Womanisms* brings together theory and practical application so that feminist discourse interacts as a partner with the lived experience of women's social action The selections combine classics in feminist thought with work from modern theorists and offer a solid foundation in international feminism The conceptual understanding embedded in the terms feminism and womanism contributes to feminist discourse a carefully differentiated focus on the ideological uses of language to define relationships that have been historically mired in domination The terms also define the way gender often has been used to signify and support domination Given that feminism and womanism are interpretive concepts there is always a sense that knowledge making is in progress for there is nothing static or stagnant about feminism feminist theory and feminist action The formative nature of the feminist movement has of necessity a parallel interpretive theory This reader embraces both the formative nature of the movement and the accompanying interpretive theories It also pays attention to the chronological cultural geopolitical racial and ethnic landscapes and sites where women live carry out social action and theorize issues of equality For both the general and academic reader this book will be edifying while providing exposure to the feminist womanist voices that inform the scholarship

Thorn, 2016-07-22 In *From Left to Right* Brian Thorn explores what motivated Canadian women to become politically engaged in the 1940s and 50s Although women in these decades are often depicted as being trapped in the suburbs caring for children baking pies and leaving politics to men they joined diverse political parties including the Social Credit Party the Co operative Commonwealth Federation and the Communist Party of Canada Thorn argues controversially that while women on the left and right had different goals their activism continued to be informed by maternalism They used their roles as wives and mothers to influence their parties positions on war and unions to break down barriers between the private and public spheres and to push for a new world order Along the way they laid the foundations for the 1960s feminist movement *International and Comparative Employment Relations* Greg J.
