*Experimental Slips and Human Error* Bernard J. Baars,2013-06-29 Whereas most humans spend their time trying to get things right psychologists are perversely dedicated to error Errors are extensively used to investigate perception memory and performance some clinicians study errors like tea leaves for clues to unconscious motives and this volume presents the work of researchers who in an excess of perversity actually cause people to make predictable errors in speech and action Some reasons for this oddity are clear Errors seem to stand at the nexus of many deep psychological questions The very concept of error presupposes a goal or criterion by comparison to which an error is an error and goals bring in the foundation issues of control motivation and volition Baars 1987 1988 Wiener 1961 Errors serve to measure the quality of performance in learning in expert knowledge and in brain damage and other dysfunctional states and by surprising us they often call attention to phenomena we might otherwise take for granted Errors also seem to reveal the natural joints in perception language memory and problem solving revealing units that may otherwise be invisible e g MacKay 1981 Miller 1956 Newell Treisman Gelade 1980 **S.O.S.** Frank H. Bechtel,2012-02 Homer in all probability knew no rules of rhetoric and was not tortured with the consideration of grammatical construction and yet his verse will endure through time If everybody possessed the genius of Homer rules and cautions in writing would be unnecessary Today all men speak and most men write but it is observed that those who most closely follow Homer s method of writing without rules are most unlike Homer in the results The ancient bard was a law unto himself we need rules for our guidance Rules of writing are the outgrowth of the study of the characteristics and qualities of style which distinguish the best writers from those of inferior skill and ability Grammarians and rhetoricians according to their several lines of investigation set forth the laws and principles governing speech and formulate rules whereby we may follow the true and avoid the false Grammar and rhetoric as too often presented in the schools are such uninviting studies that when 4 school days are ended the books are laid aside and are rarely consulted afterward The custom of formally burning the text books after the final examinations a custom that prevails in some institutions is but an emphatic method of showing how the students regard the subjects treated in the books 2 If all the rules and principles had been thoroughly mastered the huge bonfire of text books in grammar and rhetoric might be regarded a fitting celebration of the students victory over the difficulties of English undefiled But too often these rules are merely memorized by the student for the

purpose of recitation and are not engrafted upon his everyday habit of speech They are therefore soon forgotten and the principles involved are subject to daily violation Hence arises the need of books like SLIPS OF SPEECH in which the common faults of speakers and writers are pointed out and the correct use of words shown Brief and informal in treatment they will be read and consulted when the more voluminous textbooks will be left untouched The copious index appended to this volume will afford a ready reference to the many subjects discussed and will contribute greatly to the convenience and permanent value of the book

*The Soul in Everyday Life* Daniel Chapelle, 2003-09-25 Argues that contemporary psychology neglects the soul and addresses ways to remedy this The Soul in Everyday Life argues that modern psychology has given up on dealing with the idea of soul or psyche even though the field is named after it If psychology wishes to be truly satisfying it needs to be more than behavioral science according to Daniel Chapelle He concludes that psychology can only satisfy the deepest human needs when it can offer a sense of soul in everyday life He explores ways of restoring this sense of soul to everyday life by examining how talk about something as elusive as the soul is possible and by reanimating a sense for what the notion of soul can mean Working in the tradition of Nietzsche Freud Jung and Jung's student James Hillman Chapelle reaches back into millennia of Western thought to reanimate the dying sense of soul in everyday life and put the psyche back in psychology
