Song of the Stars Credo Vusa'mazulu Mutwa, 1996 Vusamazulu Credo Mutwa healer shaman and spiritual leader for millions of Black Africans presents lore prophecies dreams tales and a comprehensive sketch of the rich mythology of the African people This is also his personal story Working with Spirit Jo Thobeka Wreford, Joanne Wreford, 2008 In the current model of health dispensation in South Africa there are two major paradigms the spirit inspired tradition of izangoma sinyanga and biomedicine These operate at best in parallel but more often than not are at odds with one another This book based on the author's personal experience as a practitioner of traditional African medicine considers the effects of the absence of spirit in biomedicine on collaborative relationships Given the unprecedented challenge of the HIV AIDS epidemic in the country the author suggests that more cooperation is vital Taking a critical look at the role of anthropology in this endeavor she proposes the development of a language of spirit by means of which the spirit inspired aetiology of izangoma sinyanga may be made comprehensible to academic scientists and applicable to medical interventions The author discusses white izangoma in the context of current debates on healing and hybridity and insists that there exists a powerful role for izangoma in the realm of societal healing Above all the book constitutes a start in what the author hopes will develop into an ongoing intellectual conversation between traditional African healing academe and biomedicine in South Africa EBOOK: Conscious and Unconscious David Edwards, Michael Jacobs, 2003-11-16 All forms of psychotherapy deal with the limitations of our awareness We have limited knowledge of our creative potential of the details of our own behaviour of our everyday emotional states of what motivates us and of the many factors within and around us which influence the decisions we make and the ways we act Some therapists especially those influenced by Freud and Jung speak of the unconscious giving the unintended impression that it is a kind of realm or domain of activity Others reacting against the specifics of Freudian theory shun the word unconscious altogether However so limited is the reach of everyday awareness and such is the range of unconscious factors that one way or another these limitations must somehow be spoken about sometimes in metaphor sometimes more explicitly This book offers a broad survey of psychotherapy discourses including The psychoanalytic The interpersonal The experiential The cognitive behavioural The transpersonal This book offers a comprehensive overview of the ways in which these discourses employ a rich variety of concepts to address the limits of our everyday consciousness Conscious and Unconscious is invaluable reading for all those interested in counselling and psychotherapy including those in training as well as for experienced therapists **NEUROEPISTEMOLOGY** YURI ZAMBRANO, 2012-10-01 The Epistemologic study of the mind mind problem Mind brain ToM and conscious cognition can apply the Theory of Neuronal Epistemology TNE based on backpropagation of specific neural networks For operating in functionalist terms and in a cognitive way the TNE is supported by a connectionist model holding the algorithmic equation that includes probabilistic features spatiotemporal units computational components and fractal geometric tensorial variables The main arguments of the

TNE deal with the study of diverse neuronal lineages and their sophisticated specialization Neuronalism and the neurons knowledge A second argument is the Protein Epistem determining this specialization degree and the third is associated with connectionism The essential unit of the TNE formula is the Fractal Coincidental Pattern FCP used for evaluating the multiple vectorial probabilities of this small world during the quantal release of neurotransmitters
