Situating Readers Students Making Meaning Of Literature:

Situating Readers Harold A. Vine, Mark A. Faust, 1993 Using an approach developed and refined over a combined 44 years of teaching this book encourages literature teachers at the high school and college levels to empower their students as readers and meaning makers of literature The book presents results of a research study in which 288 students ranging from junior high school to graduate school responded in writing to the same 18 line poem After an introductory section the second section of the book presents in full the writings on the poem prepared by a dozen of these students and then examines the students different approaches to accounting for the general situation of the poem the particular situation and the various voices that the students heard in the poem The third section discusses what disempowers meaning making what empowers meaning making and how teachers might empower readers in their classrooms A concluding section presents continuing reflections RS *Resources in Education*, 1997 *Handbook of Reading Research, Volume III* Michael L. Kamil, Peter B. Mosenthal, P. David Pearson, Rebecca Barr, 2016-11-18 In Volume III as in Volumes I and II the classic topics of reading are included from vocabulary and comprehension to reading instruction in the classroom and in addition each contributor was asked to include a brief history that chronicles the legacies within each of the volume s many topics However on the whole Volume III is not about tradition Rather it explores the verges of reading research between the time Volume II was published in 1991 and the research conducted after this date The editors identified two broad themes as representing the myriad of verges that have emerged since Volumes I and II were published 1 broadening the definition of reading and 2 broadening the reading research program The particulars of these new themes and topics are addressed **Reader Response in**

Secondary and College Classrooms Nicholas J. Instructional Models in Reading Steven A. Stahl,David A. Hayes,2013-04-03 This book started with a simple idea examine models of reading instruction that have emerged during the past 20 years These models span a wide range of instruction

representing a continuum from highly structured task analytic instruction to child centered and holistic instruction Each model has its own epistemology or views on how reading and instruction are to be defined The different epistemologies indicate different principles of instruction which in turn indicate different practices in the classroom Each model is also supported by a different research base In this volume leading proponents of these different models discuss their ideas about reading instruction thereby encouraging readers to make their own comparisons and contrasts The chapter authors seem to adopt the editors eclectic approach to some greater or lesser extent incorporating aspects of other models into their instruction as they see other goals Thus models of reading instruction are complex Complicating matters further is the fact that teachers hold their own models of reading which may or may not be congruent with those discussed here Although academically developed models influence college preservice and in service instruction teachers own models of reading filter the information that they take from what they learn from these perspectives By carefully examining these variables this book makes a firm contribution toward disciplined inquiry into what it means to teach reading
