Kingdom Michelle Lamarche Marrese, 2018-09-05 In *A Woman's Kingdom* Michelle Lamarche Marrese explores the development of Russian noblewomen's unusual property rights. In contrast to women in Western Europe who could not control their assets during marriage until the second half of the nineteenth century, married women in Russia enjoyed the right to alienate and manage their fortunes beginning in 1753. Marrese traces the extension of noblewomen's right to property and places this story in the broader context of the evolution of private property in Russia before the Great Reforms of the 1860s. Historians have often dismissed women's property rights as meaningless. In the patriarchal society of Imperial Russia, a married woman could neither work nor travel without her husband's permission, and divorce was all but unattainable. Yet through a detailed analysis of women's property rights from the Petrine era through the abolition of serfdom in 1861, Marrese demonstrates the significance of noblewomen's proprietary power. She concludes that Russian noblewomen were unique not only for the range of property rights available to them but also for the active exercise of their legal prerogatives. A remarkably broad source base provides a solid foundation for Marrese's conclusions. These sources comprise more than eight thousand transactions from notarial records documenting a variety of property transfers, property disputes brought to the Senate, noble family papers, and a vast memoir literature. *A Woman's Kingdom* stands as a masterful challenge to the existing androcentric view of noble society in Russia before Emancipation.

Qing Encounters Petra ten-Doesschate Chu, Ning Ding, 2015-10-01 *Qing Encounters: Artistic Exchanges between China and the West* examines how the contact between China and Europe in the eighteenth and early nineteenth centuries transformed the arts on both sides of the East-West divide. The essays in the volume reveal the extent to which images, artifacts, and natural specimens were traded and copied, and how these materials inflected both cultures' visions of novelty and pleasure, battle and power, and ways of seeing and representing. Artists and craftspeople on both continents borrowed and adapted forms, techniques, and modes of representation, producing deliberate, meaningful, and complex new creations. By considering this reciprocity from both Eastern and Western perspectives, *Qing Encounters* offers a new and nuanced understanding of this critical period.
