A Lecture, Etc** Rudolf Steiner, 1935 **The Burning Bush** Edward Reaugh Smith, 1997-07 Even more significant for Christianity in the long run than the twentieth century Dead Sea and Nag Hammadi discoveries is the growing North American awareness of Rudolf Steiner's works Virtually unavailable until the end of the twentieth century English translations from the German archives are gradually coming into print Both Steiner and his works have thus far been virtually unknown in traditional theological circles No Bible commentary has yet reflected the remarkable spiritual insights of Anthroposophy Now ten years after first encountering a written comment about Rudolf Steiner Ed Smith combines his own extensive traditional biblical knowledge with his years of concentrated study and reflection on hundreds of assembled works by Steiner The result is the first Bible commentary in the light of anthroposophic insight This is the first volume of a series of Bible commentary by the author It is based on the anthroposophic understanding given to humanity by Rudolf Steiner during the first quarter of the twentieth century Bible commentaries have always reflected the general line of thinking of their authors However the dramatic newness of anthroposophic thought means that perhaps the usual method of using a Bible commentary is not appropriate here A large part of *The Burning Bush* is necessarily devoted to laying an anthroposophic or spiritual scientific groundwork A major assumption indulged in most Bible commentaries that one can go directly to portions dealing with given passages of scripture and understand what is being said about them does not fit *Compiled Lectures by Rudolf Steiner* Rudolf Steiner, 2006 **Europe** Maria Schindler, 2019-10-23 European thought and culture has had an enduring impact worldwide but Europe has also been a focus of conflict and war on a global scale With its international influence Europe bears a responsibility in example and practise for humanity's further development First published in English in 1975 this timely facsimile reprint of Maria Schindler's classic work provides valuable spiritual insight into Europe's contribution to human civilisation its past as well as its future tasks at a critical time in the continent's destiny Based on decades of first hand experience and multi lingual study the author weaves a pictorial tapestry of Europe's biographical history in all its human earthly and cosmic content In past centuries says Schindler world changing events were centred in the destinies of single countries or nations Today the individual needs of nations must be brought into harmony with the requirements of mankind as a whole The enormity of humanity's problems demand fresh insights based on new solutions with firm foundations The author presents her intimate knowledge of European folklore and languages in connection with Willi Sucher's star wisdom the researches of Dr W J Stein and Dr Eugen Kolisko and the inspiration of Rudolf Steiner and his cosmological and spiritual
