Vaughan Williams Essays Robin Wells, 2017-07-05 Serious scholarship on the music of Ralph Vaughan Williams is currently enjoying a lively revival after a period of relative quiescence and is only beginning to address the enduring affection of concert audiences for his music. The essays that comprise this volume extend the study of Vaughan Williams's music in new directions that will be of interest to scholars, performers, and listeners alike. This volume contains the work of eleven North American scholars who have been recipients of the Ralph Vaughan Williams Fellowship based at the composer's own school, Charterhouse, which was created and has been supported by the Carthusian Trust since 1985. This wide-ranging and detailed collection of essays covers the spectrum of genres in which Vaughan Williams wrote, including dance, symphony, opera, song, hymnody, and film music. The contributors also employ a range of analytical and historical methods of investigation to illuminate aspects of Vaughan Williams's compositional techniques and influences, musical, literary, and visual.
